

A three-year sampling cycle will provide additional data to improve the overall quality of the passenger mile data used in the apportionment of Federal funds. FTA recognizes that sampling for passenger miles may be burdensome on transit agencies, particularly small ones. As such, FTA is undertaking an effort to revise its sampling guidelines, so as to reduce some of the reporting burden. FTA notes that the new sampling requirements will not impact transit agencies until the 2011 report year, as transit agencies on both the five-year and the three-year cycle were already required to sample for the 2008 report year under the old cycles.

(c) Rail Peak Service Data

One comment requested further direction on FTA's proposal to expand its Federal Funding Allocation form to require transit agencies servicing one large urbanized area and two or more small urbanized areas to allocate their service data across the various small urbanized areas. (For NTD purposes, a large urbanized area is one with 200,000 or more in population, and a small urbanized area is one with less than 200,000 in population.) Previously, FTA's Federal Funding Allocation form only accounted for transit agencies serving one small urbanized area, not two or more. This comment expressed concern about the burden of conducting this allocation for the commenter's own agency.

FTA Responds: FTA notes that the above comment came from a transit agency that serves two large urbanized areas, and only one small urbanized area. As such, the revised guidance does not apply to this transit agency. FTA notes that transit agencies should allocate data across various small urbanized areas in the same way in which many transit agencies already allocate data across various large urbanized areas. Additionally, FTA will provide guidance on this allocation through the 2007 Annual Manual, through NTD training sessions, and through technical assistance available from NTD validation analysts.

(d) Collection of Funding Data by Specific FTA Programs

FTA received one comment in support of its proposal to collect funding data separately for each FTA Program, rather than through a catchall category for "Other FTA Funds."

FTA Responds: FTA thanks the commenter.

(e) CEO Certification Standard Form

FTA received one comment on its proposal to create a standard CEO Certification Form. This commenter was concerned that the standard CEO Certification Form would not be able to accommodate its practice of filing its NTD report before receiving the final report from its auditor.

FTA Responds: FTA notes that its proposed CEO Certification Form includes options 3a and 3b, each of which provides for a transit agency to file its NTD report before receiving the final report from its auditor.

(f) 2007 Reporting Deadlines

FTA received one comment that the ordinary reporting deadlines for transit agencies with 2007 fiscal years ending on or before June 30, 2007, would not be attainable, given that the 2007 Annual Reporting Manual was pending public notice-and-comment.

FTA Responds: FTA agrees with this comment, and establishes the following 2007 NTD Reporting Deadlines for transit agencies with 2007 fiscal years ending on or before June 30, 2007:

Report Due Date: November 30, 2007.

Waiver Request Deadline: November 30, 2007.

Last Date to Receive Report Revisions: May 1, 2008.

Report Closeout: May 15, 2008.

FTA does not change the deadlines for transit agencies with 2007 fiscal years ending after June 30, 2007. FTA further reminds transit agencies that pursuant to 49 CFR 630.6 NTD reporters may request a 30-day extension for submitting their reports.

(g) 2007 Reporting Deadlines

FTA received one comment proposing revised guidance for sampling passenger miles for vanpool service, which are currently covered by the Circular UMTA C 2710.21, issued in 1988.

FTA Responds: The original **Federal Register** Notice announcing proposed amendments to the 2007 Annual Manual did not mention vanpool sampling guidelines or Circular UMTA C 2710.21. As noted above, FTA is currently considering revising its sampling guidance, and will take this comment under advisement in developing any such guidance. FTA will invite public guidance on revised guidance, once it has been developed.

The final 2007 Reporting Manual, as amended, may be found on the Internet at <http://www.ntdprogram.gov>.

Issued in Washington, DC, this 6th day of November 2007.

James S. Simpson,
Administrator.
