The Commission is requesting OMB review and approval of this new information collection requiring prepaid calling card providers to report quarterly, the percentage of interstate, intrastate and international traffic and call volumes to carriers from which they purchase transport services. Prepaid calling card providers must also file certifications with the Commission quarterly that include the above information and a statement that they are contributing to the federal Universal Service Fund (USF) based on all interstate and international revenue, except for revenue from the sale of prepaid calling cards by, to, or pursuant to contract with the Department of Defense or a Department of Defense entity.

OMB Control No.: 3060–1030.

Title: Service Rules for Advanced Wireless Services (AWS) in the 1.7 GHz and 2.1 GHz Bands.

Form No.: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit, Federal Government, and state, local and tribal government.

Number of Respondents: 2,575.

Estimated Time Per Response: .50–10 hours.

Needs and Uses: The Commission is revising the currently OMB-approved collection to reflect changes to the Commission's rules and policies adopted in the *Ninth Report and Order (Ninth R&O)* in ET Docket No. 00–258, wherein the Commission adopted relocation procedures to govern the relocation of: (1) Broadband Radio Service (BRS) licensees in the 2150–2160/62 MHz band; and (2) Fixed Microwave Service (FS) licensees in the 2110–2150 MHz and 2160–2180 MHz bands. The *Ninth R&O* also adopted cost sharing rules that identify the reimbursement obligations for Advanced Wireless Service (AWS) and Mobile Satellite Service (MSS) entrants benefiting from the relocation of FS

operations in the 2110–2150 MHz band, 2160–2200 MHz band and AWS entrants benefiting from the relocation of BRS operations in the 2150–2160/62 MHz band. The adopted relocation and cost sharing procedures, including the use of a private-sector clearinghouse(s) to administer cost sharing, impose reporting requirements, recordkeeping requirements and third party disclosure requirements that generally follow the Commission's relocation and cost sharing policies delineated in the *Emerging Technologies* proceeding, and as modified by subsequent decisions. These relocation policies are designed to allow early entry for new technology providers by allowing providers of new services to negotiate financial arrangements for re-accommodation of incumbent licensees while ensuring an orderly and expeditious transition of, with minimal disruption to, incumbent BRS operations from the 2150–2160/62 MHz band and FS operations from the 2110–2150 MHz and 2160–2180 MHz bands. Separately, on April 20, 2006, the Commission and the National Telecommunications and Information Administration (NTIA) issued a joint *Public Notice* providing information and guidance on interference coordination, i.e., third party disclosure requirement, in order to protect federal agency spectrum users prior to their relocation. See 71 FR 28696 (May 17, 2006). We are also revising this collection to reflect this interference protection/coordination guidance.

Federal Communications Commission.

Secretary.
