Federal Motor Carrier Safety Administration

[FMCSA–2012–0102]

Proposed Recommendations on Obstructive Sleep Apnea

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Withdrawal of Notice.

SUMMARY: FMCSA is withdrawing its proposed regulatory guidance for obstructive sleep apnea (OSA) and request for comment as published on April 20, 2012. The Agency is still in the process of carefully reviewing the recommendations submitted by the Motor Carrier Safety Advisory Committee and Medical Review Board. The initial publication was a clerical error. We anticipate requesting public comment on the recommendations later this year.

DATES: This withdrawal is effective April 27, 2012.

FOR FURTHER INFORMATION CONTACT: Angela Ward, Nurse Consultant Medical Programs, (202) 366–4001, fmcsamedical@dot.gov, FMCSA, Department of Transportation, 1200 New Jersey Avenue SE., Room W64–224, Washington, DC 20590–0001. Office hours are from 8:30 a.m. to 5 p.m., Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION:

Background

A notice was published in the **Federal Register** on April 20, 2012 (77 FR 23794) announcing proposed regulatory guidance on OSA and the medical certification of commercial motor vehicle drivers based on joint recommendations from the Agency’s Motor Carrier Safety Advisory Committee and the Medical Review Board. Because there are a number of initiatives and programs for which the Agency is currently seeking public engagement and comment, however, the Agency defers until later this year, a request for public comment on the

regulatory guidance on OSA. This will enable interested parties a better opportunity to focus on and provide comments on this important safety issue.

Issued on: April 20, 2012.

William Bronrott,

Deputy Administrator.

[FMCSA Docket No. FMCSA-2011-0383]

Qualification of Drivers; Exemption Applications; Diabetes Mellitus

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of final disposition.

SUMMARY: FMCSA announces its decision to exempt seventeen individuals from its rule prohibiting persons with insulin-treated diabetes mellitus (ITDM) from operating commercial motor vehicles (CMVs) in interstate commerce. The exemptions will enable these individuals to operate CMVs in interstate commerce.

DATES: The exemptions are effective April 27, 2012. The exemptions expire on April 28, 2014.

Background

On March 7, 2012, FMCSA published a notice of receipt of Federal diabetes exemption applications from seventeen individuals and requested comments from the public (77 FR 13686). The public comment period closed on April 6, 2012, and no comments were received.

FMCSA has evaluated the eligibility of the seventeen applicants and determined that granting the exemptions to these individuals would achieve a level of safety equivalent to or greater than the level that would be achieved by complying with the current regulation 49 CFR 391.41(b)(3).

Diabetes Mellitus and Driving Experience of the Applicants

The Agency established the current requirement for diabetes in 1970 because several risk studies indicated that drivers with diabetes had a higher rate of crash involvement than the general population. The diabetes rule provides that "A person is physically qualified to drive a commercial motor vehicle if that person has no established medical history or clinical diagnosis of diabetes mellitus currently requiring insulin for control" (49 CFR 391.41(b)(3)).

FMCSA established its diabetes exemption program, based on the Agency's July 2000 study entitled "A Report to Congress on the Feasibility of a Program to Qualify Individuals with Insulin-Treated Diabetes Mellitus to Operate in Interstate Commerce as Directed by the Transportation Act for the 21st Century." The report concluded that a safe and practicable protocol to allow some drivers with ITDM to operate CMVs is feasible. The September 3, 2003 (68 FR 52441), **Federal Register** notice in conjunction with the November 8, 2005 (70 FR 67777), **Federal Register** notice provides the current protocol for allowing such drivers to operate CMVs in interstate commerce.

These seventeen applicants have had ITDM over a range of 1 to 16 years. These applicants report no severe hypoglycemic reactions resulting in loss of consciousness or seizure, requiring the assistance of another person, or resulting in impaired cognitive function

that occurred without warning symptoms, in the past 12 months and no recurrent (2 or more) severe hypoglycemic episodes in the past 5 years. In each case, an endocrinologist verified that the driver has demonstrated a willingness to properly monitor and manage his/her diabetes mellitus, received education related to diabetes management, and is on a stable insulin regimen. These drivers report no other disqualifying conditions, including diabetes-related complications. Each meets the vision requirement at 49 CFR 391.41(b)(10).

The qualifications and medical condition of each applicant were stated and discussed in detail in the March 7, 2012, **Federal Register** notice and they will not be repeated in this notice.

Discussion of Comment

FMCSA received one comment in this proceeding. The Pennsylvania Department of Transportation stated that it has reviewed the driving history for William F. Watkins, Jr. and is in favor of granting him a Federal Diabetes exemption.

Basis for Exemption Determination

Under 49 U.S.C. 31136(e) and 31315, FMCSA may grant an exemption from the diabetes requirement in 49 CFR 391.41(b)(3) if the exemption is likely to achieve an equivalent or greater level of safety than would be achieved without the exemption. The exemption allows the applicants to operate CMVs in interstate commerce.

To evaluate the effect of these exemptions on safety, FMCSA considered medical reports about the applicants' ITDM and vision, and reviewed the treating endocrinologists' medical opinion related to the ability of the driver to safely operate a CMV while using insulin.

Consequently, FMCSA finds that in each case exempting these applicants from the diabetes requirement in 49 CFR 391.41(b)(3) is likely to achieve a level of safety equal to that existing without the exemption.

Conditions and Requirements

The terms and conditions of the exemption will be provided to the applicants in the exemption document and they include the following: (1) That each individual submit a quarterly monitoring checklist completed by the treating endocrinologist as well as an annual checklist with a comprehensive medical evaluation; (2) that each individual reports within 2 business days of occurrence, all episodes of severe hypoglycemia, significant complications, or inability to manage
