

Communications Networks Act of 2019 (Secure Networks Act), Public Law 116–124, 133 Stat. 158 (2020) (codified as amended at 47 U.S.C. 1601–1609), which among other measures, directs the FCC to establish the Secure and Trusted Communications Networks Reimbursement Program (Reimbursement Program). This program is intended to provide funding to providers of advanced communications service for the removal, replacement and disposal of certain communications equipment and services that pose an unacceptable national security risk (*i.e.*, covered equipment and services) from their networks. The Commission has designated two entities—Huawei Technologies Company (Huawei) and ZTE Corporation (ZTE), along with their affiliates, subsidiaries, and parents—as covered companies posing such a national security threat. *See Protecting Against National Security Threats to the Communications Supply Chain Through FCC Programs—Huawei Designation*, PS Docket No. 19–351, Memorandum Opinion and Order, 35 FCC Rcd 14435 (2020); *Protecting Against National Security Threats to the Communications Supply Chain Through FCC Programs—ZTE Designation*, PS Docket No. 19–352, Memorandum Opinion and Order, DA 20–1399 (PSHSB rel. Nov. 24, 2020).

On December 10, 2020, the Commission adopted the *Second Report and Order* implementing the Secure Networks Act, which contained certain new information collection requirements. *See Protecting Against National Security Threats to the Communications Supply Chain Through FCC Programs*, WC Docket No. 18–89, Second Report and Order, 35 FCC Rcd 14284 (2020) (*Second Report and Order*). These requirements will allow the Commission to receive, review and make eligibility determinations and funding decisions on applications to participate in the Reimbursement Program that are filed by certain providers of advanced communications service. These new information collection requirements will also assist the Commission in processing funding disbursement requests and in monitoring and furthering compliance with applicable program requirements to protect against waste, fraud, and abuse.

On December 27, 2020, the President signed into law the Consolidated Appropriations Act, 2021, appropriating \$1.9 billion to “carry out” the Reimbursement Program and amending the Reimbursement Program eligibility requirements to expand eligibility to include providers of advanced

communications service with 10 million or fewer subscribers. *See* Public Law 116–260, Division N—Additional Coronavirus Response and Relief, Title IX—Broadband internet Access Service, §§ 901, 906, 134 Stat. 1182 (2020). The Commission has interpreted the term “provider of advanced communications service” to mean “facilities-based providers, whether fixed or mobile, with a broadband connection to end users with at least 200 kbps in one direction.” *Second Report and Order*, 35 FCC Rcd at 14332, para. 111. Participation in the Reimbursement Program is voluntary but compliance with the new information collection requirements is required to obtain Reimbursement Program support.

The Secure Networks Act requires all providers of advanced communications service to annually report, with exception, on whether they have purchased, rented, leased or otherwise obtained covered communications equipment or service on or after certain dates. 47 U.S.C. 1603(d)(2)(B). The *Second Report and Order* adopted a new information collection requirement to implement this statutory mandate. *See* Secure Networks Act section 5. If the provider certifies it does not have any covered equipment and services, then the provider is not required to subsequently file an annual report, unless it later obtains covered equipment and services. *Second Report and Order* at para. 215.

The Commission therefore revises this information collection contained in the *Second Report and Order* adopted by the Commission on December 10, 2020. A previously approved information collection requirement was also eliminated as it was no longer necessary.

Federal Communications Commission.

General Services Administration Acquisition Regulation (GSAR); Clause and Provision Designation Corrections

AGENCY: Office of Acquisition Policy, General Services Administration (GSA).

ACTION: Final rule.

SUMMARY: GSA is issuing a final rule to amend the General Services Administration Acquisition Regulation (GSAR) to correct clause and provision designation and prescription errors, correct deviations and alternate identification issues, and to make other updates to the GSAR related to identification and incorporation of GSAR provisions and clauses.

DATES: Effective November 5, 2021.

FOR FURTHER INFORMATION CONTACT: Mr. Thomas O’Linn, Procurement Analyst, at 202–445–0390 or gsarpolicy@gsa.gov, for clarification of content. For information pertaining to status or publication schedules, contact the Regulatory Secretariat Division at 202–501–4755 or GSARegSec@gsa.gov. Please cite GSAR Case 2017–G506.

SUPPLEMENTARY INFORMATION:

I. Background

As part of GSA’s regulatory reform efforts, GSA has been performing a comprehensive review of the regulatory requirements in the GSAR. GSA identified designation and prescription errors related to clauses and provisions. Additionally, GSA identified GSAR clause and provision identification and incorporation issues as well as inconsistencies among deviation citations within GSAR part 552. The amendments in this case will result in conformance with Federal Acquisition Regulation (FAR) and GSAR drafting guidelines.

II. Authority for This Rulemaking

Title 40 of the United States Code (U.S.C.) Section 121 authorizes GSA to issue regulations, including the GSAR, to control the relationship between GSA and contractors.

III. Discussion and Analysis

The amendments to the GSAR are minor and reflect only technical edits

and editorial corrections. More specifically, this case makes several editorial amendments to GSAR clause and provision designations and prescriptions; updates the GSAR policy for using subpart 552.1, updates the GSAR policy for the identification of deviations and alternates, and updates the GSAR policy for incorporating GSAR provisions and clauses by reference; and makes additional editorial corrections related to GSAR clauses and provision prescription.

First, this case makes corrections to bring clause and provision designations and prescriptions up-to-date and in conformance with FAR and GSAR current drafting guidelines. Additionally, makes a number of editorial changes to address errors related to the designation and prescription of several clauses and provisions. For example, subpart 552.2 incorrectly identifies the following GSAR clause as “552.217–73 Notice Regarding Information Collection Requirements” though the correct identification is “552.215–73 Notice”.

Second, this case amends several GSAR provision titles and clause titles to bring them in conformance with FAR and GSAR drafting guidelines concerning the use of deviations. GSAR 552.103 is also being amended to update the policy on identification of deviations to provisions and clauses that meet the definition of deviation in FAR 1.401. Under FAR 1.401(a), a deviation is the “issuance or use of a policy, procedure, solicitation provision . . . , contract clause . . . , method, or practice of conducting acquisition actions of any kind at any stage of the acquisition process that is inconsistent with the FAR”. A GSAR provision or clause that is used in lieu of a FAR provision or clause is a deviation, and therefore, should be indicated as such. For example, GSAR clause 552.227–70 Government Rights (Unlimited) is a deviation to FAR clause 52.227–17 Rights in Data-Special Works; however, the GSAR currently does not identify the clause as being a deviation. As a result, the clause title is being amended to reflect the clause being a deviation.

Third, this case amends the GSAR policy found in 552.101–70 and 552.102 for purposes of reflecting current requirements around the use and incorporation of GSAR provisions and clauses. Lastly, this case makes additional technical amendments throughout the GSAR to conform with the amendments covered by this case. For example, GSAR subpart 519.7 and part 549 are being made non-regulatory due to existing GSAM requirements are non-regulatory.

IV. Executive Orders 12866 and 13563

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This rule has been reviewed and determined by the Office of Management and Budget (OMB) not to be a significant regulatory action and, therefore, was not subject to review under section 6(b) of E.O. 12866, Regulatory Planning and Review, dated September 30, 1993.

V. Congressional Review Act

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as amended by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a “major rule” may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This rule has been reviewed and determined by OMB not to be a “major rule” under 5 U.S.C. 804(2).

VI. Notice for Public Comment

The statute that applies to the publication of the GSAR is the Office of Federal Procurement Policy statute (codified at title 41 of the United States Code). Specifically, 41 U.S.C. 1707(a)(1) requires that a procurement policy, regulation, procedure or form (including an amendment or modification thereof) must be published for public comment if it relates to the expenditure of appropriated funds, and has either a significant effect beyond the internal operating procedures of the agency issuing the policy, regulation, procedure, or form, or has a significant cost or administrative impact on contractors or offerors. This rule is not required to be published for public comment, because GSA is not issuing a new regulation that has a significant effect or imposes any requirements on contractors or offerors; rather, because this is a noncontroversial action that only impacts the agency’s internal acquisition policies and procedures related to correcting GSAR errors and

updating GSAR drafting policies and procedures.

VII. Regulatory Flexibility Act

The Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) does not apply to this rule, because an opportunity for public comment is not required to be given for this rule under 41 U.S.C. 1707(a)(1) (see Section VI. of this preamble). Accordingly, no regulatory flexibility analysis is required and none has been prepared.

VIII. Paperwork Reduction Act

This rule does not contain any information collection requirements that require the approval of the Office of Management and Budget under the Paperwork Reduction Act (44 U.S.C. chapter 35).

(b) *Prescriptions.* Each provision or clause in subpart 552.2 is prescribed at the place in the GSAR where the subject matter of the provision or clause receives its primary treatment. The prescription includes all conditions, requirements, and instructions for using the provision or clause and its alternates, if any. The provision or clause may be referred to in other GSAM locations.

(c) *Introductory text.* Within subpart 552.2, the introductory text of each provision or clause includes a cross-reference to the location in the GSAR that prescribes its use.

(d) *Dates.* Since they are subject to revision from time to time, all GSAR provisions, clauses, and alternates are dated; e.g., (DEC 1983). To avoid

The deviation label consists of the text “DEVIATION FAR” and the applicable FAR provision or clause number enclosed in parentheses (e.g., (DEVIATION FAR 52.232–1)).

(2) *General Services Administration Acquisition Regulation deviations.* When a GSAR provision or clause is used with an authorized deviation in a solicitation or contract, it shall be identified by number, title, date, and the text “(DEVIATION)” inserted after the date (e.g., 552.232–1, Payments (NOV 2009) (DEVIATION)).

(c) *Alternates.* When a GSAR provision or clause is used with an alternate in a solicitation or contract, it shall be identified by the basic provision or clause citation and the alternate label (e.g., 552.211–77, Packing

List (FEB 1996) Alternate I (MAY 2003)). The alternate label consists of the word “Alternate”, the alternate number, and date (e.g., Alternate I (MAY 2003)).
