

Non-profits are milking our state and federal governments out of approximately \$100-\$150/acre per year of state and local taxes. By our accounts, because these Non-profits do not pay the local and state taxes, their burden is passed along to the local farmer, smaller communities and rural areas.

It is time for an investigation into these Non-profit organizations

Steel Industry

Previous administrations have stopped foreign imports which caused US steel prices to skyrocket as major suppliers were only in our country. This lack of competition has doubled the steel price—leading to increased burden on farming operations. We need both. We support competition.

Finally, please stop allowing our country to be sold piece by piece to foreign entities. It seems of national interest that foreign ownership of our resources is unwise for economic and security reasons. Family-owned, hard-working Ag business are giving up the fight and giving in to the pressure of foreign ownership and the dollars it represents. We support legislation that would limit foreign investors ownership and control of American farmland and the inputs to support the industry around it.

From where we sit, it would be easy to believe that large corporations are allowed to merge with other conglomerates to the benefit of the individuals, governments and share-holders while Americans are unprotected even though Anti-Trust laws have been established but seemingly unenforced and ignored.

Please understand the need to open up imports and free trade! We as farmers have to compete with our products being exported to foreign markets, while our side has controlled input prices by tariffs being leveled by our government siding with big business. We see the economic impact of our government allowing monopolies without regard to Anti-Trust laws.

I invite more discussion on these matters. Feel free to call my cell [redacted]. I also want to personally invite you to be on the grounds of our small business and operations. I would welcome the conversation.

Thank you,
Mark Calmer
