

data collection among Federal government agencies.

TRICARE contractors are required to maintain a computer listing of all providers that have submitted the appropriate authorization information and documentation. To avoid duplicate inquiries, the contractors must search the computer provider listing before requesting documentation from providers. Since the providers affected by this information collection generally have not previously been eligible to be authorized providers, TRICARE contractors will have no information on file. The providers will have to submit the information requested on the data collection form (Application for TRICARE-Providers Status: Corporate Services Provider) in order to obtain provider authorization status under TRICARE.

The information will usually be collected from each respondent only once. It is estimated that there will be approximately 200 applicants per year. TRICARE will request the provider authorization documentation and information when the provider asks to become TRICARE-authorized or when a claim is filed for a new provider's services. If after a provider has been authorized by a contractor, no claims are filed during two-year period of time, the provider's information will be placed in the inactive file. To reactivate a file, the provider must verify that the information is still correct, or supply new or changed information. The total annual reporting burden is estimated to be 200 hours.
