

requests are received. Registered speakers who wish to expand upon their oral statements, or those who had wished to speak but could not be accommodated on the agenda, may submit written statements to the Designated Federal Officer up to 30 days following the meeting.

Accessibility Information

Please make requests in advance for sign language interpreter services, assistive listening devices, or other reasonable accommodations. Please contact the Designated Federal Officer (see **FOR FURTHER INFORMATION CONTACT**) at least 7 business days prior to the meeting to give the U.S. Fish and Wildlife Service sufficient time to process your request. All reasonable accommodation requests are managed on a case-by-case basis.

Public Disclosure

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Authority: 5 U.S.C. 10.

Paul Rauch,

Assistant Director, Wildlife and Sport Fish Restoration, U.S. Fish and Wildlife Service.

Notice of Inventory Completion: Antonio J. Waring, Jr. Archaeological Laboratory, University of West Georgia, Carrollton, GA

AGENCY: National Park Service, Interior.

ACTION: Notice.

SUMMARY: In accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), the Antonio J. Waring, Jr. Archaeological Laboratory has completed an inventory of human remains and has determined that there is a cultural affiliation between the human remains and Indian Tribes or Native Hawaiian organizations in this notice. The human remains were removed from Douglas County, GA.

DATES: Repatriation of the human remains in this notice may occur on or after March 17, 2023.

ADDRESSES: Dr. Nathan R. Lawres, Laboratory Director, Antonio J. Waring, Jr. Archaeological Laboratory, University of West Georgia, 1601 Maple Street, Carrollton, GA 30118, telephone (678) 839-6454, email nlawres@westga.edu.

SUPPLEMENTARY INFORMATION: This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA. The determinations in this notice are the sole responsibility of the Antonio J. Waring, Jr. Archaeological Laboratory. The National Park Service is not responsible for the determinations in this notice. Additional information on the determinations in this notice, including the results of consultation, can be found in the inventory or related records held by the Antonio J. Waring, Jr. Archaeological Laboratory.

Description

In the summer of 1972, human remains representing, at minimum, two individuals were removed from the Annawakee Creek Site (9DO2) in Douglas County, GA, by Dr. Roy Dickens, a faculty member of the Anthropology Department at Georgia State University. Dickens reported on these excavations in the Southeastern Archaeological Conference Bulletin, No. 18, pp. 31-42 (see particularly pp. 36-38). Commenting on these human remains, Dickens stated, "No burials were found in the 1972 excavations although the owner had recovered two partial skeletons in his initial grading operations" (Dickens, 1975:38). The collection was acquired by the Antonio J. Waring Archaeological Laboratory, University of West Georgia, through a transfer of archeological collections and records from Georgia State University to West Georgia College, presently the University of West Georgia. This transfer took place in the summer of 1991, following the termination of the archeological component of the anthropology program of Georgia State University. Incomplete copies of skeletal inventories conducted at the Georgia State University Laboratory of Archaeology by R. Johnson on October 11, 1973, are the only records that accompany the Annawakee Creek Mound Collection. No known individuals were identified. No associated funerary objects are present.

Officials of the Antonio J. Waring Archaeological Laboratory have determined that, pursuant to 25 U.S.C. 3001(9), the human remains described

in this notice represent the physical remains of two individuals of Native American ancestry based on morphological traits of the human remains and the archeological context from which they were recovered. The archeological context suggests a Middle Woodland Period chronological association, and on the basis of the ceramic types present, the human remains most likely date to A.D. 300-600. Additionally, there is a ¹⁴C date of A.D. 605 ± 85 [GX2825] that was obtained from charred wood associated with Middle Woodland Period ceramics.

Further assessment of the human remains and associated collections was made by Antonio J. Waring, Jr. Archaeological Laboratory professional staff in consultation with members of the STARR Alliance, including representatives of the Cherokee Nation; Coushatta Tribe of Louisiana; Eastern Band of Cherokee Indians; Mississippi Band of Choctaw Indians; Seminole Tribe of Florida; The Choctaw Nation of Oklahoma; The Muscogee (Creek) Nation; and The Seminole Nation of Oklahoma.

Cultural Affiliation

The human remains in this notice are connected to one or more identifiable earlier groups, tribes, peoples, or cultures. There is a relationship of shared group identity between the identifiable earlier groups, tribes, peoples, or cultures and one or more Indian Tribes or Native Hawaiian organizations. The following types of information were used to reasonably trace the relationship: archeological, geographical, oral traditional, expert opinion, and other relevant information.

Determinations

Pursuant to NAGPRA and its implementing regulations, and after consultation with the appropriate Indian Tribes and Native Hawaiian organizations, the Antonio J. Waring, Jr. Archaeological Laboratory has determined that:

- The human remains described in this notice represent the physical remains of two individuals of Native American ancestry.
- There is a relationship of shared group identity that can be reasonably traced between the human remains and associated funerary objects described in this notice and the Kialegee Tribal Town; Miccosukee Tribe of Indians; Poarch Band of Creek Indians; Seminole Tribe of Florida; The Muscogee (Creek) Nation; The Seminole Nation of Oklahoma; and the Thlopthlocco Tribal Town.

Requests for Repatriation

Written requests for repatriation of the human remains in this notice must be sent to the Responsible Official identified in **ADDRESSES**. Requests for repatriation may be submitted by:

1. Any one or more of the Indian Tribes or Native Hawaiian organizations identified in this notice.

2. Any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or a culturally affiliated Indian Tribe or Native Hawaiian organization.

Repatriation of the human remains in this notice to a requestor may occur on or after March 17, 2023. If competing requests for repatriation are received, the Antonio J. Waring, Jr.

Archaeological Laboratory must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the human remains are considered a single request and not competing requests. The Antonio J. Waring, Jr. Archaeological Laboratory is responsible for sending a copy of this notice to the Indian Tribes identified in this notice.

Authority: Native American Graves Protection and Repatriation Act, 25 U.S.C. 3003, and the implementing regulations, 43 CFR 10.9, 10.10, and 10.14.

Dated: February 8, 2023.

Melanie O'Brien,

Manager, National NAGPRA Program.

Notice of Inventory Completion: University of Northern Colorado, Greeley, CO

AGENCY: National Park Service, Interior.

ACTION: Notice.

SUMMARY: In accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), the University of Northern Colorado (UNC) has completed an inventory of human remains and has determined that there is a cultural affiliation between the human remains and Indian Tribes or Native Hawaiian organizations in this notice. The human remains were removed from Weld County, CO.

DATES: Repatriation of the human remains in this notice may occur on or after March 17, 2023.

ADDRESSES: Dr. Andrew T. Creekmore III, University of Northern Colorado, 501 20th Street, Greeley, CO 80638, telephone (970) 351-2761, email andrew.creekmore@unco.edu.

SUPPLEMENTARY INFORMATION: This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA. The determinations in this notice are the sole responsibility of the UNC. The National Park Service is not responsible for the determinations in this notice. Additional information on the determinations in this notice, including the results of consultation, can be found in the inventory or related records held by the UNC.

Description

At an unknown date, human remains representing, at minimum, one individual were removed from Weld County, CO. The human remains belong to one adult female. No known individual was identified. No associated funerary objects are present.

In the 1970s, human remains representing, at minimum, one individual were removed from Weld County, CO. The human remains belong to one adult of indeterminate sex. No known individual was identified. No associated funerary objects are present.

Cultural Affiliation

The human remains in this notice are connected to one or more identifiable earlier groups, tribes, peoples, or cultures. There is a relationship of shared group identity between the identifiable earlier groups, tribes, peoples, or cultures and one or more Indian Tribes or Native Hawaiian organizations. The following types of information were used to reasonably trace the relationship: archeological, biological, geographical, and oral traditional.

Determinations

Pursuant to NAGPRA and its implementing regulations, and after consultation with the appropriate Indian Tribes and Native Hawaiian organizations, the UNC has determined that:

- The human remains described in this notice represent the physical remains of two individuals of Native American ancestry.
- There is a relationship of shared group identity that can be reasonably traced between the human remains described in this notice and the Cheyenne and Arapaho Tribes,

Oklahoma; Fort Belknap Indian Community of the Fort Belknap Reservation of Montana; Northern Arapaho Tribe of the Wind River Reservation, Wyoming; Northern Cheyenne Tribe of the Northern Cheyenne Indian Reservation, Montana; Southern Ute Indian Tribe of the Southern Ute Reservation, Colorado; and the Ute Mountain Ute Tribe.

Requests for Repatriation

Written requests for repatriation of the human remains in this notice must be sent to the Responsible Official identified in **ADDRESSES**. Requests for repatriation may be submitted by:

1. Any one or more of the Indian Tribes or Native Hawaiian organizations identified in this notice.

2. Any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or a culturally affiliated Indian Tribe or Native Hawaiian organization.

Repatriation of the human remains in this notice to a requestor may occur on or after March 17, 2023. If competing requests for repatriation are received, the UNC must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the human remains are considered a single request and not competing requests. The UNC is responsible for sending a copy of this notice to the Indian Tribes identified in this notice.

Authority: Native American Graves Protection and Repatriation Act, 25 U.S.C. 3003, and the implementing regulations, 43 CFR 10.9, 10.10, and 10.14.

Dated: February 8, 2023.

Melanie O'Brien,

Manager, National NAGPRA Program.
