*General Description of Collection:*  
This collection comprises the recordkeeping, reporting, and disclosure requirements associated with minimum capital requirements and overall capital adequacy standards for insured state nonmember banks, state savings associations, and certain subsidiaries of those entities. The data is used by the FDIC to evaluate capital before approving various applications by insured depository institutions, to evaluate capital as an essential component in determining safety and soundness, and to determine whether an institution is subject to prompt corrective action provisions.

There is no change in the method or substance of the collection. The 8,413-hour decrease in burden hours is a result of economic fluctuation, a decrease in the number of entities subject to the information collection, and efforts to align with the other banking agencies' related information collections.

**Request for Comment**

*Comments are invited on:* (a) Whether the collection of information is

necessary for the proper performance of the FDIC's functions, including whether the information has practical utility; (b) the accuracy of the estimates of the burden of the information collection, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. All comments will become a matter of public record.
