Midwest Hydro, LLC; Notice of Intent To Prepare an Environmental Assessment

On August 30, 2022, Midwest Hydro, LLC filed a relicense application for a subsequent license to continue operating the 0.50-megawatt Janesville Hydroelectric Project No. 2347 (Janesville Project). The project is located on the Rock River, near the city of Janesville in Rock County, Wisconsin.

In accordance with the Commission's regulations, on December 4, 2024, Commission staff issued a notice that the Janesville Project was ready for environmental analysis (REA notice). Based on the information in the record, including comments filed on the REA Notice, staff does not anticipate that licensing the Janesville Project would constitute a major Federal action significantly affecting the quality of the human environment. Therefore, staff intends to prepare an Environmental Assessment (EA) on the application to relicense the Janesville Project.

The EA will be issued and circulated for review by all interested parties. All comments filed on the EA will be analyzed by staff and considered in the Commission's final licensing decision.

The Commission's Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings. OPP can help members of the public, including
