#### B. Background

Section 813 of the National Defense Authorization Act for Fiscal Year 2000 (Public Law 106-65) directed the Secretary of Defense to review the DoD profit guidelines to consider whether appropriate modifications, such as placing increased emphasis on technical risk as a factor for determining appropriate profit margins, would provide an increased profit incentive for contractors to develop and produce complex and innovative new technologies.

Section 813 further required the Secretary of Defense to make any changes to the profit guidelines that the Secretary determines to be necessary and to report to Congress on the results of the review.

A review of the DoD profit policy has identified potential changes to the DFARS that would increase the emphasis placed on technical risk as a factor in developing objective profit amounts. The purpose of this notice is to provide the public with a preliminary indication of changes under consideration, and to solicit comments and suggestions on those changes. After consideration of the comments submitted in writing and those offered at the public meeting, the Director of Defense Procurement may submit a draft proposed rule to the Defense Acquisition Regulations (DAR) Council for consideration. The DAR Council will publish any resulting proposed rule for additional public comments.
