

Decision no sooner than 30 days after the release of the Final EIS.

Public Scoping Process

This notice of intent initiates the scoping period. The BLM will be holding a virtual public scoping meeting. The specific date and time of the virtual meeting, including information on how to register, will be announced in advance via press release, newspaper notice, the ePlanning project page, and email.

Cooperating Agencies

The Idaho Department of Environmental Quality, U.S. Army Corps of Engineers, Idaho Department of Lands, and Idaho Governor's Office of Energy and Minerals are Cooperating Agencies.

Responsible Official

Idaho Falls District Manager Mary D'Aversa is the BLM responsible official.

Nature of Decision To Be Made

The BLM Idaho Falls District Manager will decide whether and under what conditions to approve land use authorizations on BLM-managed public land and the RMRP on leased lands, and to recommend the approval or disapproval of proposed lease modifications to the BLM Idaho State Office Branch Chief for Minerals, Land Tenure, and Water Rights. The decision and recommendation will be documented in a ROD.

Additional Information

The BLM will identify, analyze, and consider mitigation to address the reasonably foreseeable impacts to resources from the Proposed Action and all analyzed reasonable alternatives and, in accordance with 40 CFR 1502.14(e), include appropriate mitigation measures not already included in the Proposed Action or Action Alternative(s). Mitigation may include avoidance, minimization, rectification, reduction or elimination over time, and compensation, and it may be considered at multiple scales, including the landscape scale.

The BLM will utilize and coordinate the NEPA process to help support compliance with applicable procedural requirements under the Endangered Species Act (16 U.S.C. 1536) and Section 106 of the National Historic Preservation Act (54 U.S.C. 306108) as provided in 36 CFR 800.2(d)(3), including public involvement requirements of Section 106. Information about historic and cultural resources and threatened and

endangered species within the area potentially affected by the Project will assist the BLM in identifying and evaluating impacts to such resources.

The BLM will consult with Indian Tribal Nations on a government-to-government basis in accordance with Executive Order 13175, BLM MS 1780, and other Departmental policies. The BLM will send invites to potentially affected Tribal Nations prior to consultations. Tribal concerns, including impacts on Indian trust assets and potential impacts to cultural resources, will be given due consideration. Federal, State, and local agencies, along with Indian Tribal Nations and other stakeholders that may be interested in or affected by the proposed Project that the BLM is evaluating, are invited to participate in the scoping process and, if eligible, may request or be requested by the BLM to participate in the development of the environmental analysis as a Cooperating Agency. The BLM will also provide additional opportunities for government-to-government consultation at other times during the NEPA process.
