

information collection, the form also includes a certification statement for the respondent to sign, attesting that the information provided on the form is complete and accurate to the best of his or her knowledge. The proposed new version of the form will allow respondents to electronically sign the form by checking a box.

#### Use of Information on NTSB Form 6120.1

As described in its May 7, 2013 notice, the NTSB generally uses the information provided on Form 6120.1 to determine the facts, conditions, and circumstances for aircraft accident prevention activities and for statistical purposes. The NTSB typically receives several notifications for each accident or incident, but only requests completion of Form 6120.1 once the NTSB has determined it will pursue an investigation into the event. The NTSB utilizes a "party process," as described in 49 CFR part 831, for its investigations. This process involves the NTSB's invitation to outside entities to assist with an investigation as a "party." The NTSB extends party status to those organizations that can provide the necessary technical assistance to the investigation. The investigator-in-charge (IIC), for example, often confers party status to the operator, aircraft, systems, and powerplant manufacturers, and labor organizations involved because of the accident circumstances. Everyone involved in an NTSB investigation, including the parties, depend on accurate information contained in NTSB Form 6120.1 while conducting the investigation and determining which areas warrant focus and attention. Overall, the NTSB considers Form 6120.1 to be critical to its statutory function of investigation accidents and incidents, and subsequently issuing safety recommendations in an effort to prevent future accidents and incidents.

The NTSB has carefully considered whether this collection of information on Form 6120.1 is duplicative of any other agency's collections of information. The NTSB is unaware of any form the FAA disseminates that solicits the same information Form 6120.1 requires. However, the NTSB notes some operators may choose to provide a voluntary report to the National Aeronautics and Space Administration (NASA) in accordance with the Aviation Safety Reporting System (ASRS). NASA will not accept ASRS reports concerning aircraft accidents; however, it is possible that an operator could report an incident to the NTSB, as defined in 49 CFR 830.2, and

contemporaneously submit an ASRP report to NASA.

The NTSB notes completion of NTSB Form 6120.1 is not voluntary, but is required by 49 CFR 830.15(a). The NTSB, in general, will not accept partially completed forms; NTSB investigators will exercise their discretion in requesting completion of a copy of Form 6120.1 a respondent submits that is partially completed. In many cases, the NTSB recognizes not all fields will apply to each event; therefore, the NTSB will not require completion of inapplicable fields.

Currently, the NTSB accepts paper copies of Form 6120.1 sent via postal mail or facsimile, as well as electronic copies of Form 6120.1 that respondents submit via electronic mail. For electronically submitted copies, the NTSB notes its public Web site contains a fill-able version of Form 6120.1. As described above, the updated version of the form will include a box the respondent can check to electronically sign the form; therefore, respondents need not scan a copy of the form to send it via electronic mail, because respondents now have the option of completing the form by typing answers within the electronic version and sending it via electronic mail.

The NTSB has carefully reviewed the form to ensure that it has used plain, coherent, and unambiguous terminology in its request for information. The NTSB estimates that respondents will spend approximately 60 minutes in completing the form. The NTSB estimates that approximately 1,800 respondents per year will complete the form, but notes that this number may vary, given the unpredictable nature of the frequency of aviation accidents and incidents.

## NUCLEAR REGULATORY COMMISSION

[Docket No. 5200025; NRC-2008-0252]

### Vogtle Unit 3 Combined License

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Determination of inspections, tests, analyses, and acceptance criteria (ITAAC).

**SUMMARY:** The U.S. Nuclear Regulatory Commission (NRC) staff has determined that the inspections, tests, and analyses have been successfully completed, and

that the specified acceptance criteria are met for ITAAC E.3.8.05.01.01, for the Vogtle Unit 3 Combined License.

**ADDRESSES:** Please refer to Docket ID NRC-2008-0252 when contacting the NRC about the availability of information regarding this document. You may access publicly-available information related to this document using any of the following methods:

- **Federal Rulemaking Web site:** Go to <http://www.regulations.gov> and search for Docket ID NRC-2008-0252. Address questions about NRC dockets to Carol Gallagher; telephone: 301-287-3422; email: [Carol.Gallagher@nrc.gov](mailto:Carol.Gallagher@nrc.gov). For technical questions, contact the individuals listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- **NRC's Agencywide Documents Access and Management System (ADAMS):** You may access publicly available documents online in the NRC Library at <http://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "ADAMS Public Documents" and then select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to [pdr.resource@nrc.gov](mailto:pdr.resource@nrc.gov). The ADAMS accession number for each document referenced in this document (if that document is available in ADAMS) is provided the first time that a document is referenced.

- **NRC's PDR:** You may examine and purchase copies of public documents at the NRC's PDR, Room O1-F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

**FOR FURTHER INFORMATION CONTACT:** David Jaffe, Office of New Reactors, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-1439, email: [David.Jaffe@nrc.gov](mailto:David.Jaffe@nrc.gov).

#### SUPPLEMENTARY INFORMATION:

### Licensee Notification of Completion of ITAAC

On October 1, 2013, Southern Nuclear Operating Company, Inc., (the licensee) submitted an ITAAC closure notification (ICN) under § 52.99(c)(1) of Title 10 of the *Code of Federal Regulations* (10 CFR) informing the NRC that the licensee has successfully performed the required inspections, tests, and analyses for ITAAC E.3.8.05.01.01, and that the specified acceptance criteria are met for Vogtle Unit 3 Combined License (ADAMS Accession No. ML13276A034). This ITAAC was approved as part of the

issuance of the combined license, NPF-91, for this facility.

### NRC Staff Determination of Completion of ITAAC

The NRC staff has determined that the inspections, tests, and analyses have been successfully completed, and that the specified acceptance criteria are met for Vogtle Unit 3 Combined License, ITAAC E.3.8.05.01.01. This notice fulfills the staff's obligations under 10 CFR 52.99(e)(1) to publish a notice in the **Federal Register** of the NRC staff's determination of the successful completion of inspections, tests and analyses.

The documentation of the NRC staff's determination is in the ITAAC Closure Verification Evaluation Form (VEF), dated October 21, 2013 (ADAMS Accession No. ML13294A349). The VEF is a form that represents the NRC staff's structured process for reviewing ICNs. The ICN presents a narrative description of how the ITAAC was completed, and the NRC's ICN review process involves a determination on whether, among other things: (1) The ICN provides sufficient information, including a summary of the methodology used to perform the ITAAC, to demonstrate that the inspections, tests, and analyses have been successfully completed; (2) the ICN provides sufficient information to demonstrate that the acceptance criteria are met; and (3) any inspections for the ITAAC have been completed and any ITAAC findings associated with the ITAAC have been closed.

The NRC staff's determination of the successful completion of this ITAAC is based on information available at this time and is subject to the licensee's ability to maintain the condition that the acceptance criteria are met. If new information disputes the NRC staff's determination, this ITAAC will be reopened as necessary. The NRC staff's determination will be used to support a subsequent finding, pursuant to 10 CFR 52.103(g), at the end of construction that all acceptance criteria in the combined license are met. The ITAAC closure process is not finalized for this ITAAC until the NRC makes an affirmative finding under 10 CFR 52.103(g). Any future updates to the status of this ITAAC will be reflected on the NRC's Web site at <http://www.nrc.gov/reactors/new-reactors/oversight/itaac.html>.

Dated at Rockville, Maryland, this 8th day of November 2013.

For the Nuclear Regulatory Commission.

**David Jaffe,**

*Project Manager, Division of New Reactor Licensing, Office of New Reactors.*

### NUCLEAR REGULATORY COMMISSION

[NRC-2013-0251]

#### Proposed License Renewal of the Prairie Island Independent Spent Fuel Storage Installation

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Draft environmental assessment and draft finding of no significant impact; request for comment.

**SUMMARY:** On October 20, 2011, Northern States Power Company, a Minnesota Corporation, (NSPM) (doing business as Xcel Energy), submitted an application to the U.S. Nuclear Regulatory Commission (NRC) requesting renewal of Special Nuclear Materials (SNM) license number SNM-2506 for the Prairie Island Nuclear Generating Plant (PINGP) site-specific Independent Spent Fuel Storage Installation (ISFSI) located in Red Wing, Goodhue County, Minnesota, for an additional 40 years. The NRC staff is conducting an environmental review of the proposed license renewal and has prepared a draft environmental assessment (EA) and draft finding of no significant impact (FONSI) in accordance with NRC regulations. The NRC is requesting public comments on the draft EA and the draft FONSI.

**DATES:** Submit comments by December 19, 2013. Comments received after this date will be considered if it is practical to do so, but the NRC is able to assure consideration only for comments received on or before this date.

**ADDRESSES:** You may submit comments by any of the following methods (unless this document describes a different method for submitting comments on a specific subject):

- *Federal Rulemaking Web site:* Go to <http://www.regulations.gov> and search for Docket ID NRC-2013-0251. Address questions about NRC dockets to Carol Gallagher; telephone: 301-287-3422; email: [Carol.Gallagher@nrc.gov](mailto:Carol.Gallagher@nrc.gov). For technical questions, contact the individuals listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *Mail comments to:* Cindy Bladey, Chief, Rules, Announcements, and Directives Branch, Office of

Administration, Mail Stop: 3WFN-06-44M, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

For additional direction on accessing information and submitting comments, see "Accessing Information and Submitting Comments" in the **SUPPLEMENTARY INFORMATION** section of this document.

**FOR FURTHER INFORMATION CONTACT:** Jean Trefethen, Office of Federal and State Materials and Environmental Management Programs, U.S. Nuclear Regulatory Commission, Washington DC, 20555-0001; telephone: 301-415-7000; email: [Jean.Trefethen@nrc.gov](mailto:Jean.Trefethen@nrc.gov).

### SUPPLEMENTARY INFORMATION:

#### I. Accessing Information and Submitting Comments

##### A. Accessing Information

Please refer to Docket ID NRC-2013-0251 when contacting the NRC about the availability of information regarding this document. You may access publicly-available information related to this document by any of the following methods:

- *Federal Rulemaking Web site:* Go to <http://www.regulations.gov> and search for Docket ID NRC-2013-0251.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may access publicly available documents online in the NRC Library at <http://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "ADAMS Public Documents" and then select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to [pdr.resource@nrc.gov](mailto:pdr.resource@nrc.gov). The draft EA is available in ADAMS under Accession No. ML13205A120. The draft FONSI is included in the Draft EA.

- *NRC's PDR:* You may examine and purchase copies of public documents at the NRC's PDR, Room O1-F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

##### B. Submitting Comments

Please include Docket ID NRC-2013-0251 in the subject line of your comment submission, in order to ensure that the NRC is able to make your comment submission available to the public in this docket.

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at <http://www.regulations.gov> as well as enter the
