EXPORT-IMPORT BANK**Application for Final Commitment for a Long-Term Loan or Financial Guarantee in Excess of \$100 Million: AP089523XX**

AGENCY: Export-Import Bank of the United States.

ACTION: Notice.

SUMMARY: This Notice is to inform the public the Export-Import Bank of the United States (“EXIM”) has received an application for final commitment for a long-term loan or financial guarantee in excess of \$100 million. Comments received within the comment period specified below will be presented to the EXIM Board of Directors prior to final action on this Transaction.

DATES: Comments must be received on or before September 3, 2024 to be assured of consideration before final consideration of the transaction by the Board of Directors of EXIM.

ADDRESSES: Comments may be submitted through *Regulations.gov* at WWW.REGULATIONS.GOV. To submit a comment, enter AP089523XX under the heading “Enter Keyword or ID” and select Search. Follow the instructions provided at the Submit a Comment screen. Please include your name, company name (if any) and AP089523XX on any attached document.

SUPPLEMENTARY INFORMATION:

Reference: AP089523XX

Purpose and Use:

Brief description of the purpose of the transaction: The generation of power through the recovery of waste heat via the conversion of the existing Kirkuk simple cycle power plant to a combined cycle power plant.

Brief non-proprietary description of the anticipated use of the items being exported: Provide power via waste heat recovery to increase the availability and reliability of power for the Iraqi people. Once completed, the combined cycle power plant will increase the production of power by 285 MW or 50% and increase plant fuel efficiency by 17%. Because of the increased production of electricity, the project will result in a 31.2% reduction in greenhouse gas emissions per MWh of electricity generated.

Parties:

Principal Supplier: Stellar Energy Americas, Inc., of Jacksonville, Florida.

Lender: J.P. Morgan Chase Bank N.A.—London Branch, London, United Kingdom.

Obligor: Ministry of Finance of the Republic of Iraq.

Guarantor(s): None.

Description of Items Being Exported: Engineering, procurement, construction, design, and training services.

Information on Decision: Information on the final decision for this transaction will be available in the “Summary Minutes of Meetings of Board of Directors” on <http://exim.gov/newsandevents/boardmeetings/board/>.

Confidential Information: Please note that this notice does not include confidential or proprietary business information; information which, if disclosed, would violate the Trade Secrets Act; or information which would jeopardize jobs in the United States by supplying information that competitors could use to compete with companies in the United States.

Agency for Healthcare Research and Quality

Agency Information Collection

Activities: Proposed Collection; Comment Request

AGENCY: Agency for Healthcare Research and Quality, HHS.

ACTION: Notice.

SUMMARY: This notice announces the intention of the Agency for Healthcare Research and Quality (AHRQ) to request that the Office of Management and Budget (OMB) approve the extension without change of the information collection project "Nursing Home Survey on Patient Safety Culture Database," OMB No. 0935-0195.

DATES: Comments on this notice must be received by October 8, 2024.

ADDRESSES: Written comments should be submitted to: Doris Lefkowitz, Reports Clearance Officer, AHRQ, by email at REPORTSCLEARANCEOFFICER@ahrq.hhs.gov.

Copies of the proposed collection plans, data collection instruments, and specific details on the estimated burden can be obtained from the AHRQ Reports Clearance Officer.

FOR FURTHER INFORMATION CONTACT: Doris Lefkowitz, AHRQ Reports Clearance Officer, (301) 427-1477, or by email at REPORTSCLEARANCEOFFICER@ahrq.hhs.gov.

SUPPLEMENTARY INFORMATION:

Proposed Project

Nursing Home Survey on Patient Safety Culture Database

In 1999, the Institute of Medicine called for healthcare organizations to develop a safer health system. To respond to the need for tools to assess patient safety culture in healthcare, AHRQ developed and pilot tested the Surveys on Patient Safety Culture® (SOPS®) Nursing Home Survey with OMB approval (OMB No. 0935-0132). The survey is designed to enable nursing homes to assess provider and staff perspectives about patient safety issues, medical error, and error reporting. AHRQ made the survey publicly available along with a Survey User's Guide and other toolkit materials in November 2008 on the AHRQ website.

The AHRQ SOPS Nursing Home Database consists of data from the AHRQ Nursing Home Survey on Patient Safety Culture and may include reportable, non-required supplemental items. Nursing homes in the U.S. can voluntarily submit data from the survey to AHRQ through its contractor, Westat. The SOPS Nursing Home Database was developed by AHRQ in 2011 in response to requests from nursing homes interested in viewing their organizations' patient safety culture survey results. Organizations submitting data receive a feedback report, as well as a report on the aggregated, de-identified findings of the other nursing homes submitting data. These reports are used to assist nursing home staff in their efforts to improve patient safety culture in their organizations.

Rationale for the information collection. The SOPS Nursing Home Survey and SOPS Nursing Home Database support AHRQ's goals of promoting improvements in the quality and safety of healthcare in nursing home settings. The survey, toolkit materials, and database results are all made publicly available on AHRQ's website. Technical assistance is provided by AHRQ through its contractor at no charge to nursing homes, to facilitate the use of these materials for nursing home patient safety and quality improvement.

This research has the following goals:

- Present results from nursing homes that voluntarily submit their data,
- Provide data to nursing homes to facilitate internal assessment and learning in the patient safety improvement process, and
- Provide supplemental information to help nursing homes identify their strengths and areas with potential for improvement in patient safety culture.

This study is being conducted by AHRQ through its contractor, Westat, pursuant to AHRQ's statutory authority to conduct and support research on health care and on systems for the delivery of such care, including activities with respect to the quality, effectiveness, efficiency, appropriateness and value of healthcare services; quality measurement and improvement; and database development. 42 U.S.C 299a(a)(1), (2), and (8).

Method of Collection

To achieve the goal of this project the following activities and data collections will be implemented:

(1) Eligibility and Registration Form—The nursing home (or parent organization) point-of-contact (POC) completes a number of data submission steps and forms, beginning with the completion of an online Eligibility and Registration Form. The purpose of this form is to collect basic demographic information about the nursing home and initiate the registration process.

(2) Nursing Home Site Information—The purpose of the site information form, completed by the nursing home POC, is to collect background characteristics of the nursing home. This information will be used to analyze data collected with the SOPS Nursing Home Survey.

(3) Data Use Agreement—The purpose of the data use agreement, completed by the nursing home POC, is to state how data submitted by nursing homes will be used and provides confidentiality assurances.

(4) Data File(s) Submission—POCs upload their data file(s) using the data file specifications, to ensure that users submit their data in a standardized way (e.g., variable names, order, coding, formatting). The number of submissions to the database is likely to vary from submission period to submission period because nursing homes do not administer the survey and submit data every database year. Data submission is typically handled by one POC who is either a corporate level healthcare manager for a Quality Improvement Organization (QIO), a survey vendor who contracts with a nursing home to collect their data, or a nursing home Director of Nursing or nurse manager. POCs submit data on behalf of 1 nursing home, on average, because many nursing homes are part of a QIO or larger nursing home or health system that includes many nursing home sites, or the POC is a vendor that is submitting data for multiple nursing homes.
