

Respondents/affected entities: Owners or operators of electric arc furnace steelmaking facilities.

Respondent's obligation to respond: Mandatory (40 CFR part 63, subpart YYYYY).

Estimated number of respondents: 91 (total).

Frequency of response: Initially, semiannually and occasionally.

Total estimated burden: 4,450 hours per year. Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$467,000 per year, which includes no annualized capital and/or operation & maintenance costs.

Changes in the estimates: There is an increase in burden hours and number of responses in this ICR compared to the previous ICR. This adjustment is due to (1) this ICR adjusts the number of affected sources subject to the rule based on the latest available data; (2) this ICR corrects the number of sources keeping records and entering information in record system, as well as the number of sources estimated to submit SSM reports; and (3) consistent with the Terms of Clearance, this ICR assumes all existing respondents will have to familiarize with the regulatory requirements each year.
