Notice of Postponement of Preliminary Determination of Antidumping Duty Investigation: Certain Artist Canvas from the People's Republic of China

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: August 19, 2005.

FOR FURTHER INFORMATION CONTACT:

Michael Holton or Robert Bolling, AD/ CVD Operations, Office 8, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482–1324 or (202) 482–3434, respectively.

SUPPLEMENTARY INFORMATION:

Postponement of Preliminary Determination

On April 28, 2005, the Department of Commerce (“Department”) published the initiation of the antidumping duty investigation of imports of certain artist canvas from the People's Republic of China. *See Initiation of Antidumping Duty Investigation: Certain Artist Canvas from the People's Republic of China*, 70 FR 21996 (April 28, 2005). The notice of initiation stated that we would make our preliminary determination for this antidumping duty investigation no later than 140 days after the date of issuance of the initiation. Currently, the preliminary determination in this investigation is due September 8, 2005.

On August 11, 2005, Tara Materials Inc. (“Petitioner”) made a timely request pursuant to 19 CFR §351.205(e) for a 29-day postponement of the preliminary determination, or until October 7, 2005. Petitioner requested postponement of the preliminary determination because it believes additional time is necessary to allow Petitioner to review the responses to the supplemental questionnaires and submit comments to the Department, and also to allow the Department time to analyze thoroughly the respondents' data and to seek additional information, if necessary.

Under section 733(c)(1)(A) of the Tariff Act of 1930, as amended (“the Act”), if Petitioner makes a timely request for a postponement of the preliminary determination, the Department may postpone the preliminary determination under subsection (b)(1) until no later than the 190th day after the initiation of the investigation.

Therefore, because there are no compelling reasons to deny Petitioner's request, we are postponing the preliminary determination under section 733(c)(1)(A) of the Act by 29 days to October 7, 2005. The deadline for the final determination will continue to be 75 days after the date of the preliminary determination, unless extended.

This notice is issued and published pursuant to sections 733(c)(2) of the Act and 19 CFR 357.205(f)(i).

Dated: August 15, 2005.

Ronald K. Lorentzen,

Acting Assistant Secretary for Import Administration.

Notice of Preliminary Results of the New Shipper Review of the Antidumping Duty Order on Certain Hot-Rolled Flat-Rolled Carbon Quality Steel Products from Brazil

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: In response to a request by Companhia Siderúrgica de Tubarão (CST), the U.S. Department of Commerce (the Department) is conducting a new shipper review of the antidumping duty order on certain hot-rolled flat-rolled carbon quality steel products (hot-rolled steel products) from Brazil for the period March 1, 2004, through August 31, 2004. We preliminarily determine that during the period of review (POR), CST did not sell subject merchandise at less than normal value (NV). Moreover, we have preliminarily determined that CST's U.S. sales are *bona fide* transactions. Our full analysis is set forth in the Memorandum to Barbara E. Tillman, Acting Deputy Assistant Secretary for Import Administration, Certain Hot-Rolled Flat-Rolled Carbon Quality Steel Products from Brazil: New Shipper Review of Companhia Siderúrgica de Tubarão (CST), dated August 12, 2005 (*Bona Fide Memo*), which is on file in the Central Records Unit (CRU), room B-099 of the main Commerce Building. Interested parties are invited to comment on these preliminary results. If these preliminary results are adopted in the final results of this new shipper review, we will issue instructions to U.S. Customs and Border Protection (CBP) as described in the "Assessment Rates" section below.

EFFECTIVE DATE: August 19, 2005.

FOR FURTHER INFORMATION CONTACT:

Angelica Mendoza or David Kurt Kraus, AD/CVD Operations, Office 7, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-3019 or (202) 482-7871, respectively.

SUPPLEMENTARY INFORMATION:

Background

On March 12, 2002, the Department published in the **Federal Register** the antidumping duty order on hot-rolled steel products from Brazil. *See Notice of Antidumping Duty Order and of Sales at Less Than Fair Value: Certain Hot-Rolled Flat-Rolled Carbon Quality Steel Products from Brazil*, 67 FR 11093 (*AD Order*). On September 27, 2004, we received a request from CST to initiate a new shipper review of CST's U.S. sales of hot-rolled steel products from Brazil. On October 28, 2004, the Department published the notice of initiation of this new shipper antidumping duty review covering the period March 1, 2004, through August 31, 2004. *See Certain Hot-Rolled Flat-Rolled Carbon Quality Steel Products from Brazil: Notice of Initiation of New Shipper Antidumping Duty Review*, 69 FR 62866 (October 28, 2004).

On November 12, 2004, we sent a questionnaire to CST and instructed CST to respond to Sections A-C. On December 3, 2004, CST submitted its response to Section A of the original questionnaire. On January 3, 2005, CST filed a letter stipulating that it would not be submitting a Section E response to the Department's antidumping duty questionnaire as such response is not required or warranted. On January 12, 2005, CST submitted its response to Sections B and C of the questionnaire.

On February 2, 2005 the Department received a sales below-cost allegation from Nucor Corporation, a petitioner in this review. On February 14, 2005, CST responded to this allegation of sales below-cost. The Department issued the first supplemental Sections A-C questionnaire on February 24, 2005. After determining that Nucor Corporation provided a reasonable basis for a sales-below cost allegation, the Department initiated a sale-below cost investigation and issued a modified Section D questionnaire to CST on March 9, 2005. *See Memorandum to Richard O. Weible, Director, Office 7, "Petitioner's Allegation of Sales Below the Cost of Production for Companhia Siderúrgica de Tubarão,"* dated March 9, 2005 (Sales Below COP Memo).

The Department issued its first supplemental Sections A-C questionnaire on February 24, 2005. On March 10, 2005, we received CST's response to the first supplemental questionnaire (Sections A-C). On March 23, 2005, the Department received CST's response to Section D of the questionnaire. On April 1, 2005, the Department issued its second supplemental questionnaire. We received CST's second supplemental

questionnaire response on April 13, 2005. On April 20, 2005, we issued a supplemental Section D questionnaire to CST. We received CST's supplemental Section D questionnaire response on May 6, 2005, which included revised cost, home market and U.S. sales databases.

On June 6, 2005 and June 9, 2005, we issued our sales and cost verification agendas to CST. We conducted verification of CST's sales information from June 13, 2005, through January 17, 2005. We conducted verification of CST's cost information from June 20, 2005, through June 24, 2005. *See Memorandum to the File, through Abdelali Elouaradia, "Verification of Home Market and U.S. Sales Questionnaire Responses Submitted by Companhia Siderúrgica de Tubarão (CST),"* dated July 7, 2005 (Sales Verification Report) and Memorandum to Neal M. Halper through Peter Scholl, "Verification Report on the Cost of Production and Constructed Value Data Submitted by Companhia Siderúrgica de Tubarão (CST)," dated August 11, 2005 (Cost Verification Report). Public versions of both verification reports are on file with the CRU. On July 14, 2005, we requested that CST submit revised home market and U.S. sales databases to reflect minor corrections presented and findings discovered at verification and accepted by the Department. The Department received CST's response on July 20, 2005.

Period of Review

The POR for this new shipper review is March 1, 2004, through August 31, 2004.

Scope of the Order

For purposes of this order, the products covered are certain hot-rolled flat-rolled carbon-quality steel products, meeting the physical parameters described below, regardless of application.

The hot-rolled flat-rolled carbon-quality steel products subject to this review are of a rectangular shape, of a width of 0.5 inch or greater, neither clad, plated, nor coated with metal and whether or not painted, varnished, or coated with plastics of other non-metallic substances, in coils (whether or not in successively superimposed layers) regardless of thickness, and in straight lengths, of a thickness less than 4.75 mm and of a width measuring at least 10 times the thickness. Specifically included in this scope are vacuum degassed, fully stabilized (IF) steels, high strength low alloy (HSLA) steels, and the substrate for motor lamination steels. Steel products to be included in
