

Information Collection: Hospital Wage Index Occupational Mix Survey; **Use:** Section 304(c) of Public Law 106–554 mandates an occupational mix adjustment to the wage index, requiring the collection of data every 3 years on the occupational mix of employees for each short-term, acute care hospital participating in the Medicare program. The proposed data collection that is included in this submission complies with this statutory requirement. The purpose of the occupational mix adjustment is to control for the effect of hospitals' employment choices on the wage index. For example, hospitals may choose to employ different combinations of registered nurses, licensed practical nurses, nursing aides, and medical assistants for the purpose of providing nursing care to their patients. The varying labor costs associated with these choices reflect hospital management decisions rather than geographic differences in the costs of labor. **Form Number:** CMS–10079 (OMB control number: 0938–0907); **Frequency:** Yearly; **Affected Public:** Business or Other for-Profits, Not-for-Profit Institutions; **Number of Respondents:** 3,300; **Total Annual Responses:** 3,300; **Total Annual Hours:** 1,584,000. SUPPLEMENTARY INFORMATION:

Description: This information collection is to provide nationally representative data on Early Head Start (EHS) programs, centers, classrooms, staff, and families to guide program planning, technical assistance, and research. The proposed data collection builds upon a prior round of the study conducted in 2018 (Baby FACES 2018; OMB 0970–0354) that obtained information on EHS programs at a point in time to better understand how program processes support relationships (e.g., between home visitors and parents, between parents and children, and between teachers and children) which are hypothesized to lead to improved child and family outcomes. Baby FACES 2020 has the same goals as Baby FACES 2018, but while the 2018 study focused on classroom-based relationships, the current study will take a closer look at home visiting processes.

Respondents: Early Head Start program directors, child care center directors, teachers and home visitors, and parents of enrolled children.

AGENCY: Division of Tribal TANF Management, Office of Family Assistance, Administration for Children and Families, HHS.

ACTION: Request for Public Comment.

SUMMARY: The Administration for Children and Families (ACF) is requesting a three-year extension of the form OFA-0086, NEW Plan Guidance and NEW Program Report (OMB #0970-0174, expiration 7/31/2019). There are changes requested to these forms, including the deletion of guidance for NEW programs included in Public Law 102-477 projects.

DATES: *Comments due within 60 days of publication.* In compliance with the requirements of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Administration for Children and Families is soliciting public comment on the specific aspects of the information collection described above.

ADDRESSES: Copies of the proposed collection of information can be obtained and comments may be forwarded by emailing infocollection@acf.hhs.gov. Alternatively, copies can

also be obtained by writing to the Administration for Children and Families, Office of Planning, Research, and Evaluation, 330 C Street SW, Washington, DC 20201, Attn: OPRE Reports Clearance Officer. All requests, emailed or written, should be identified by the title of the information collection.

SUPPLEMENTARY INFORMATION:

Description: The NEW program plan guidance documents specify the information needed to complete a NEW program plan and explains the process for plan submission every third year and to complete the annual program report. The program plan is the application for NEW program funding and documents how the grantee will carry out its NEW program. The program report provides HHS, Congress, and grantees information to document and assess the activities and accomplishments of the NEW program.

Respondents: Indian tribes and tribal coalitions that run NEW programs.

ANNUAL BURDEN ESTIMATES

Instrument	Total number of respondents	Annual number of respondents	Number of responses per respondent	Average burden hours per response	Annual burden hours
NEW program plan guidance for non-477 Tribes	¹ 15	15	1	29	435
NEW program report	² 44	44	1	15	660

¹ We estimate that 44 of the 78 NEW grantees will not include their NEW programs in Public Law 102-477 projects. 44 grantees divided by 3 (because grantees submit the NEW plan once every 3 years) = 15.

² We estimate that 44 of the 78 NEW grantees will not include their NEW programs in Public Law 102-477 projects and therefore will submit the NEW program report to HHS.

Estimated Total Annual Burden Hours: 1095.
