

triggered, resulting in a \$30 million increase to power rates beginning in December 2019. Based on current end-of-year projections, the FRP Surcharge is expected to again trigger for the Power business unit in FY 2021. The FRP Surcharge for the Transmission business unit did not trigger in FY 2020 and is not expected to trigger in FY 2021.

B. Background on National Emergency

On March 13, 2020, the President declared the outbreak of COVID-19 in the United States a national emergency. Since then, much of the United States has been under stay-at-home orders. The impacts of COVID-19 on the national economy are only beginning to be understood. With near-record unemployment in many regional communities, Bonneville's utility customers have had to lay off staff, rely on cash reserves, and/or use short-term credit to maintain operations. Throughout the pandemic, Bonneville has cooperatively worked with its customers to ensure that they are able to continue to provide essential utility services to regional homes and businesses. As part of these discussions, customers requested Bonneville to consider offering immediate rate relief through the suspension of the FRP Surcharge.

C. Rate Proposal: Suspension of the FRP Surcharge

Bonneville proposes to suspend the FRP Surcharge for the remainder of the BP-20 rate period. Specifically, the General Rate Schedule Provisions for the Power and Transmission FRP Surcharges currently in effect would be replaced by the rate schedules identified at <https://www.bpa.gov/goto/BP20E>.

Bonneville intends to seek Commission approval effective on the first day of the month following the issuance of the Administrator's Final ROD. If the BP-20E proceeding follows the procedural schedule included in Part I.B of this notice, Bonneville would seek Commission approval effective July 1, 2020. If the Commission were to grant approval of this proposal effective on any day other than the first day of the month, then the rate relief would be effective beginning the first day of the following month.

Suspension of the Power FRP Surcharge would also require small changes to the Load Shaping Charge True-Up Rate and PF Merged Equivalent Scalar for Fiscal Year 2020, both of which would be adjusted depending upon the effective date provided by the Commission.

Part V—Proposed Rate Schedules

Bonneville's proposed General Rate Schedule Provisions for the Power and Transmission Financial Reserves Policy Surcharges for the remainder of the BP-20 rate period are a part of this notice and are available for viewing and downloading on Bonneville's website at <https://www.bpa.gov/goto/BP20E>.
