*Information Collection Request Title:* National Blood Collection and Utilization Survey OMB No.: 0990-0313.

*Abstract:* The National Blood Collection & Utilization Survey (NBCUS) is a biennial survey of the blood collection and utilization community (industry) to produce reliable and accurate estimates of national and regional collections, utilization, safety, and availability of all blood products, some cellular therapeutic products, as well as information on bacterial testing and human tissue transplantation that are of interest to the transfusion medicine community. The 2013 NBCUS shall be funded by the U.S. Department of Health and Human Services (DHHS) and performed by (contactor, to be determined). In previous years, the NBCUS program was performed under the auspices of the National Blood Data

Resource Center (NBDRC), a private subsidiary of AABB (formerly known as the American Association of Blood Banks), with private funding.

The survey includes a core of standard questions on blood collection, processing, and utilization practices to allow for comparison with data from previous surveys; additionally, questions to specifically address emerging and developing issues and technologies in blood collection and utilization are included. Biovigilance remains a key theme for the 2013 survey, as continued from the 2007, 2009, and 2011 iterations. To that end, questions on transfusion transmitted infections, transfusion associated circulatory overload, acute hemolysis, delayed hemolysis, and severe allergic reactions are included in the survey.

*Need and Proposed Use of the Information:* Under the authority of Section 301 of the Public Health Service Act (42 U.S.C. 241), as identified in the 1997 HHS Blood Action Plan, and twice in the Advisory Committee on Blood & Tissue Safety & Availability's (ACBTSA) recommendations to the Secretary, there is a need to provide national policy makers with current supply and demand data.

*Likely Respondents:* Respondents will include approximately 3,000 institutions that include U.S. blood collection and processing facilities, hospital-based transfusion blood banks, and cord blood banks. Participating institutions will be selected from the American Hospital Association (AHA) annual survey database and AABB member list of blood collection facilities.
