

- (1) A State or local non-profit or governmental arts organization;
- (2) A State educational agency (SEA) or regional educational service agency;
- (3) An institution of higher education; or

(4) A public or private agency, institution, or organization, including a museum, an arts education association, a library, a theater, or a community-or faith-based organization.

Rationale: The most effective professional development programs are systemic and have the full support of school leadership. Therefore, it is essential that eligibility be limited to LEAs. Professional development in the area of arts education is often enhanced when it taps the expertise of professional arts organizations or other entities. Accordingly, an LEA would be required to partner with one of these organizations.

Definitions

Proposed Definitions

The terms “arts educator” and “integrate”, which are important concepts associated with this program, are not defined in the authorizing statute. We, therefore, propose, for the purpose of this program, to define these terms as follows:

Arts educator means a teacher who works in music, drama, dance, or the visual arts.

Integrate means, in the context of projects funded under this program, to strengthen (i) the use of high-quality arts instruction within other academic content areas, and (ii) the place of the arts as a core academic subject in the school curriculum.

Executive Order 12866

This notice of proposed priority, requirements, and definitions has been reviewed in accordance with Executive Order 12866. Under the terms of the order, we have assessed the potential costs and benefits of this regulatory action.

The potential costs associated with the notice of proposed priority, requirements, and definitions are those resulting from statutory requirements and those we have determined as necessary for administering this program effectively and efficiently.

In assessing the potential costs and benefits—both quantitative and qualitative—of this notice of proposed priority, requirements, and definitions, we have determined that the benefits of the proposed priority, requirements, and definitions justify the costs.

We also have determined that this regulatory action does not unduly

interfere with State, local, and tribal governments in the exercise of their governmental functions.

Summary of Potential Costs and Benefits

The potential costs associated with the proposed priority, requirements, and definitions in this notice are minimal, while the benefits are significant. Grantees may incur some costs associated with completing the application process in terms of staff and partner time, copying, and mailing or delivery.

The benefit of the proposed priority, requirements, and definitions in this notice is that grantees will develop professional development programs for arts educators, especially those programs that incorporate arts education standards and are designed to improve the educational performance of at-risk children and youth.

Intergovernmental Review

This program is subject to Executive Order 12372 and the regulations in 34 CFR part 79. One of the objectives of the Executive order is to foster an intergovernmental partnership and strengthened federalism. The Executive order relies on processes developed by State and local governments for coordination and review of proposed Federal financial assistance.

This document provides early notification of our specific plans and action for this program.
