BILLING CODE 7590-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-95310; File No. SR-PEARL-2022-27]

Self-Regulatory Organizations: MIAX PEARL, LLC; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Amend Exchange Rule 2613, Usage of Data Feeds

July 18, 2022.

Pursuant to the provisions of Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”) ¹ and Rule 19b-4 thereunder,² notice is hereby given that on July 7, 2022, MIAX PEARL, LLC (“MIAX Pearl” or the “Exchange”) filed with the Securities and Exchange Commission (“Commission”) a proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend Exchange Rule 2613(a), Usage of Data Feeds, to disclose that the Exchange will utilize direct data feeds from MEMX LLC (“MEMX”) when performing order handling, order execution, routing, and related compliance processes for equity securities.

The text of the proposed rule change is available on the Exchange’s website at <http://www.mioxoptions.com/rule-filings/pearl> at MIAX PEARL’s principal office, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

Exchange Rule 2613 identifies the data feeds that the Exchange utilizes for the handling, execution, and routing of orders in equity securities on the Exchange’s equity trading platform (“MIAX Pearl Equities”), as well as for surveillance necessary to monitor compliance with applicable securities laws and Exchange Rules. The Exchange currently utilizes MEMX market data from the Consolidated Quotation System (“CQS”)/UTP Quotation Data Feed (“UQDF”) for these purposes on MIAX Pearl Equities. The Exchange intends to begin to utilize MEMX’s direct feeds in place of market data from the CQS/UQDF. Therefore, the Exchange proposes to amend Exchange Rule 2613(a) to reflect that the Exchange will utilize MEMX’s direct feeds in place of market data from the CQS/UQDF when performing order handling, order execution, routing, and related compliance processes for equity securities on MIAX Pearl Equities. The Exchange does not currently utilize a secondary source for data from MEMX. Once it begins to utilize direct feeds for data from MEMX, the Exchange will also begin to utilize CQS/UQDF as a secondary source of data from MEMX on MIAX Pearl Equities.

Implementation

Due to the technological changes associated with this proposed change, the Exchange will issue a trading alert publicly announcing the implementation date of this proposed rule change. The Exchange anticipates that the implementation date will be in either the third or fourth quarter of 2022.

2. Statutory Basis

The proposed rule change is consistent with Section 6(b) of the Act,³ in general, and furthers the objectives of Section 6(b)(5),⁴ in particular, because it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in
