[Docket No. CP08-110-000]

Gulf South Pipeline Company, LP; Notice of Application

April 9, 2008.

Take notice that on April 4, 2008, Gulf South Pipeline Company, LP (Gulf South), 9 Greenway Plaza, Houston, Texas 77046, filed in Docket No. CP08-110-000 an application pursuant to section 7(b) of the Natural Gas Act (NGA) requesting permission and approval to abandon by sale to Energy Partners, LTD. Approximately 11.8 miles of 12-inch diameter pipeline facilities and related appurtenances located in federal and state waters offshore in the Gulf of Mexico. In addition, Gulf South is requesting a determination that upon abandonment, Energy Partners ownership and operation of the facilities will be exempt from Commission jurisdiction under 1(b) of the NGA, all as more fully set forth in the application which is on file with the Commission and open to public inspection. This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov, or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Any questions regarding this application should be directed to J. Kyle Stephens, Vice President, Regulatory Affairs, Gulf South Pipeline South Pipeline Company, LP, 9 Greenway Plaza, Houston, Texas 77046, or call (713) 479-8033, by fax (713) 479-1846, or by e-mail to kyle.stephens@bwpmlp.com.

There are two ways to become involved in the Commission's review of

this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentators will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commentators will not be required to serve copies of filed documents on all other parties. However, the non-party commentators will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. See 18 CFR 385.2001(a)(1)(iii) and the instructions

on the Commission's Web site under the "e-Filing" link at <http://www.ferc.gov>. The Commission strongly encourages intervenors to file electronically. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

Comment Date: April 30, 2008.

Kimberly D. Bose,
Secretary.

[Docket No. CP08-114-000]

Natural Gas Pipeline Company of America LLC; Notice of Application

April 9, 2008.

Take notice that on April 7, 2008, Natural Gas Pipeline Company of America LLC (Natural), 747 East 22nd Street, Lombard, Illinois 60148, filed an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity to construct and operate certain facilities, located in Cameron Parish, Louisiana, all as more fully set forth in the application which is on file with the Commission and open for public inspection. This filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll free at (866) 208-3676, or for TTY, contact (202) 502-8659.

Specifically, Natural proposes to construct and operate approximately 900 feet of 16-inch diameter pipeline and operate an already constructed meter, consisting of ultrasonic meter runs, flow control valve, gas quality monitoring devices, and Electronic flow Measurement facilities. Natural states that the facilities are necessary to receive up to 300 MDth/day of re-vaporized liquefied natural gas from the Sabine Pass Segment of the Cheniere Creole Trail Pipeline (Cheniere), located in Cameron Parish, Louisiana. Natural estimates the cost of construction to be
