

surveys of primarily the very largest U.S.-resident custodians and end-investors.

Current Actions: No changes in the forms (schedules) or instructions are being proposed at this time. Some clarifications and format changes may be made to improve the instructions.

Type of Review: Renewal without change of a currently approved collection.

Affected Public: Business or other for-profit organizations.

Form: SHC/SHCA, Schedules 1, 2 and 3 (1505-0146).

Estimated Number of Respondents: An annual average (over five years) of 324, but this varies widely from about 760 in benchmark years (once every five years) to about 215 in other years (four out of every five years).

Estimated Average Time per Respondent: An annual average (over five years) of about 200 hours, but this will vary widely from respondent to respondent. (a) In the year of a benchmark survey, which is conducted once every five years, it is estimated that exempt respondents will require an average of 17 hours; custodians of securities providing security-by-security information will require an average of 361 hours, but this figure will vary widely for individual custodians; end-investors providing security-by-security information will require an average of 121 hours; and end-investors and custodians employing U.S. custodians will require an average of 41 hours. (b) In a non-benchmark year, which occurs four years out of every five years: Custodians of securities providing security-by-security information will require an average of 546 hours (because only the largest U.S.-resident custodians will report), but this figure will vary widely for individual custodians; end-investors providing security-by-security information will require an average of 146 hours; and reporters entrusting their foreign securities to U.S. custodians will require an average of 49 hours. The exemption level, which applies only in benchmark years when filing schedules 2 or 3 or both, for custodians and for end-investors is the holding of less than \$200 million in reportable foreign securities owned by U.S. residents. For schedule 2, end-investors should exclude securities that are held with their unaffiliated U.S.-resident custodians.

Estimated Total Annual Burden Hours: An annual average (over five years) of 64,700 hours.

Frequency of Response: Annual.
