

Farm Labor Contractors, Agricultural Employers, and Agricultural Associations, who recruit, solicit, hire, employ, furnish, transport, or house agricultural workers, as well as providers of migrant housing, to meet certain minimum requirements in their dealings with migrant and seasonal agricultural workers. Various sections of the MSPA require respondents (e.g., Farm Labor Contractors, Agricultural Employers, and Agricultural Associations) to disclose terms and conditions in writing to their workers. MSPA § 201(g) and § 301(f) requires that the DOL make forms available to provide such information. The DOL prints and makes optional-use form WH-516, Worker Information—Terms and Conditions of Employment.

MSPA § 201(d) and § 301(c)—29 U.S.C. 1821(d), 1831(c) and regulations 29 CFR 500.80(a), require each Farm Labor Contractor, Agricultural Employer, and Agricultural Association that employs a migrant or seasonal worker to make, keep, and preserve records for three years for each such worker concerning the: (1) Basis on which wages are paid; (2) number of piece work units earned, if paid on a piece work basis; (3) number of hours worked; (4) total pay period earnings; (5) specific sums withheld and the purpose of each sum withheld; (6) net pay. Respondents are also required to provide an itemized written statement of this information to each migrant and seasonal agricultural worker each pay period. See 29 U.S.C. 1821(d), 1831(c), and 29 CFR 500.1–80(d). Additionally, MSPA § 201(e) and § 301(d) require each Farm Labor Contractor provide copies of all the records noted above for the migrant and seasonal agricultural workers the contractor has furnished to other Farm Labor Contractors, Agricultural Employers, or Agricultural Associations who use the workers. Respondents must also make and keep certain records. § 201(c) of the MSPA requires all Farm Labor Contractors, Agricultural Employers, and Agricultural Associations providing housing to a migrant agricultural worker to post in a conspicuous place at the site of the housing, or present to the migrant worker, a written statement of any housing occupancy terms and conditions. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on January 16, 2020 (85 FR 2760).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an

information collection, unless the OMB approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6.

DOL seeks PRA authorization for this information collection for three (3) years. OMB authorization for an ICR cannot be for more than three (3) years without renewal. The DOL notes that information collection requirements submitted to the OMB for existing ICRs receive a month-to-month extension while they undergo review.

Agency: DOL–WHD.

Title of Collection: Disclosures to Workers Under the Migrant and Seasonal Agricultural Worker Protection Act.

OMB Control Number: 1235–0002.

Affected Public: Private Sector: Businesses or other for-profits and farms.

Total Estimated Number of Respondents: 94,729.

Total Estimated Number of Responses: 71,338,888.

Total Estimated Annual Time Burden: 1,202,228 hours.

Total Estimated Annual Other Costs Burden: \$2,853,555.

(Authority: 44 U.S.C. 3507(a)(1)(D))

Dated: August 4, 2020.

Anthony May,

Management and Program Analyst.

BILLING CODE 4510–27–P

NUCLEAR REGULATORY COMMISSION

[NRC–2020–0001]

Sunshine Act Meetings

TIME AND DATE: Weeks of August 10, 17, 24, 31, September 7, 14, 21, 28, October 5, 12, 19, 2020.

PLACE: Commissioners' Conference Room, 11555 Rockville Pike, Rockville, Maryland.

STATUS: Public.

Week of August 10, 2020

There are no meetings scheduled for the week of August 10, 2020.

Week of August 17, 2020—Tentative

There are no meetings scheduled for the week of August 17, 2020.

Week of August 24, 2020—Tentative

There are no meetings scheduled for the week of August 24, 2020.

Week of August 31, 2020—Tentative

There are no meetings scheduled for the week of August 31, 2020.

Week of September 7, 2020—Tentative

There are no meetings scheduled for the week of September 7, 2020.

Week of September 14, 2020—Tentative

Tuesday, September 15, 2020
10:00 a.m. Agency's Response to the COVID–19 Public Health Emergency (Public Meeting)
(Contact: Luis Betancourt: 301–415–6146)

This meeting will be webcast live at the Web address—<https://www.nrc.gov/>.

Thursday, September 17, 2020
10:00 a.m. Transformation at the NRC—Milestones and Results (Public Meeting)
(Contact: Maria Arribas-Colon: 301–415–6026)

This meeting will be webcast live at the Web address—<https://www.nrc.gov/>.

Week of September 21, 2020—Tentative

There are no meetings scheduled for the week of September 21, 2020.

Week of September 28, 2020—Tentative

Wednesday, September 30, 2020
9:00 a.m. Strategic Programmatic Overview of the Operating Reactors and New Reactors Business Lines and Results of the Agency Action Review Meeting (Public Meeting)
(Contact: Candace de Messieres: 301–415–8395)

This meeting will be webcast live at the Web address—<https://www.nrc.gov/>.

Week of October 5, 2020—Tentative

Thursday, October 8, 2020
10:00 a.m. Meeting with the Organization of Agreement States and the Conference of Radiation Control Program Directors (Public Meeting)
(Contact: Celimar Valentin-Rodriguez: 301–415–7124)

This meeting will be webcast live at the Web address—<https://www.nrc.gov/>.

Week of October 12, 2020—Tentative

There are no meetings scheduled for the week of October 12, 2020.

Week of October 19, 2020—Tentative

Wednesday, October 21, 2020
10:00 a.m. Briefing on Human Capital and Equal Employment Opportunity (Public Meeting)
(Contact: Randi Neff: 301–287–0583)

This meeting will be webcast live at the Web address—<https://www.nrc.gov/>.

1:00 p.m. All Employees Meeting with the Commissioners (Public Meeting)

CONTACT PERSON FOR MORE INFORMATION:

For more information or to verify the status of meetings, contact Denise McGovern at 301–415–0681 or via email at Denise.McGovern@nrc.gov. The schedule for Commission meetings is subject to change on short notice.

The NRC Commission Meeting Schedule can be found on the internet at: <https://www.nrc.gov/public-involve/public-meetings/schedule.html>.

The NRC provides reasonable accommodation to individuals with disabilities where appropriate. If you need a reasonable accommodation to participate in these public meetings or need this meeting notice or the transcript or other information from the public meetings in another format (e.g., braille, large print), please notify Anne Silk, NRC Disability Program Specialist, at 301–287–0745, by videophone at 240–428–3217, or by email at Anne.Silk@nrc.gov. Determinations on requests for reasonable accommodation will be made on a case-by-case basis.

Members of the public may request to receive this information electronically. If you would like to be added to the distribution, please contact the Nuclear Regulatory Commission, Office of the Secretary, Washington, DC 20555 (301–415–1969), or by email at Wendy.Moore@nrc.gov or Tyesha.Bush@nrc.gov.

The NRC is holding the meetings under the authority of the Government in the Sunshine Act, 5 U.S.C. 552b.

Dated: August 6, 2020.

For the Nuclear Regulatory Commission.

Denise L. McGovern

Policy Coordinator, Office of the Secretary.

BILLING CODE 7590–01–P

OFFICE OF SCIENCE AND TECHNOLOGY POLICY

Notice of Request for Information on Positioning, Navigation, and Timing Resilience

AGENCY: Office of Science & Technology Policy (OSTP).

ACTION: Notice of request for information (RFI).

SUMMARY: On behalf of the National Science and Technology Council's (NSTC) Subcommittee on Resilience Science and Technology (SRST), OSTP requests input from all interested parties

on the development of a National Research and Development Plan for Positioning, Navigation, and Timing (PNT) Resilience. The plan will focus on the research and development (R&D) and pilot testing needed to develop additional PNT systems and services that are resilient to interference and manipulation and that are not dependent upon global navigation satellite systems (GNSS). The plan will also include approaches to integrate and use multiple PNT services for enhancing resilience. The input received on these topics will assist the Subcommittee in developing recommendations for prioritization of R&D activities.

DATES: Interested persons are invited to submit comments on or before 11:59 p.m. ET on September 9, 2020. Comments received after this date may not be considered.

ADDRESSES: Responses should be submitted via email to PNTresearch@ostp.eop.gov and include "RFI Response: PNT Resilience" in the subject line of the message.

Instructions: Response to this RFI is voluntary. Respondents need not reply to all questions listed. For all submissions, clearly indicate which questions are being answered. Each individual or organization is requested to submit only one response. Submissions should include the name(s) of the person(s) or organization(s) filing the comment. No other personally identifiable information, business proprietary information, or copyrighted information should be included. Submissions should not exceed 10 pages in length using 12 point or larger font and should be in plain text, Microsoft Word, or Adobe PDF format. Submissions that cite references, studies, research, and other empirical data that are not widely published should include copies of, or electronic links to, the referenced materials.

In accordance with Federal Acquisition Regulation 15.201(e), "RFIs may be used when the Government does not presently intend to award a contract, but wants to obtain price, delivery, other market information, or capabilities for planning purposes. Responses to these notices are not offers and cannot be accepted by the Government to form a binding contract." Additionally, the Federal Government will not pay for response preparation or the use of any information contained in the response. Submissions are subject to Freedom of Information Act (FOIA) disclosure and may be posted, without change, on a Federal website.

FOR FURTHER INFORMATION CONTACT: Please direct questions to Adam

Balkcum, OSTP at PNTresearch@ostp.eop.gov 202–456–4444.

SUPPLEMENTARY INFORMATION: PNT has become an "invisible utility" that is integral to and enables a wide array of applications such as financial transactions, synchronization of power networks, and the precision landing approaches of aircraft. PNT services are currently provided or augmented by a number of terrestrial and space-based systems, with the most notable and widely used being the Global Positioning System (GPS). Satellite platforms, such as GPS, provide global coverage but at great distances and with low signal intensity, which can be more easily interfered with at the local level by natural phenomena and by technological means (both intentional and unintentional). On February 12, 2020, President Trump signed Executive Order (E.O.) 13905, "Strengthening National Resilience Through Responsible Use of Positioning, Navigation, and Timing Services," with the goal of ensuring that the Nation's critical infrastructure can withstand disruption or manipulation of PNT services. E.O. 13905 directs the development of a national plan for the R&D and pilot testing of additional, robust, and secure PNT services that are not dependent on GNSS. These additional services may consist of multiple systems with varying functional specifications to satisfy one or more applications with differing requirements. To further enhance infrastructure resilience, the plan will also consider approaches to integrate and use multiple PNT services including GNSS services.

Questions To Inform R&D Plan Development

The SRST seeks a better understanding of current PNT efforts and challenges, how PNT services may be used in the future, and what R&D activities could be beneficial for improving overall system resilience. In responding to the questions below, please consider the priority PNT R&D needs specifically directed towards developing resilient, non-GNSS dependent services and equipment, and the role of the Federal government in executing or encouraging the appropriate R&D activities. Resilience is desired in the overall system, which includes sources of PNT, distribution means, augmentation methods, and user equipment. Resilient systems have protections, mitigations, and responses that allow for continued proper system functioning or recovery within an
