

SUMMARY: The purpose of this notice is to request public nominations to serve on the North Slope Science Initiative's (NSSI) 15-member Science Technical Advisory Panel (Panel). The Panel advises the NSSI Oversight Group on technical issues such as identifying and prioritizing inventory, monitoring, and research needs across the North Slope of Alaska and the adjacent marine environment.

DATES: All public nominations and applications for membership on the panel must be received no later than May 29, 2018.

SUPPLEMENTARY INFORMATION: Section 348 of the Energy Policy Act of 2005, Public Law 109-58, created the NSSI, its Oversight Group, and 15-member Science Technical Advisory Panel to coordinate inventories, monitoring, and research for a better understanding of terrestrial, aquatic, and marine ecosystems of the North Slope of Alaska. The NSSI works to minimize duplication of monitoring and research efforts, share financial resources and expertise, identify and prioritize information needs, and ensure through appropriate peer review that the science conducted by participating agencies and organizations is of the highest technical quality.

As an advisory body, the Science Technical Advisory Panel represents diverse professions and interests, including the oil and gas industry, subsistence users, Alaska Native entities, conservation organizations, and academia. A diverse membership helps maintain and improve public and agency access to accumulated and ongoing research as well as contemporary and traditional local knowledge.

Duties of the Panel are solely advisory to the Oversight Group. Panel members serve for three-year terms, appointed by the Secretary of the Interior.
