II. Background

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35), the NRC is requesting public comment on its intention to request the OMB's approval for the information collection summarized as follows.

1. *The title of the information collection:* NRC Form 664, "General Licensee Registration."
2. *OMB approval number:* 3150–0198.
3. *Type of submission:* Extension.
4. *The form number, if applicable:* NRC Form 664.
5. *How often the collection is required or requested:* Annually.
6. *Who will be required or asked to respond:* General licensees who possess registerable quantities of byproduct material.
7. *The estimated number of annual responses:* 471.
8. *The estimated number of annual respondents:* 471.
9. *The estimated number of hours needed annually to comply with the information collection requirement or request:* 157.
10. *Abstract:* NRC Form 664 is used by NRC general licensees to make reports regarding certain generally licensed devices subject to annual registration. The registration program allows NRC to better track general licensees, so that they can be contacted or inspected as necessary, and to make sure that generally licensed devices can be identified even if lost or damaged. Also, the registration program ensures that general licensees are aware of and understand the requirements for the possession, use, and disposal of devices

containing byproduct material. Greater awareness helps to ensure that general licensees will comply with the regulatory requirements for proper handling and disposal of generally licensed devices and would reduce the potential for incidents that could result in unnecessary radiation exposure to the public and contamination of property.

III. Specific Requests for Comments

The NRC is seeking comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility? Please explain your answer.
2. Is the estimate of the burden of the information collection accurate? Please explain your answer.
3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?
4. How can the burden of the information collection on respondents be minimized, including the use of automated collection techniques or other forms of information technology?

Dated: June 9, 2025.

For the Nuclear Regulatory Commission.

Acting NRC Clearance Officer, Office of the Chief Information Officer.

SUPPLEMENTARY INFORMATION: The Pension Benefit Guaranty Corporation (PBGC) intends to request that the Office of Management and Budget (OMB) extend approval, under the Paperwork Reduction Act, of a collection of information contained in its regulation on Rules for Administrative Review of Agency Decisions (29 CFR part 4003) (OMB control number 1212–0061; expires July 31, 2025). This notice informs the public of PBGC's intent and solicits public comment on the collection of information.

PBGC's regulation on Rules for Administrative Review of Agency Decisions (29 CFR part 4003) prescribes rules governing the issuance of initial determinations by PBGC and the procedures for requesting and obtaining administrative review of initial determinations. Certain types of initial determinations are subject to administrative appeals, which are covered in subpart D of the regulation. Subpart D prescribes rules on who may file appeals, when and where to file appeals, contents of appeals, and other matters relating to appeals. Most appeals filed with PBGC are filed by

individuals (participants, beneficiaries, and alternate payees) in connection with benefit entitlement or amounts. A small number of appeals are filed by companies in connection with other matters, such as plan coverage under section 4021 of ERISA or liability under sections 4062(b)(1), 4063, or 4064. For appeals of benefit determinations, PBGC has optional forms for filing appeals (Form 724) and requests for extensions of time to appeal (Form 723). PBGC needs the required information to resolve matters raised in appeals of PBGC's initial determinations.

PBGC is proposing some minor editorial and formatting changes to Forms 723 and 724. In addition, in the Privacy Act Notice section of both forms, it is fixing an erroneous citation and replacing "Social Security Number" with "Customer Identification Number."

The existing collection of information under the regulation has been approved through July 31, 2025, under OMB control number 1212-0061. On April 8, 2025, PBGC published in the **Federal Register** (at 90 FR 15163) a notice informing the public of its intent to request an extension of this collection of information. No comments were received. PBGC is requesting that OMB extend approval of the collection for 3 years. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

PBGC estimates that each year there will be 103 appeals and 29 requests for extensions filed annually under this regulation. The total estimated annual burden of the collection of information is 105 hours and \$9,000.

Assistant General Counsel for Regulatory Affairs, Pension Benefit Guaranty Corporation.

This notice informs the public of PBGC's intent and solicits public comment on the collection of information.

PBGC's regulation on Rules for Administrative Review of Agency Decisions (29 CFR part 4003) prescribes rules governing the issuance of initial determinations by PBGC and the procedures for requesting and obtaining administrative review of initial determinations. Certain types of initial determinations are subject to reconsideration, which are covered in subpart C of the regulation. Subpart C prescribes rules on who may request reconsideration, when to make a reconsideration request, where to submit the request, the form and contents of reconsideration requests, and final decisions on reconsideration requests.

Any person aggrieved by an initial determination of PBGC under § 4003.1(d)(1) (determinations with respect to premiums, interest, and late payment penalties under section 4007 of ERISA), § 4003.1(d)(2) (determinations concerning voluntary terminations), or 4003.1(d)(3) (determinations with respect to penalties under section 4071 of ERISA) may request reconsideration of the initial determination. Most requests for reconsideration have been filed by plan administrators under § 4003.1(d)(1) relating to premiums, interest, and late payment penalties.

Requests for reconsideration must be in writing, be clearly designated as requests for reconsideration, contain a statement of the grounds for reconsideration and the relief sought, and contain or reference all pertinent information. Requests for reconsideration may be filed by hand, mail, commercial delivery service, or email.

The existing collection of information under the regulation has been approved through August 31, 2025, under OMB control number 1212-0063. On April 8, 2025, PBGC published in the **Federal Register** (at 90 FR 15165) a notice informing the public of its intent to request an extension of this collection of information. No comments were received. PBGC is requesting that OMB extend approval of the collection for 3 years. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

PBGC estimates that each year an average of 146 persons per year will respond to this collection of information. The total estimated average annual burden of the collection of information is about one-half hour and \$493 per appellant, with an average total annual burden of approximately 71 hours and about \$71,925.
