AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On January 11, 2010, the U.S. Department of Commerce (the Department) published in the **Federal Register** its preliminary results of the administrative review of the countervailing duty (CVD) order on certain hot-rolled carbon steel flat products (hot-rolled carbon steel) from India for the period of review (POR) January 1, 2008, through December 31, 2008. See *Certain Hot-Rolled Carbon Steel Flat Products from India: Preliminary Results of Countervailing Duty Administrative Review*; 75 FR 1495 (January 11, 2010) (*Preliminary Results*). We preliminarily found that Tata Steel Limited (Tata) received countervailable subsidies during the POR. We received comments on our *Preliminary Results* from the Government of India (GOI), petitioners, and the respondent company, Tata.¹ The final results are listed in the section "Final Results of Review" below.

DATES: *Effective Date:* July 26, 2010.

FOR FURTHER INFORMATION CONTACT: Gayle Longest at (202) 482-3338, AD/CVD Operations, Office 3, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Ave., NW., Washington, DC 20230.

SUPPLEMENTARY INFORMATION:

Background

On December 3, 2001, the Department published in the **Federal Register** the CVD order on certain hot-rolled carbon steel flat products from India. See *Notice of Amended Final Determination and Notice of Countervailing Duty Order: Certain Hot-Rolled Carbon Steel Flat Products from India*, 66 FR 60198 (December 3, 2001). On February 2,

2009, the Department initiated an administrative review covering Essar Steel Limited (Essar), Ispat Industries Limited (Ispat), JSW Steel Limited (JSW), and Tata. See *Initiation of Antidumping and Countervailing Duty Administrative Reviews and Requests for Revocation in Part*, 74 FR 5821 (February 2, 2009) (*Initiation*). As a result of withdrawals of request for review, the Department rescinded this review, in part, with respect to Essar, Ispat, and JSW. See *Certain Hot-Rolled Carbon Steel Flat Products from India: Partial Rescission of Countervailing Duty Administrative Review*, 74 FR 26847 (June 4, 2009).

On January 11, 2010, the Department published in the **Federal Register** its *Preliminary Results* of the administrative review of this order for the period January 1, 2008, through December 31, 2008. See *Preliminary Results*, 75 FR 1495. In accordance with 19 CFR 351.213(b), this administrative review covers Tata, a producer and exporter of subject merchandise.

In the *Preliminary Results*, we invited interested parties to submit briefs or request a hearing. On February 12, 2010, we received comments from the GOI and Tata. On February 19, 2010, we received rebuttal comments from petitioners.

Scope of Order

The merchandise subject to this order is certain hot-rolled carbon-quality steel products of a rectangular shape, of a width of 0.5 inch or greater, neither clad, plated, nor coated with metal and whether or not painted, varnished, or coated with plastics or other non-metallic substances, in coils (whether or not in successively superimposed layers), regardless of thickness, and in straight lengths, of a thickness of less than 4.75 mm and of a width measuring at least 10 times the thickness.

Universal mill plate (*i.e.*, flat-rolled products rolled on four faces or in a closed box pass, or a width exceeding 150 mm, but not exceeding 1250 mm, and of a thickness of not less than 4 mm, not in coils and without patterns in relief) of a thickness not less than 4.0 mm is not included within the scope of this order.

Specifically included in the scope of this order are vacuum degassed, fully stabilized (commonly referred to as interstitial-free (IF) steels, high-strength low-alloy (HSLA) steels, and the substrate for motor lamination steels. IF steels are recognized as low-carbon steels with micro-alloying levels of elements such as titanium or niobium (also commonly referred to as columbium), or both, added to stabilize

carbon and nitrogen elements. HSLA steels are recognized as steels with micro-alloying levels of elements such as chromium, copper, niobium, vanadium, and molybdenum. The substrate for motor lamination steels contains micro-alloying levels of elements such as silicon and aluminum.

Steel products included in the scope of this order, regardless of definitions in the Harmonized Tariff Schedule of the United States (HTS), are products in which: (i) Iron predominates, by weight, over each of the other contained elements; (ii) the carbon content is 2 percent or less, by weight; and (iii) none of the elements listed below exceeds the quantity, by weight, respectively indicated:

1.80 percent of manganese, or
2.25 percent of silicon, or
1.00 percent of copper, or
0.50 percent of aluminum, or
1.25 percent of chromium, or
0.30 percent of cobalt, or
0.40 percent of lead, or
1.25 percent of nickel, or
0.30 percent of tungsten, or
0.10 percent of molybdenum, or
0.10 percent of niobium, or
0.15 percent of vanadium, or
0.15 percent of zirconium.

All products that meet the physical and chemical description provided above are within the scope of this order unless otherwise excluded. The following products, by way of example, are outside or specifically excluded from the scope of this order.

- Alloy hot-rolled steel products in which at least one of the chemical elements exceeds those listed above (including, *e.g.*, ASTM specifications A543, A387, A514, A517, A506).
 - SAE/AISI grades of series 2300 and higher.
 - Ball bearings steels, as defined in the HTS.
 - Tool steels, as defined in the HTS.
 - Silico-manganese (as defined in the HTS) or silicon electrical steel with a silicon level exceeding 2.25 percent.
 - ASTM specifications A710 and A736.
 - USS Abrasion-resistant steels (USS AR 400, USS AR 500).
 - All products (proprietary or otherwise) based on an alloy ASTM specification (sample specifications: ASTM A506, A507).
 - Non-rectangular shapes, not in coils, which are the result of having been processed by cutting or stamping and which have assumed the character of articles or products classified outside chapter 72 of the HTS.
- The merchandise subject to this order is currently classifiable in the HTS at

Period of Review

The POR for which we are measuring subsidies is from January 1, 2008, through December 31, 2008.

Analysis of Comments

On February 12, 2010 the GOI and Tata filed comments. On February 19, 2010, petitioners filed rebuttal comments. All issues in the respondents' and petitioners' case and rebuttal briefs are addressed in the accompanying Issues and Decision Memorandum for the Countervailing Duty Administrative Review on Certain Hot-Rolled Carbon Steel Flat Products from India (Decision Memorandum), which is hereby adopted by this notice. A listing of the issues that parties raised and to which we have responded is attached to this notice as Appendix I. Parties can find a complete discussion of the issues raised in this review and the corresponding recommendations in this public memorandum, which is on file in the Central Records Unit (CRU) of the main commerce building. In addition, a complete version of the Decision Memorandum can be accessed

directly on the World Wide Web at <http://ia.ita.doc.gov/frn>.

The paper copy and the electronic version of the Decision Memorandum are identical in content.

Final Results of Review

After reviewing comments from all parties, we have made adjustments to our calculations as explained in our Decision Memorandum. Consistent with the *Preliminary Results*, we find that Tata received countervailable subsidies during the POR.

<i>Company</i>	<i>Total net countervailable subsidy rate</i>
Tata Steel Limited	577.28 percent <i>ad valorem</i> .

Assessment Rates/Cash Deposits

The Department intends to issue assessment instructions to U.S. Customs and Border Protection (CBP) 15 days after the date of publication of these final results of review to liquidate shipments of subject merchandise by Tata entered, or withdrawn from warehouse, for consumption on or after January 1, 2008, through December 31, 2008, at the *ad valorem* rate listed above. We will also instruct CBP to collect cash deposits for the respondent at the countervailing duty rate indicated above on all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the date of publication of these final results of review.

For all non-reviewed companies, the Department will instruct CBP to assess countervailing duties at the cash deposit rates in effect at the time of entry, for entries between January 1, 2008, and December 31, 2008. The cash deposit rates for all companies not covered by this review are not changed by the results of this review.

Return or Destruction of Proprietary Information

This notice serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). - III. *Analysis of Comments*
- Comment 1: Whether The State Government Of Jharkhand (SGOJ) Cooperated To The Best Of Its Ability And Should Not Be Subject To The AFA Rate That The Department Preliminarily Applied To The SGOJ Programs
- Comment 2: Whether The Programs Covered In The Review Have Provided Countervailable Benefits To Indian Exporters
- Comment 3: Whether The Department Should Have Held Consultations With The GOI Before Including Many Of The Programs In Its Administrative Review
- Comment 4: Whether The Application Of The Adverse Facts Available (AFA) Standard Is Inconsistent With Article 12/7 Of WTO’s ASCM
- Comment 5: Whether The AFA Rates Arrived At For The SGOJ Programs Have No Rational Connection To Tata’s Operations And Are Improper
- Comment 6: Whether The Application Of

AFA Rates To Programs Administered By The State Governments Contradicts The Department's Prior Determinations In This Proceeding

Comment 7: Whether The Department's Calculation Methodology Is Incorrect As It Improperly Summed The Total Of The GOI And State-Government AFA Rates Without Properly Accounting For The Percentage Of Tata's Total Turnover That The State Programs Could Have Applied To

Comment 8: Whether The Department Made A Clerical Error In The Calculation Of The AFA Rate For SGOJ Programs

Comment 10: Whether The AFA Margin From The Preliminary Results Is An Abuse Of The Department's Discretion Because It Is Claimed To Be Unreasonable, Anomalous, And Unrelated To The Country, The Industry, Or The Company

Comment 11: Whether The 586.43% Preliminary Margin Is Unlawful Because It Is Excessively High And Therefore Punitive

Comment 12: Whether The Department Improperly Applied To Tata Steel Numerous State Programs Relating To States Where Tata Steel Is Not Located
