SUPPLEMENTARY INFORMATION: IMLS is especially interested in comments that help the agency to:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques, or other forms of information technology, *e.g.*, permitting electronic submissions of responses.

I. Background

IMLS is the primary source of Federal support for the Nation's libraries and museums. We advance, support, and empower America's museums, libraries, and related organizations through grant

making, research, and policy development. Our vision is a nation where museums and libraries work together to transform the lives of individuals and communities. To learn more, visit www.imls.gov.

II. Current Actions

This Notice is to solicit comments on a program evaluation of the IMLS Museums for All Initiative, which began in 2014. A current IMLS cooperative agreement includes an evaluation of the Museums for All initiative, a program through which participating institutions offer free or reduced-price admission to families facing financial need. The goal is to assess the impact of the Museums for All initiative on participating institutions. As part of this evaluation effort, a questionnaire, which is the subject of this Notice, will be undertaken to solicit information from participating institutions in Museums for All about the initiative's implementation, benefits, and areas for improvement. A small number of participating institution staff will be interviewed virtually or in person as part of case study research. These information collections will be developed based on what is needed to undertake the evaluation. The information IMLS collects will build on, but not duplicate existing or ongoing information collections.
