Notification to Importers

This notice also serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of ADs prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in Commerce's presumption that reimbursement of ADs occurred and the subsequent assessment of double ADs.

Notification to Interested Parties

We are issuing and publishing these preliminary results in accordance with sections 751(a)(1) and 777(i)(1) of the Act, and 19 CFR 351.213(h) and 19 CFR 351.221(b)(4).

Preliminary Results of Changed Circumstances Review: Antidumping Duty Order on Certain Vertical Shaft Engines Between 225cc and 999cc, and Parts Thereof From the People's Republic of China

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) preliminarily determines that Honda Power Products (China) Co., Ltd. (Honda) is the successor-in-interest to Jialing-Honda Motors Co., Ltd. (Jialing) and, accordingly, that subject merchandise produced and exported by Honda should be assigned the cash deposit rate established for subject merchandise produced and exported by Jialing for purposes of the antidumping duty (AD) order on certain vertical shaft engines between 225cc and 999cc, and parts thereof (vertical shaft engines) from the People's Republic of China (China).

DATES: Applicable June 9, 2022.

SUPPLEMENTARY INFORMATION:

Background

On February 22, 2022, Commerce published the initiation of a changed circumstances review (CCR) of the AD order¹ on vertical shaft engines from

China.² Commerce declined to combine the *Initiation Notice* with the preliminary results of the CCR,³ citing the need to issue an additional supplemental questionnaire to Honda regarding Honda's customer base and supplier relationships. On February 15, 2022, we issued a supplemental questionnaire to Honda requesting this information.⁴ On March 8, 2022, Honda timely responded to this supplemental questionnaire.⁵ No other interested party submitted comments or factual information regarding Honda's request.

Scope of the Order

The products covered by the *Order* are large vertical shaft engines from China. For a complete description of the scope of the *Order*, see the Preliminary Decision Memorandum.⁶

Legal Framework

In determining whether one company is the successor-in-interest to another company as part of an AD proceeding, Commerce examines several factors including, but not limited to: (1) management and ownership; (2) production facilities; (3) supplier relationships; and (4) customer base.⁷ Although no single, or even several, of these factors will necessarily provide a dispositive indication of succession, generally, Commerce will consider a company to be the successor-in-interest if its resulting operation is not materially dissimilar to that of its

predecessor.⁸ Thus, if the “totality of circumstances” demonstrate that, with respect to the production and sale of the subject merchandise, the new company operates as essentially the same business entity as the prior company, Commerce will assign the successor-in-interest the cash deposit rate of its predecessor.⁹

Preliminary Results of Review

We preliminarily determine that Honda is the successor-in-interest to Jialing for purposes of the *Order*. Record evidence submitted by Honda indicates that, based on the totality of the circumstances under Commerce’s successor-in-interest criteria, Honda operates as materially the same business entity as Jialing with respect to the production and sale of subject merchandise. In particular, we preliminarily find that Honda’s management and ownership, production facilities, supplier relationships, and customer base with regard to the subject merchandise are substantially the same as Jialing’s before the name change. For the complete successor-in-interest analysis, see the Preliminary Decision Memorandum.

Therefore, based on record evidence, we preliminarily determine that Honda is the successor-in-interest to Jialing and the cash deposit rate assigned to Jialing should be the rate for Honda as a result of our successor-in-interest finding. Should our final results of review remain the same as these preliminary results of review, Honda will be assigned the cash deposit rate currently assigned to Jialing with respect to the subject merchandise (*i.e.*, 261.93 percent).¹⁰ We will thus instruct U.S. Customs and Border Protection to suspend liquidation of entries of vertical shaft engines from China produced and exported by Honda, effective on the publication date of the final results, at the cash deposit rate for estimated antidumping duties assigned to Jialing.
