

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

Office of the Director, National Institutes of Health; Notice of Closed Meetings

Pursuant to section 10(d) of the Federal Advisory Committee Act, as amended (5 U.S.C. Appendix 2), notice is hereby given of meetings of the Advisory Committee to the Director, NIH. The meetings will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5 U.S.C., as amended because the premature disclosure of grant applications and the discussions would likely to significantly frustrate implementation of recommendations.

Name of Committee: Advisory Committee to the Director, NIH.

Date: August 16, 2007.

Time: 2:30 p.m. to 3:30 p.m.

Agenda: To review and evaluate grant applications.

Place: National Institutes of Health, Natcher Building, 45 Center Drive, Bethesda, MD 20892 (Telephone Conference Call).

Contact Person: Penny W. Burgoon, PhD, Senior Assistant to the Deputy Director, Office of the Director, National Institutes of Health, 1 Center Drive, Building 1, Room 114, Bethesda, MD 20892, 301-451-5870, burgoonp@od.nih.gov.

This notice is being published less than 15 days prior to the meeting due to the timing limitations imposed by the review and funding cycle.

Name of Committee: Advisory Committee to the Director, NIH.

Date: August 22, 2007.

Time: 2:30 p.m. to 3:30 p.m.

Agenda: To review and evaluate grant applications.

Place: National Institutes of Health, Natcher Building, 45 Center Drive, Bethesda, MD 20892 (Telephone Conference Call).

Contact Person: Penny W. Burgoon, PhD, Senior Assistant to the Deputy Director, Office of the Director, National Institutes of Health, 1 Center Drive, Building 1, Room 114, Bethesda, MD 20892, 301-451-5870, burgoonp@od.nih.gov.

Any interested person may file written comments with the committee by forwarding the statement to the Contact Person listed on this notice. The statement should include the name, address, telephone number and when applicable, the business or professional affiliation of the interested person.

Information is also available on the Institute's/Center's home page: <http://www.nih.gov/about/director/acd.htm>, where an agenda and any additional information for the meeting will be posted when available.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities Under Emergency Review by the Office of Management and Budget

The Substance Abuse and Mental Health Services Administration (SAMHSA) has submitted the following request (see below) for emergency OMB review under the Paperwork Reduction Act (44 U.S.C. Chapter 35). OMB approval has been requested by October 12, 2007. A copy of the information collection plans may be obtained by calling the SAMHSA Reports Clearance Officer on (240) 276-1243.

Title: 2008 National Survey on Drug Use and Health—(OMB No. 0930-0110).

OMB Number: 0930-0110.

Frequency: Annual.

Affected Public: Individuals or Households.

The National Survey on Drug Use and Health (NSDUH), formerly the National Household Survey on Drug Abuse (NHSDA), is a survey of the civilian, non-institutionalized population of the United States 12 years old and older. The data are used to determine the prevalence of use of tobacco products, alcohol, illicit substances, and illicit use of prescription drugs. The results are used by SAMHSA, ONDCP, Federal government agencies, and other organizations and researchers to establish policy, direct program activities, and better allocate resources.

This **Federal Register** notice is revised to reflect additional information that will be collected for the 2008 NSDUH. At the request of the Office of National Drug Control Policy (ONDCP), additional questions are being developed to measure marijuana consumption in the general population. This information could be useful in evaluating drug control programs, as discussed in *"Informing America's Policy on Illegal Drugs: What We Don't Know Keeps Hurting Us,"* a report by the National Research Council.

Since the first **Federal Register** notice (published on May 3, 2007), a condensed version of the 16-item World Health Organization Disability Assessment Scale (WHO-DAS) has also been proposed for the Mental Health Module. A series of analyses was performed which examined the measurement properties of the 16-item scale with the goal of reducing the scale to a condensed version. [*Item Response Analyses of the World Health Organization Disability Assessment Schedule (WHODAS)*, SAMHSA, 2007 (unpublished)] These analyses resulted in an 8-item scale which captures the information represented in the full scale. The questions for recruiting respondents for the follow-up clinical interview have also been revised to include a request for the respondent's e-mail address.

The Notice that was published on May 3, 2007 included the following information for the 2008 NSDUH. Additional questions are being planned regarding suicide ideation and impairment from mental health issues. An embedded split-sample study is being planned to determine which one of two mental health disability scales to include in future NSDUH survey years. The two disability scales will be evaluated by using the SCID-I/NP as a follow-up interview with a subsample of respondents.

Other questionnaire changes include deletion of questions about Hurricanes

Katrina and Rita, adoption of a reduced set of income questions which were tested in 2006 and 2007, and routing of Adderall, Ambien, Ketamine, DMT, AMT, "Foxy" and salvia divinorum

users into the questions on drug dependence and abuse.

As with all NSDUH/NHSDA surveys conducted since 1999, the sample size of the survey for 2008 will be sufficient to permit prevalence estimates for each

of the fifty States and the District of Columbia. The respondent burden will remain at 60 minutes per interview. The total annual burden estimate is shown below:

Activity	Number of respondents	Number of responses per respondent	Average burden hours per respondent	Total burden hours
Household Screening	182,250	1	.083	15,127
Interview	67,500	1	1.0	67,500
Clinical Follow-up Certification	150	1	1.0	150
Clinical Follow-up	1,500	1	1.0	1,500
Screening Verification	5,494	1	.067	368
Interview Verification	10,125	1	.067	678
Total	182,250			85,323

Emergency approval is being requested because ONDCP has asked SAMHSA to add questions to measure marijuana consumption in the general population. Because of these additional questions, this **Federal Register** notice is a revision from the one that was published on May 3, 2007.

Written comments and recommendations concerning the proposed information collection should be sent within 30 days of this notice to: John Kraemer, Human Resources and Housing Branch, Office of Management and Budget, New Executive Office Building, Room 10235, Washington, DC 20503; due to potential delay in OMB's receipt and processing of mail sent through the U.S. Postal Service, respondents are encouraged to submit comments by fax to: 202-395-6974.

Dated: July 31, 2007.

Elaine Parry,

Acting Director, Office of Program Services.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish a summary of information collection requests under OMB review, in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer on (240) 276-1243.

Project: Voluntary Customer Satisfaction Surveys To Implement Executive Order 12862 in the Substance Abuse and Mental Health Services Administration (SAMHSA)—(OMB No. 0930-0197)—Revision

Executive Order 12862 directs agencies that "provide significant services directly to the public" to "survey customers to determine the kind and quality of services they want and their level of satisfaction with existing services." SAMHSA provides

significant services directly to the public, including treatment providers and State substance abuse and mental health agencies, through a range of mechanisms, including publications, training, meetings, technical assistance and web sites. Many of these services are focused on information dissemination activities. The purpose of this submission is to extend the existing generic approval for such surveys.

The primary use for information gathered is to identify strengths and weaknesses in current service provisions by SAMHSA and to make improvements that are practical and feasible. Several of the customer satisfaction surveys expected to be implemented under this approval will provide data for measurement of program effectiveness under the Government Performance and Results Act (GPRA). Information from these customer surveys will be used to plan and redirect resources and efforts to improve or maintain a high quality of service to health care providers and members of the public. Focus groups may be used to develop the survey questionnaire in some instances.

The estimated annual hour burden is as follows:

Type of data collection	Number of respondents	Responses/ respondent	Hours/ response	Total hours
Focus groups	250	1	2.50	625
Self-administered, mail, telephone and e-mail surveys	89,750	1	.250	22,438
Total	90,000			23,063

Written comments and recommendations concerning the proposed information collection should be sent by September 4, 2007 to: SAMHSA Desk Officer, Human Resources and Housing Branch, Office of Management and Budget, New

Executive Office Building, Room 10235, Washington, DC 20503; due to potential delays in OMB's receipt and processing of mail sent through the U.S. Postal Service, respondents are encouraged to submit comments by fax to: 202-395-6974.

Dated: July 31, 2007.

Elaine Parry,

Acting Director, Office of Program Services.
