

will provide better understanding of occupational and environmental risks from benzene exposure in the United States. It will be important to complete all data collection for the study to realize the full scientific benefit of this 20 year international collaboration. However, due to unexpected and unforeseen personnel problems and

training issues in China, the researchers are requesting an emergency extension of three months to complete data collection. A detailed plan has been discussed and developed with the collaborators in China to complete all remaining data collections in the next three months.

Frequency of Response: One-time study. *Affected Public:* Individuals or households.

Type of Respondents: Workers or their next of kin. The annual reporting burden is reported in the following table:

Type of respondents	Estimated number of respondents	Estimated number of responses per respondent	Average burden hours per response	Estimated total annual burden hours requested
Workers	2156	1	1.37	317
Total	317

¹ (22 minutes).

There are no Capital Costs to report. There are also no Operating and/or Maintenance Costs to report.

Request for Comments: Written comments and/or suggestions from the public and affected agencies are invited on one or more of the following points: (1) Whether the proposed collection of information is necessary for the proper performance of the function of the agency, including whether the information will have practical utility; (2) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and (4) Ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of the data collection plans and instruments, contact: Dr. Richard Hayes, Project Officer, OEB/EBP/DCEG/NCI 6120 Executive Blvd., EPS Room 8114, Bethesda, MD 20892-7364, or call non-toll-free number (301) 435-3973 or fax your request to (301) 402-1819 or E-mail your request, including your address to: HayesR@mail.nih.gov.

Comments Due Date: Comments regarding this information collection are best assured of having their full effect if received within 60-days of the date of this publication.

Dated: January 24, 2008.

Vivian Horovitch-Kelley,
NCI Project Clearance Liaison, National Institutes of Health.
