SUMMARY: This action modifies Class E airspace at Coldwater, MI. A Global Positioning System (GPS) Standard Instrument Approach Procedure (SIAP) to Runway (Rwy) 06 has been developed for Branch County Memorial Airport. Controlled airspace extending upward from 700 to 1200 feet above ground level (AGL) is needed to contain aircraft executing the approach. This action increases the radius of the existing controlled airspace for this airport. EFFECTIVE DATE: 0901 UTC, June 15, 2000.

FOR FURTHER INFORMATION CONTACT:

Denis C. Burke, Air Traffic Division, Airspace Branch, AGL-520, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018, telephone (847) 294-7568.

SUPPLEMENTARY INFORMATION:

History

On Wednesday, February 2, 2000, the FAA proposed to amend 14 CFR part 71 to modify Class E airspace at Coldwater, MI (65 FR 4909). The proposal was to modify controlled airspace extending upward from 700 feet above the surface to contain Instrument Flight Rules (IFR) operations in controlled airspace during portions of the terminal operation and while transiting between the enroute and terminal environments.

Interested parties were invited to participate in this rulemking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received. Class E airspace designations for airspace areas extending upward from 700 feet or more above the surface of the earth are published in paragraph 6005 of FAA Order 7400.9G dated September 1, 1999, and effective September 16, 1999, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

The Rule

This amendment to 14 CFR part 71 modifies Class E airspace at Coldwater, MI, to accommodate aircraft executing the proposed GPS Rwy 06 SIAP for Branch County Memorial Airport by modifying the existing controlled airspace. The area will be depicted on appropriate aeronautical charts.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation—(1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT

Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A. CLASS B, CLASS C, CLASS D, AND **CLASS E AIRSPACE AREAS:** AIRWAYS; ROUTES; AND REPORTING **POINTS**

1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 95665, 3 CFR, 1959-1963 Comp., p. 389.

71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9G, Airspace Designations and Reporting Points, dated September 1, 1999, and effective September 16, 1999, is amended as follows:

Paragraph 6005 Class E airspace areas extending upward from 700 feet or more above the surface of the earth.

* AGL MI E5 Coldwater, MI [Revised]

*

Coldwater, Branch County Memorial Airport,

(Lat. 41°56′00" N., long. 85°03′09" W.)

That airspace extending upward from 700 feet above the surface within an 8.1-mile radius of Branch County Memorial Airport.

FEDERAL TRADE COMMISSION

16 CFR Part 305

Rule Concerning Disclosures Regarding Energy Consumption and Water Use of Certain Home Appliances and Other Products Required Under the Energy Policy and Conservation Act ("Appliance Labeling Rule")

AGENCY: Federal Trade Commission. **ACTION:** Final rule revision.

SUMMARY: The Federal Trade
Commission ("Commission") revises
Table 1 in section 305.9 of the
Commission's Appliance Labeling Rule
("the Rule"), to incorporate the latest
figures for average unit energy costs as
published by the Department of Energy
("DOE") in the Federal Register on
February 7, 2000. Table I sets for the
representative average unit energy costs
for five residential energy sources,
which the Commission revises
periodically on the basis of updated
information provided by DOE.

DATES: The revisions to § 305.9(a) are effective April 17, 2000. The mandatory dates for using these revised DOE cost figures in connection with the Appliance Labeling Rule are detailed in the **SUPPLEMENTARY INFORMATION** Section, below.

FOR FURTHER INFORMATION CONTACT:

James Mills, Attorney, 202–326–3035, Division of Enforcement, Federal Trade Commission, Washington, DC 20580.

SUPPLEMENTARY INFORMATION: On November 19, 1979, the Federal Trade Commission issued a final rule in response to a directive in section 324 of the Energy Policy and Conservation Act

("EPCA"), 42 U.S.C. 6201.1 The Rule requires the disclosure of energy efficiency, consumption, or cost information on labels and in retail sales catalogs for eight categories of appliances, and mandates that the energy costs, consumption, or efficiency ratings be based on standardized test procedures developed by DOE. The cost information obtained by following the test procedures is derived by using the representative average unit energy costs provided by DOE. Table 1 in § 305.9(a) of the Rule sets forth the representative average unit energy costs to be used for all cost-related requirements of the Rule. As stated in § 305.9(b), the Table is to be revised periodically on the basis of updated information provided by DOE.

On February 7, 2000, DOE published the most recent figures for representative average unit energy costs (65 FR 5860). These energy cost figures are for manufacturers to use, in accordance with the guidelines that appear below, to calculate the required secondary annual operating cost figures at the bottom of required Energy Guides for refrigerators, refrigerator-freezers, freezers, dishwashers, clothes washers, water heaters, and room air conditioners. The energy cost figures also are for manufacturers of furnaces, boilers, central air conditioners, and heat pumps to use, also in accordance with the below guidelines, to calculate annual operating cost for required fact sheets. And, the cost figures are for use, in accordance with the guidelines, in approved industry directories listing these products.

The DOE cost figures are not necessary for making data submissions to the Commission. The required energy use information that manufacturers of refrigerators, refrigerator-freezers, freezers, clothes washers, dishwashers, and water heaters must submit under § 305.8 of the Rule is no longer operating cost; it is now energy consumption (kiloWatt-hour use per year for electricity, therms per year for natural gas, or gallons per year for propane and oil).

Accordingly, Table 1 is revised to reflect these latest cost figures, as set forth below. The current and future obligations of manufacturers with

¹44 FR 66466. Since its promulgation, the rule has been amended five times to include new product categories—central air conditioners (52 FR 46888, Dec. 10, 1987), fluorescent lamp ballasts (54 FR 1182, Jan. 12, 1989), certain plumbing products (58 FR 54955, Oct. 25, 1993), certain lamp products (59 FR 25176, May 13, 1994), and pool heaters and certain residential water heater types (59 FR 49556, Sept. 28, 1994). Obligations under the rule concerning fluorescent lamp ballasts, lighting products, plumbing products and pool heaters are not affected by the cost figures in this notice.
