### Notice of Administrative Settlement Agreement for Recovery of Past Response Costs Pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act

**AGENCY:** Environmental Protection Agency.

**ACTION:** Notice; request for public comment.

**SUMMARY:** In accordance with the Comprehensive Environmental Response, Compensation, and Liability Act ("CERCLA"), notice is hereby given that a proposed administrative settlement agreement for recovery of past response costs ("Proposed Agreement") associated with Allied Terminals Ammonium Nitrate Release Site, Chesapeake, Virginia was executed by the Environmental Protection Agency ("EPA") and is now subject to public comment, after which EPA may modify or withdraw its consent if comments received disclose facts or considerations that indicate that the Proposed Agreement is inappropriate, improper, or inadequate. The Proposed Agreement would resolve potential EPA claims under Section 107(a) of CERCLA, against Allied Terminals, Inc. ("Settling Party"). The Proposed Agreement would require Settling Party to reimburse EPA \$186,000.00 for past response costs incurred by EPA for the Site.

For thirty (30) days following the date of publication of this notice, EPA will receive written comments relating to the Proposed Agreement. EPA's response to any comments received will be available for public inspection at the U.S. Environmental Protection Agency, Region III, 1650 Arch Street Philadelphia, PA 19103.

**DATES:** Comments must be submitted on or before September 19, 2014.

**ADDRESSES:** The Proposed Agreement and additional background information relating to the Proposed Agreement are available for public inspection at the U.S. Environmental Protection Agency, Region III, 1650 Arch Street, Philadelphia, PA 19103. A copy of the Proposed Agreement may be obtained from Thomas A. Cinti (3RC42), Senior Assistant Regional Counsel, U.S. Environmental Protection Agency, 1650 Arch Street, Philadelphia, PA 19103. Comments should reference the "Allied Terminals Ammonium Nitrate Release Site, Proposed Administrative Settlement Agreement for Recovery of Past Response Costs" and "EPA Docket No. CERCLA-03-2014-0216-CR," and should be forwarded to Thomas A. Cinti at the above address.

**FOR FURTHER INFORMATION CONTACT:**

Thomas A. Cinti (3RC42), U.S. Environmental Protection Agency, 1650 Arch Street, Philadelphia, PA 19103, Phone: (215) 814-2634; [cinti.thomas@epa.gov](mailto:cinti.thomas@epa.gov).

**SUPPLEMENTARY INFORMATION:** This is a notice of an administrative settlement agreement for recovery of past response costs pursuant to section 122(h) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended.

Dated: July 14, 2014.

**Cecil Rodrigues,**

Director, Hazardous Site Cleanup Division,  
U.S. Environmental Protection Agency,  
Region III.

## ENVIRONMENTAL PROTECTION AGENCY

[FRL-9915-43-ORD]

### Office of Research and Development; Ambient Air Monitoring Reference and Equivalent Methods: Designation of One New Reference Method for PM<sub>10</sub>

**AGENCY:** Environmental Protection Agency.

**ACTION:** Notice of designation of a new reference method for monitoring ambient air quality.

**SUMMARY:** Notice is hereby given that the Environmental Protection Agency (EPA) has designated, in accordance with 40 CFR Part 53, a new reference method for measuring concentrations of PM<sub>10</sub> in the ambient air.

**FOR FURTHER INFORMATION CONTACT:**

Robert Vanderpool, Human Exposure and Atmospheric Sciences Division (MD-D205-03), National Exposure Research Laboratory, U.S. EPA, Research Triangle Park, North Carolina 27711. Email: [Vanderpool.Robert@epa.gov](mailto:Vanderpool.Robert@epa.gov).

**SUPPLEMENTARY INFORMATION:** In accordance with regulations at 40 CFR Part 53, the EPA evaluates various methods for monitoring the concentrations of those ambient air pollutants for which EPA has established National Ambient Air Quality Standards (NAAQSs), as set forth in 40 CFR Part 50. Monitoring methods that are determined to meet specific requirements for adequacy are designated by the EPA as either reference methods or equivalent methods (as applicable), thereby permitting their use under 40 CFR Part 58 by States and other agencies for determining compliance with the NAAQSs.

The EPA hereby announces the designation of a new reference method for measuring pollutant concentrations of particulate matter as PM<sub>10</sub> in the ambient air. This designation is made under the provisions of 40 CFR Part 53, as amended on August 31, 2011 (76 FR 54326-54341).

The new reference method for PM<sub>10</sub> is a manual monitoring method based on a particular, commercially available PM<sub>10</sub> sampler, as specified in appendix J 40 CFR part 50. The newly designated reference method is identified as follows:

RFPS-0714-216, "Tisch Environmental Model TE-Wilbur10 PM<sub>10</sub> Low-Volume Air Particulate Sampler," configured as a PM<sub>10</sub> reference method, with firmware version 1.70 or later and a TE-PM<sub>10</sub>-D PM<sub>10</sub> size-selective inlet, as specified in 40 CFR 50 Appendix L Figs. L-2 thru L-19, and operated for 24 sample periods at a flow rate of 16.67 L/min, using 47 mm PTFE membrane filter media, and in accordance with the Tisch Environmental Model TE-Wilbur10 PM<sub>10</sub> Low-Volume Air Particulate Sampler instruction manual and with the requirements and sample collection filters as specified in 40 CFR Part 50, Appendix J.

The application for reference method determination for the PM<sub>10</sub> method was received by the Office of Research and Development on May 28, 2014. This monitor is commercially available from the applicant, Tisch Environmental,
