Persons interested in being placed on a mailing list for future NPRM's should contact the FAA's Office of Rulemaking, (202) 267-9677, to request a copy of Advisory circular No. 11-2A, Notice of Proposed Rulemaking distribution System, which describes the application procedure.

### The Proposal

The FAA is considering an amendment to Title 14, Code of Federal Regulations (14 CFR) part 71 to amend Class E airspace extending upward from 700 feet above the surface within a 9.8-mile radius of Mark Anton Airport, Cleveland, TN, to support new Standard Instrument Approach Procedures developed at Mark Anton Airport. Airspace reconfiguration is necessary due to the decommissioning of the Hardwick NDB and cancellation of the NDB approach. Also, controlled airspace is no longer needed and would be removed from Hardwick Field Airport as the airport has closed. This proposal also would establish Class E airspace at Cleveland, TN, providing the controlled airspace required to support the RNAV (GPS) standard instrument approach procedures for Cleveland Regional Jetport. Controlled airspace extending upward from 700 feet above the surface would be established within a 7.4-mile radius of the airport, with an extension from the radius to 12 miles southwest of the airport for the safety and management of IFR operations. Bradley Memorial Hospital information would be added to the Cleveland, TN descriptor and regulatory text, and removed from both the Dayton, TN, regulatory text as well as its listing as Bradley Memorial Hospital, Cleveland, TN, to correct an erroneous reference. This proposal would enhance the safety and airspace management of Instrument Flight Rules (IFR) operations in the Dayton, TN, and Cleveland, TN, airspace areas.

Class E airspace designations are published in Paragraph 6005 of FAA Order 7400.9W, dated August 8, 2012, and effective September 15, 2012, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "significant regulatory action" under Executive

Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This proposed rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This proposed regulation is within the scope of that authority as it would amend Class E airspace in the Dayton, TN, and Cleveland, TN, areas.

This proposal would be subject to an environmental analysis in accordance with FAA Order 1050.1E, "Environmental Impacts: Policies and Procedures" prior to any FAA final regulatory action.

[Docket No. FAA-2013-0163; Airspace Docket No. 13-AWP-2]

#### Proposed Establishment of Class E Airspace; Grand Canyon, AZ

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Notice of proposed rulemaking (NPRM).

**SUMMARY:** This action proposes to establish Class E airspace at the Grand Canyon VHF Omni-Directional Radio Range/Distance Measuring Equipment (VOR/DME) navigation aid, Grand Canyon, AZ, to facilitate vectoring of Instrument Flight Rules (IFR) aircraft

under control of Los Angeles Air Route Traffic Control Center (ARTCC). The FAA is proposing this action to enhance the safety and management of aircraft operations within the National Airspace System.

**DATES:** Comments must be received on or before June 17, 2013.

**ADDRESSES:** Send comments on this proposal to the U.S. Department of Transportation, Docket Operations, M-30, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue SE., Washington, DC 20590; telephone (202) 366-9826. **Comments Invited**

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal.

Communications should identify both docket numbers (FAA Docket No. FAA-2013-0163 and Airspace Docket No. 13-AWP-2) and be submitted in triplicate to the Docket Management System (see **ADDRESSES** section for address and phone number). You may also submit comments through the Internet at <http://www.regulations.gov>.

Commenters wishing the FAA to acknowledge receipt of their comments on this action must submit with those comments a self-addressed stamped postcard on which the following statement is made: "Comments to FAA Docket No. FAA-2013-0163 and Airspace Docket No. 13-AWP-2". The postcard will be date/time stamped and returned to the commenter.

All communications received on or before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this action may be changed in light of comments received. All comments submitted will

be available for examination in the public docket both before and after the closing date for comments. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

**Availability of NPRMs**

**The Proposal**

The FAA is proposing an amendment to Title 14 Code of Federal Regulations (14 CFR) part 71 by establishing Class E en route domestic airspace extending upward from 1,200 feet above the surface at the Grand Canyon VOR/DME, Grand Canyon, AZ. This action would contain aircraft while in IFR conditions under control of Los Angeles ARTCC by vectoring aircraft from en route airspace to terminal areas.

Class E airspace designations are published in paragraph 6006 of FAA Order 7400.9W, dated August 8, 2012, and effective September 15, 2012, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in this Order.

The FAA has determined this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this proposed regulation; (1) is not a "significant regulatory action"

under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified this proposed rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the U.S. Code. Subtitle 1, Section 106, describes the authority for the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would establish controlled airspace at the Grand Canyon VOR/DME, Grand Canyon, AZ.

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1E, "Environmental Impacts: Policies and Procedures" prior to any FAA final regulatory action.

#### **Proposed Modification of Class E Airspace; Twin Falls, ID**

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Notice of proposed rulemaking (NPRM).

**SUMMARY:** This action proposes to modify Class E airspace at Twin Falls Joslin Field-Magic Valley Regional Airport, Twin Falls, ID. Controlled airspace is necessary to accommodate aircraft using the Area Navigation (RNAV) Global Positioning System (GPS) and the Instrument Landing System (ILS) or Localizer (LOC) standard instrument approach procedures at the airport. The geographic coordinates of the airport and navigation aid also would be adjusted in the respective Class E airspace areas, and the airport name corrected to Twin Falls Joslin Field-Magic Valley Regional Airport. ##### **The Proposal**

The FAA is proposing an amendment to Title 14 Code of Federal Regulations (14 CFR) Part 71 by modifying Class E airspace extending upward from 700 feet above the surface and 1,200 feet above the surface at Twin Falls Joslin Field-Magic Valley Regional Airport, Twin Falls, ID, to accommodate aircraft using the RNAV (GPS) and the ILS or LOC standard instrument approach procedures at the airport. Also, the geographic coordinates of the airport Twin Falls VHF Omni-Directional Radio Range Tactical Air Navigational Aid (VORTAC) would be updated to coincide with the FAA's aeronautical database for the respective Class E airspace areas. This action would enhance the safety and management of aircraft operations at the airport. The airport formerly called Twin Falls-Sun Valley Regional Airport, Joslin Field or Joslin Field-Magic Valley Regional is renamed Twin Falls Joslin Field-Magic Valley Regional Airport.

Class D and Class E airspace designations are published in paragraphs 5000, 6002, 6004 and 6005, respectively, of FAA Order 7400.9W, dated August 8, 2012, and effective
