

**SUMMARY:** As a result of the determinations by the Department of Commerce (the Department) and the International Trade Commission (the Commission) that revocation of these antidumping duty orders would be likely to lead to continuation or recurrence of dumping and material injury to an industry in the United States, pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act), the Department hereby orders the continuation of the antidumping duty orders on forged stainless steel flanges (flanges) from India and Taiwan. The Department is publishing notice of the continuation of these antidumping duty orders.

**EFFECTIVE DATE:** December 29, 2005

**FOR FURTHER INFORMATION CONTACT:** Deborah L. Scott or Robert James, Office 7, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Ave., NW., Washington, DC 20230; telephone: (202) 482-2657 or 482-0649, respectively.

**SUPPLEMENTARY INFORMATION:**

**Background**

On July 1, 2005, the Department initiated and the Commission instituted sunset reviews of the antidumping duty orders on flanges from India and Taiwan pursuant to section 751(c) of the Act. *See Initiation of Five-year (Sunset) Reviews*, 70 FR 38101 (July 1, 2005), and *Forged Stainless Steel Flanges From India and Taiwan*, 70 FR 38195 (July 1, 2005). As a result of its review, the Department found that revocation of the antidumping duty orders would likely lead to continuation or recurrence of dumping and notified the Commission of the magnitude of the margins likely to prevail were the orders to be revoked. *See Forged Stainless Steel Flanges from India and Taiwan; Expedited Five-year (Sunset) Reviews of the Antidumping Duty Orders; Final Results*, 70 FR 67137 (November 4, 2005).

On December 7, 2005, the Commission determined, pursuant to section 751(c) of the Act, that revocation of the antidumping duty orders on flanges from India and Taiwan would likely lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time. *See Forged Stainless Steel Flanges from Taiwan*, 70 FR 76074 (December 22, 2005), and USITC Publication 3827 (December 2005) (Investigations Nos. 731-TA-639 and 640 (Second Review)).

**Scope of the Orders**

The products covered by these orders are certain forged stainless steel flanges, both finished and not finished, generally manufactured to specification ASTM A-182, and made in alloys such as 304, 304L, 316, and 316L. The scope includes five general types of flanges. They are weld-neck, used for butt-weld line connections; threaded, used for threaded line connections; slip-on and lap joint, used with stub-ends/butt-weld line connections; socket weld, used to fit pipe into a machined recession; and blind, used to seal off a line. The sizes of the flanges within the scope range generally from one to six inches; however, all sizes of the above-described merchandise are included in the scope. Specifically excluded from the scope of these orders are cast stainless steel flanges. Cast stainless steel flanges generally are manufactured to specification ASTM A-351. The flanges subject to these orders are currently classifiable under subheadings 7307.21.1000 and 7307.21.5000 of the *Harmonized Tariff Schedule of the United States (HTSUS)*. Although the HTSUS subheading is provided for convenience and customs purposes, the written description of the merchandise under review is dispositive of whether or not the merchandise is covered by the scope of the orders.

**Determination**

As a result of the determinations by the Department and the Commission that revocation of these antidumping duty orders would be likely to lead to continuation or recurrence of dumping and material injury to an industry in the United States, pursuant to section 751(d)(2) of the Act, the Department hereby orders the continuation of the antidumping duty orders on flanges from India and Taiwan.

U.S. Customs and Border Protection will continue to collect antidumping duty deposits at the rates in effect at the time of entry for all imports of subject merchandise from all manufacturers and exporters of flanges from India and Taiwan, except Viraj Forgings, Ltd., for which the order on flanges from India was revoked. The effective date of the continuation for these orders is December 29, 2005. Pursuant to section 751(c)(2) of the Act, the Department intends to initiate the next five-year review of these antidumping orders not later than December 2010.

These sunset reviews and this continuation notice are in accordance with section 751(c) of the Act and published pursuant to 777(i) of the Act.

Dated: January 17, 2006.

**SUPPLEMENTARY INFORMATION:** On December 12, 2005, the Department of Commerce (the Department) determined that certain softwood lumber products from Canada are being sold in the United States at less than fair value, as provided in section 751(a) of the Tariff Act of 1930, as amended (the Act). See Notice of Final Results of Antidumping Duty Administrative Review: Certain Softwood Lumber Products from Canada, 70 FR 73437 (December 12, 2005) (Final Results). <sup>1</sup> The petitioner in this case is the Coalition for Fair Lumber Imports Executive Committee. We note that during the review, submissions have been made interchangeably by the petitioner itself and by the Coalition for Fair Lumber Imports, a domestic interested party. For ease of reference, we will use the term "petitioner" to refer to submissions by either, although we recognize that the Coalition for Fair Lumber Imports is not the actual petitioner.

On December 19 and 21, we received rebuttal comments from the petitioner and Canfor. Also on December 21, we received a request from the Canadian Lumber Remanufacturers Association (CLRA) that a spelling error in the name of Britannia Lumber Company Limited be corrected.

### Scope of the Order

The products covered by this order are softwood lumber, flooring and siding (softwood lumber products). Softwood lumber products include all products classified under headings 4407.1000, 4409.1010, 4409.1090, and 4409.1020, respectively, of the Harmonized Tariff Schedule of the United States (HTSUS), and any softwood lumber, flooring and siding described below. These softwood lumber products include:

(1) Coniferous wood, sawn or chipped lengthwise, sliced or peeled, whether or not planed, sanded or finger-jointed, of a thickness exceeding six millimeters;

(2) Coniferous wood siding (including strips and friezes for parquet flooring, not assembled) continuously shaped (tongued, grooved, rabbeted, chamfered, v-jointed, beaded, molded, rounded or the like) along any of its edges or faces, whether or not planed, sanded or finger-jointed;

(3) Other coniferous wood (including strips and friezes for parquet flooring, not assembled) continuously shaped (tongued, grooved, rabbeted, chamfered, v-jointed, beaded, molded, rounded or the like) along any of its edges or faces (other than wood moldings and wood dowel rods) whether or not planed, sanded or finger-jointed; and

(4) Coniferous wood flooring (including strips and friezes for parquet flooring, not assembled) continuously shaped (tongued, grooved, rabbeted, chamfered, v-jointed, beaded, molded, rounded or the like) along any of its edges or faces, whether or not planed, sanded or finger-jointed.

Although the HTSUS subheadings are provided for convenience and U.S. Customs and Border Protection (CBP) purposes, the written description of the merchandise under investigation is dispositive. Preliminary scope exclusions and clarifications were published in three separate **Federal Register** notices.

Softwood lumber products excluded from the scope:

Trusses and truss kits, properly classified under HTSUS 4418.90  
I-joist beams  
Assembled box spring frames  
Pallets and pallet kits, properly classified under HTSUS 4415.20  
Garage doors  
Edge-glued wood, properly classified under HTSUS 4421.90.97.40 (formerly HTSUS 4421.90.98.40)  
Properly classified complete door frames  
Properly classified complete window frames  
Properly classified furniture

Softwood lumber products excluded from the scope only if they meet certain requirements:

*Stringers* (pallet components used for runners): if they have at least two notches on the side, positioned at equal distance from the center, to properly accommodate forklift blades, properly classified under HTSUS 4421.90.97.40 (formerly HTSUS 4421.90.98.40).

*Box-spring frame kits*: if they contain the following wooden pieces—two side rails, two end (or top) rails and varying numbers of slats. The side rails and the end rails should be radius-cut at both ends. The kits should be individually packaged, they should contain the exact number of wooden components needed to make a particular box spring frame, with no further processing required. None of the components exceeds 1" in actual thickness or 83" in length.

*Radius-cut box-spring-frame components*, not exceeding 1" in actual thickness or 83" in length, ready for assembly without further processing. The radius cuts must be present on both ends of the boards and must be substantial cuts so as to completely round one corner.

*Fence pickets* requiring no further processing and properly classified under HTSUS 4421.90.70, 1" or less in actual thickness, up to 8" wide, 6' or less in length, and have finials or decorative cuttings that clearly identify them as fence pickets. In the case of dog-eared fence pickets, the corners of the boards should be cut off so as to remove pieces of wood in the shape of isosceles right angle triangles with sides measuring  $\frac{3}{4}$  inch or more. *U.S. origin lumber* shipped to Canada for minor processing and imported into the United States, is excluded from the scope of this order if the following conditions are met: (1) The processing occurring in Canada is limited to kiln-drying, planing to create smooth-to-size board, and sanding, and (2) the importer establishes to CBP's

satisfaction that the lumber is of U.S. origin.<sup>5</sup>

*Softwood lumber products contained in single family home packages or kits*,<sup>6</sup> regardless of tariff classification, are excluded from the scope of the orders if the following criteria are met:

1. The imported home package or kit constitutes a full package of the number of wooden pieces specified in the plan, design or blueprint necessary to produce a home of at least 700 square feet produced to a specified plan, design or blueprint;

2. The package or kit must contain all necessary internal and external doors and windows, nails, screws, glue, subfloor, sheathing, beams, posts, connectors and, if included in purchase contract, decking, trim, drywall and roof shingles specified in the plan, design or blueprint;

3. Prior to importation, the package or kit must be sold to a retailer of complete home packages or kits pursuant to a valid purchase contract referencing the particular home design plan or blueprint, and signed by a customer not affiliated with the importer;

4. The whole package must be imported under a single consolidated entry when permitted by CBP, whether or not on a single or multiple trucks, rail cars or other vehicles, which shall be on the same day except when the home is over 2,000 square feet;

5. The following documentation must be included with the entry documents:

A copy of the appropriate home design, plan, or blueprint matching the entry;  
A purchase contract from a retailer of home kits or packages signed by a customer not affiliated with the importer;

A listing of inventory of all parts of the package or kit being entered that conforms to the home design package being entered;

In the case of multiple shipments on the same contract, all items listed immediately above which are included in the present shipment shall be identified as well.

We have determined that the excluded products listed above are outside the scope of this order provided the specified conditions are met. Lumber products that CBP may classify as stringers, radius cut box-spring-frame components, and fence pickets, not

<sup>5</sup> For further clarification pertaining to this exclusion, see the additional language concluding the scope description below.

<sup>6</sup> To ensure administrability, we clarified the language of this exclusion to require an importer certification and to permit single or multiple entries on multiple days, as well as instructing importers to retain and make available for inspection specific documentation in support of each entry.

conforming to the above requirements, as well as truss components, pallet components, and door and window frame parts, are covered under the scope of this order and may be classified under HTSUS subheadings 4418.90.40.90, 4421.90.70.40, and 4421.90.98.40. Due to changes in the 2002 HTSUS whereby subheading 4418.90.40.90 and 4421.90.98.40 were changed to 4418.90.45.90 and 4421.90.97.40, respectively, we are adding these subheadings as well.

In addition, this scope language has been further clarified to now specify that all softwood lumber products entered from Canada claiming non-subject status based on U.S. country of origin will be treated as non-subject U.S.-origin merchandise under the antidumping and countervailing duty

orders, provided that these softwood lumber products meet the following condition: upon entry, the importer, exporter, Canadian processor and/or original U.S. producer establish to CBP's satisfaction that the softwood lumber entered and documented as U.S.-origin softwood lumber was first produced in the United States as a lumber product satisfying the physical parameters of the softwood lumber scope.<sup>7</sup> The presumption of non-subject status can, however, be rebutted by evidence demonstrating that the merchandise was substantially transformed in Canada.

#### Amended Final Results

In accordance with section 751(h) of the Act, we have determined that ministerial errors were made in our Final Results margin calculations. For a

detailed discussion of the ministerial error allegations and the Department's analysis, see Memorandum to Stephen J. Claeys, Antidumping Duty Administrative Review of Certain Softwood Lumber Products from Canada, regarding Ministerial Error Allegations, dated January 12, 2006, which is on file in the Central Records Unit ("CRU"), room B-099 of the main Department building.

In accordance with section 751(h) of the Act and 19 CFR 351.224(e), we are amending the final results of the antidumping duty administrative review of lumber from Canada to correct these ministerial errors.

The revised weighted-average dumping margins for the period May 1, 2003, through April 30, 2004, are listed below:

<sup>8</sup> Abitibi Consolidated Company of Canada was inadvertently omitted for the final results.

<sup>9</sup> We note that Nakina Forest Products Limited is a division of Long Lake Forest Products, Inc., an affiliate of Buchanan Lumber Sales.

<sup>10</sup> Canfor's weighted-average margin is based upon a weighted-average of Canfor's and Slocan's respective cash deposit rates prior to the merger. See Memorandum from Salim Bhabhrwala, International Trade Compliance Analyst to The File, Re: Analysis Memorandum For Canfor Corporation (December 5, 2005). We also note that,

during the POR, Sinclair Enterprises Ltd. (Sinclar) acted as an affiliated reseller for Lakeland, an affiliate of Canfor. In this review, we reviewed the sales of Canfor and its affiliates; therefore, Canfor's weighted-average margin applies to all sales of subject merchandise produced by any member of the Canfor Group and sold by Sinclair. As Sinclair also separately requested a review, any sales of subject merchandise produced by another manufacturer and sold by Sinclair will receive the "Review-Specific Average" rate. Finally, we note that Canadian Forest Products, Ltd. is a wholly owned subsidiary of Canfor and will receive Canfor's weighted-average margin.

<sup>11</sup> In the Preliminary Results, we listed companies on the review-specific rate list that did not request

a review or have a review requested on them for the current review. Therefore, we have removed the following companies from the review specific-rate list for the final results: AFA Forest Products Inc., Associated Cedar Products, Ivis Wood Products, Lazy S Lumber, Mary's River Lumber, New West Lumber Ltd., Quadra Wood Products Ltd., Schols Cedar Products, Standard Building Products Ltd., Still Creek Forest Products Ltd., Taiga Forest Products, Western Cleanwood Preservers Ltd. and Western Wood Preservers Ltd. All of the above companies participated in the 1st Administrative Review and will continue to receive the review-specific average rate (3.78%) from that review.
