

have a primary responsibility for enforcement of Davis-Bacon labor standards, Reorganization Plan Number 14 of 1950 assigns to the Secretary of Labor responsibility for developing government-wide policies, interpretations and procedures to be observed by the contracting and assisting agencies, in order to assure coordination of administration and consistency of DBRA enforcement. The Copeland Act provision cited above specifically requires the regulations to "include a provision that each contractor and subcontractor each week must furnish a statement on the wages paid each employee during the prior week." This requirement is implemented by 29 CFR 3.3 and 3.4 and the standard Davis-Bacon contract clauses set forth at 29 CFR 5.5. Regulations 29 CFR 5.5(a)(3)(ii)(A) requires contractors to submit weekly a copy of all payrolls to the federal agency contracting for or financing the construction project. If the agency is not a party to the contract, the contractor will submit the payrolls to the applicant, sponsor, or owner, as the case may be, for transmission to the contracting agency. This same section requires that the payrolls submitted shall set out accurately and completely the information required to be maintained under 29 CFR 5.5(a)(3)(i), except that full social security numbers and home addresses shall not be included on weekly transmittals, and instead, the payrolls shall only need to include an individually identifying number for each employee (e.g., the last four digits of the employee's social security number). The required weekly payroll information may be submitted in any form desired. Optional Form WH-347 is available for this purpose from the Wage and Hour Division website at <https://www.dol.gov/sites/dolgov/files/WHD/legacy/files/wh347.pdf>. The regulations at 29 CFR 3.3(b) require each contractor to furnish weekly a signed "Statement of Compliance" accompanying the payroll indicating the payrolls are correct and complete and that each laborer or mechanic has been paid not less than the proper Davis-Bacon Act prevailing wage rate for the work performed. The weekly submission of a properly executed certification, with the prescribed language set forth on page 2 of Optional Form WH-347, satisfies the requirement for submission of the required "Statement of Compliance". Id. at §§ 3.3(b), 3.4(b), and 5.5(a)(3)(ii)(B). Regulations 29 CFR 3.4(b) and 5.5(a)(3)(i) require contractors to

maintain these records for three years after completion of the work.

Current Actions: This Notice proposes the clearance of Evaluation of the Reopening Archives, Libraries, and Museums (REALM) Project research study. The 60-day Notice was published in the **Federal Register** on October 16, 2020 (85 FR 65878). The agency received one comment in response to this Notice.

The REALM Project is convening individuals from Institute of Museum and Library Services (IMLS), OCLC Inc. (OCLC), Battelle, and several key actors in the libraries, archives, and museums (LAM) fields to bring their expertise and on-the-ground experience together to develop science-based information about how materials can be handled to mitigate COVID-19 exposure to staff and visitors of LAM institutions as COVID-19 restrictions begin lifting across the country. This project extends the guidance available from the Centers for Disease Control and Prevention (CDC) by providing information that is specifically relevant to LAM institutions. Given that LAM institutions work with physical materials that are often circulated among the public, LAM institutions have unique concerns about how they can optimize their operations while minimizing the potential for spreading the Coronavirus. This evaluation will be focused on understanding the extent to which the professionals from LAM institutions have found that the REALM Project's research test results and toolkit resources have met their needs. Data will be collected through a survey of organizations that have used the test results and toolkit developed by the REALM project and focus groups representing members of the museum and archive community who have not been engaged with the project. The evaluation is intended to provide information to OCLC and IMLS around the usefulness of the scientific information shared to the LAM community as well as the effectiveness of its distribution. The evaluation has
