

60 acres of desert tortoise habitat, the Applicant proposes to: (1) Survey for and remove all tortoises from the project site prior to surface disturbing activities; (2) install a temporary fence during construction activities to ensure tortoises do not gain access to the project site and wander into harm's way; (3) ensure trash and food items are disposed of properly to avoid attracting predators; (4) present a desert tortoise awareness program to all construction workers on the site; and (5) provide funding in the amount of \$550 per acre of habitat disturbed to the Desert Tortoise Conservation Center in Clark County, Nevada, to support development and implementation of conservation and recovery actions for the tortoise under the guidance of the Service's Desert Tortoise Recovery Office in Reno, Nevada.

Approval of the HCP may qualify as a categorical exclusion under NEPA, as provided by the Departmental Manual (516 DM 2 Appendix 1 and 516 DM 8) and as a "low-effect" plan as defined in the Habitat Conservation Planning Handbook (Service, November, 1996). Determination of low-effect HCPs is based upon the plan having: Minor or negligible effects on federally listed, proposed, or candidate species and their habitats; minor or negligible effects on other environmental values or resources; and impacts that, considered together with the impacts of other past, present, and reasonably foreseeable similarly situated projects, would not result, over time, in cumulative effects to the environmental values or resources which would be considered significant. If it is found to qualify as a low-effect HCP, further NEPA documentation would not be required.

Notice of Lodging of Consent Decree; Pursuant to the Clean Water Act and Comprehensive Environmental Response Compensation and Liability Act

Notice is hereby given that on August 14, 2009, a proposed Consent Decree in *United States v. Magellan Ammonia Pipeline et al.*, (D. Kan.), No. 02:09-cv-2425, was lodged with the United States Court for the District of Kansas.

In this action, the United States sought the penalties and injunctive relief pursuant to sections 301 and 311 of the Clean Water Act, 33 U.S.C. 1311, 1321, and section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act, 42 U.S.C. § 9603, against Magellan Ammonia Pipeline, L.P. ("Magellan"), Enterprise Products Operating, L.P. ("Enterprise"), and Mid-America Pipeline Company, LLC ("MAPCO"). The Complaint alleges that two discharges of anhydrous ammonia occurred in Blair Nebraska on September 27, 2004, and Kingman, Kansas on October 27, 2004, from an ammonia pipeline owned by Defendant Magellan and operated by Defendants Enterprise and MAPCO and that Defendants failed to report the discharges in a timely fashion to the National Response Center.

Pursuant to the proposed Consent Decree, the Settling Defendants will pay to the United States \$3,650,000 in penalties for the discharges and reporting inadequacies. Defendant Magellan, which now both owns and

operates the ammonia pipeline, will undertake injunctive measures aimed at reducing the likelihood of such discharges in the future and at improving its detection of and response to such discharges if they do occur.

The Department of Justice will receive for a period of thirty (30) days from the date of this publication comments relating to the Consent Decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and either e-mailed to pubcomment-ees.enrd@usdoj.gov or mailed to P.O.
