Any person desiring to intervene, to
 protest, or to answer a complaint in any
 of the above proceedings must file in
 accordance with Rules 211, 214, or 206
 of the Commission's Regulations (18
 CFR 385.211, 385.214, or 385.206) on or
 before 5:00 p.m. Eastern time on the
 specified comment date. Protests may be
 considered, but intervention is
 necessary to become a party to the
 proceeding.

The filings are accessible in the
 Commission's eLibrary system ([https://
 elibrary.ferc.gov/idmws/search/
 fercgensearch.asp](https://elibrary.ferc.gov/idmws/search/fercgensearch.asp)) by querying the
 docket number.

eFiling is encouraged. More detailed
 information relating to filing
 requirements, interventions, protests,
 service, and qualifying facilities filings

can be found at: [http://www.ferc.gov/
 docs-filing/efiling/filing-req.pdf](http://www.ferc.gov/docs-filing/efiling/filing-req.pdf). For
 other information, call (866) 208–3676
 (toll free). For TTY, call (202) 502–8659.

The Commission's Office of Public
 Participation (OPP) supports meaningful
 public engagement and participation in
 Commission proceedings. OPP can help
 members of the public, including
 landowners, local communities, Tribal
 members and others, access publicly
 available information and navigate
 Commission processes. For public
 inquiries and assistance with making
 filings such as interventions, comments,
 or requests for rehearing, the public is
 encouraged to contact OPP at (202) 502–
 6595 or OPP@ferc.gov.

Dated: February 3, 2025.

Carlos D. Clay,

Deputy Secretary.

BILLING CODE 6717–01–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP24–468–000]

Texas Gas Transmission, LLC; Gulf South Pipeline Company, LLC; Notice of Availability of the Environmental Assessment for the Proposed Eunice Reliability and Lake Charles Supply Project

The staff of the Federal Energy
 Regulatory Commission (FERC or
 Commission) has prepared an
 environmental assessment (EA) for the
 Eunice Reliability and Lake Charles
 Supply Project (Project), proposed by
 Texas Gas Transmission, LLC (Texas
 Gas) and Gulf South Pipeline Company,
 LLC (Gulf South), in the above-
 referenced docket.¹ On May 8, 2024,
 Texas Gas and Gulf South filed an
 application in Docket No. CP24–468–
 000 requesting authorization to
 construct, operate and abandon certain
 natural gas pipeline facilities. The
 Project consists of the replacement and
 expansion of compression facilities at
 Texas Gas' existing Eunice Compressor
 Station in Acadia Parish, Louisiana and
 the installation of overpressure
 protection at Texas Gas' existing
 Woodlawn Valve Station in Jefferson
 Davis Parish, Louisiana. The Project
 would create 120,000 dekatherms per
 day (Dth/d) of new transportation

¹ For tracking purposes under the Council on
 Environmental Quality, the unique identification
 number for documents relating to this
 environmental review is EAXX–019–20–000–
 1725459309. 40 CFR 1501.5(c)(4) (2024).

service on Texas Gas' system that would
 be leased to Gulf South to meet its
 customers' needs in the Lake Charles
 area, including an electric utility and
 two natural gas marketers.

The EA assesses the potential
 environmental effects of the
 construction and operation of the
 Project in accordance with the
 requirements of the National
 Environmental Policy Act (NEPA). The
 FERC staff concludes that approval of
 the proposed project would not
 constitute a major federal action
 significantly affecting the quality of the
 human environment.

The Project would consist of the
 following facilities:

- abandon in place four 1,100
 horsepower (hp) and one 2,250 hp
 reciprocating compressor units and
 install one 8,968 HP Solar T–70 gas-
 fired, turbine-driven compressor unit
 and one 6,391 hp Solar T60 gas-fired,
 turbine-driven compressor unit, and
 appurtenances at the Eunice
 Compressor Station in Acadia Parish,
 Louisiana;
- install associated suction/discharge
 lines interconnecting the proposed
 Eunice Compressor Station facilities and
 the proposed tie-in facility to be
 installed at an existing trap site
 (collectively referred to as the Eunice
 Compressor Station and Trap Site); and
- install overpressure protection at
 the existing Woodlawn Junction in
 Jefferson Davis Parish, Louisiana.

The Commission mailed a copy of the
Notice of Availability of the EA to
 federal, state, and local government
 representatives and agencies; elected
 officials; environmental and public
 interest groups; Native American tribes;
 potentially affected landowners and
 other interested individuals and groups;
 and newspapers and libraries in the
 project area. The EA is only available in
 electronic format. It may be viewed and
 downloaded from the FERC's website
 (www.ferc.gov), on the natural gas
 environmental documents page ([https://
 www.ferc.gov/industries-data/natural-
 gas/environment/environmental-
 documents](https://www.ferc.gov/industries-data/natural-gas/environment/environmental-documents)). In addition, the EA may be
 accessed by using the eLibrary link on
 the FERC's website. Click on the
 eLibrary link ([https://elibrary.ferc.gov/
 eLibrary/search](https://elibrary.ferc.gov/eLibrary/search)), select "General
 Search" and enter the docket number in
 the "Docket Number" field, excluding
 the last three digits (*i.e.* CP24–468). Be
 sure you have selected an appropriate
 date range. For assistance, please
 contact FERC Online Support at
FercOnlineSupport@ferc.gov or toll free
 at (866) 208–3676, or for TTY, contact
 (202) 502–8659.

The EA is not a decision document. It presents Commission staff's independent analysis of the environmental issues for the Commission to consider when addressing the merits of all issues in this proceeding. Any person wishing to comment on the EA may do so. Your comments should focus on the EA's disclosure and discussion of potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts. The more specific your comments, the more useful they will be. To ensure that the Commission has the opportunity to consider your comments prior to making its decision on this project, it is important that we receive your comments in Washington, DC on or before 5:00 p.m. Eastern Time on March 3, 2025.

For your convenience, there are three methods you can use to file your comments to the Commission. The Commission encourages electronic filing of comments and has staff available to assist you at (866) 208-3676 or FercOnlineSupport@ferc.gov. Please carefully follow these instructions so that your comments are properly recorded.

(1) You can file your comments electronically using the eComment feature on the Commission's website (www.ferc.gov) under the link to FERC Online. This is an easy method for submitting brief, text-only comments on a project;

(2) You can also file your comments electronically using the eFiling feature on the Commission's website (www.ferc.gov) under the link to FERC Online. With eFiling, you can provide comments in a variety of formats by attaching them as a file with your submission. New eFiling users must first create an account by clicking on "eRegister." You must select the type of filing you are making. If you are filing a comment on a particular project, please select "Comment on a Filing"; or

(3) You can file a paper copy of your comments by mailing them to the Commission. Be sure to reference the project docket number (CP24-468-000) on your letter. Submissions sent via the U.S. Postal Service must be addressed to: Debbie-Anne A. Reese, Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Room 1A, Washington, DC 20426. Submissions sent via any other carrier must be addressed to: Debbie-Anne A. Reese, Secretary, Federal Energy Regulatory Commission, 12225 Wilkins Avenue, Rockville, Maryland 20852.

Filing environmental comments will not give you intervenor status, but you

do not need intervenor status to have your comments considered. Only intervenors have the right to seek rehearing or judicial review of the Commission's decision. At this point in this proceeding, the timeframe for filing timely intervention requests has expired. Any person seeking to become a party to the proceeding must file a motion to intervene out-of-time pursuant to Rule 214(b)(3) and (d) of the Commission's Rules of Practice and Procedures (18 CFR 385.214(b)(3) and (d)) and show good cause why the time limitation should be waived. Motions to intervene are more fully described at <https://www.ferc.gov/how-intervene>.

Additional information about the project is available from the Commission's Office of External Affairs, at (866) 208-FERC, or on the FERC website (www.ferc.gov) using the eLibrary link. The eLibrary link also provides access to the texts of all formal documents issued by the Commission, such as orders, notices, and rulemakings.

The Commission's Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings. OPP can help members of the public, including landowners, environmental justice communities, Tribal members and others, access publicly available information and navigate Commission processes. For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, the public is encouraged to contact OPP at (202) 502-6595 or OPP@ferc.gov.

In addition, the Commission offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to <https://www.ferc.gov/ferc-online/overview> to register for eSubscription.

Dated: January 31, 2025.

Debbie-Anne A. Reese,

Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP24-93-000]

Venice Gathering System, L.L.C.; Notice of Availability of the Environmental Assessment for the Proposed Venice Gathering System Abandonment Project

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) for the Venice Gathering System Abandonment Project (Project), mostly in the Gulf of America (Gulf) offshore of Louisiana.¹ Venice Gathering System, L.L.C. (Venice) proposes to abandon in-place about 124.4 miles of 8-inch to 26-inch-diameter pipeline from offshore South Timbalier Block 151 and West Delta Blocks 41 and 72 in the Gulf to an onshore interconnection with Venice Energy Services Company, L.L.C.'s natural gas processing plant, near the town of Venice, in Plaquemines Parish, Louisiana.

The EA assesses the potential environmental effects of the Project in accordance with the requirements of the National Environmental Policy Act. The FERC staff concludes that approval of the Project would not constitute a major federal action significantly affecting the quality of the human environment.

The Commission mailed a copy of the *Notice of Availability* of the EA to federal, state, and local government representatives and agencies; elected officials; non-governmental organizations, environmental and public interest groups; and newspapers and libraries in the project area. The EA is only available in electronic format. It may be viewed and downloaded from the FERC's website (www.ferc.gov), on the natural gas environmental documents page (<https://www.ferc.gov/industries-data/natural-gas/environment/environmental-documents>). In addition, the EA may be accessed by using the eLibrary link on the FERC's website. Click on the eLibrary link (<https://elibrary.ferc.gov/elibrary/search>), select "General Search" and enter the docket number in the "Docket Number" field, (*i.e.* CP24-93). Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at FercOnlineSupport@ferc.gov or toll free

¹ For tracking purposes, the unique identification number for documents relating to this environmental review is EAXX-019-20-000-1730110485.
