

We would continue to monitor for rat reinvasions, after having eliminated rats from the island several years ago in an active trapping program. Other than controlling invasive species such as rats, we would not conduct any active habitat restoration on the island. There would be no active control program for invasive plant species.

We would continue to manage cultural resources, particularly the historic lighthouse, consistent with section 106 of the National Historic Preservation Act.

We would continue to maintain the refuge Web site, distribute information, maintain limited signage on the island, and make periodic presentations off-refuge, primarily on St. Thomas.

Partnerships and volunteers would remain important to the refuge. We would continue to cooperate with the Virgin Islands Department of Planning and Natural Resources on joint wildlife and habitat management efforts for Buck Island and adjacent Capella Island.

#### *Alternative B—Proposed Alternative*

In general, Alternative B would maintain all programs of Alternative A and build or expand upon them. This is our proposed alternative for managing Buck Island NWR.

Under Alternative B, we would strive to provide more active management of the island's indigenous wildlife, particularly species of concern. Within 5 years of CCP approval, we would draft and begin to implement an inventorying and monitoring plan for the Antillean skink, Puerto Rican racer, magnificent frigatebird, and red-billed tropicbird.

We would continue to monitor for rat reinvasions. To pursue and promote habitat recovery on Buck Island, we would develop and begin to implement a habitat restoration plan within 5 years of CCP approval. We would aim to increase control of invasive plants and animals and evaluate the effectiveness of different methods of control.

Under this alternative, we would continue to manage cultural resources, particularly the historic lighthouse, consistent with section 106 of the National Historic Preservation Act. However, within 5 years of CCP approval, we would also evaluate the condition and safety of the historic lighthouse and decide on the feasibility of preservation or restoration. In addition, we would develop and begin to implement a Cultural Resources Management Plan.

With regard to conducting outreach and education, we would continue to maintain the refuge Web site, distribute information, maintain limited signage

on the island, and make periodic presentations off-refuge.

Partnerships and volunteers would remain important to the refuge. We would continue to cooperate with the Virgin Islands Department of Planning and Natural Resources on joint wildlife and habitat management efforts for Buck Island and adjacent Capella Island. Also, Alternative B would expand cooperative education and interpretive efforts with the city of Charlotte Amalie and ecotourism companies, which bring visitors to offshore waters to explore coral reefs. We would also explore development of a Friends Group to provide a more active management presence on the island.

#### **Next Step**

After the comment period ends, we will analyze the comments and address them.

#### **Public Availability of Comments**

Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

#### **Authority**

This notice is published under the authority of the National Wildlife Refuge System Improvement Act of 1997, Public Law 105–57.

June 22, 2009.

#### **Notice of Reopening of Public Comment Period To Prepare an Environmental Impact Statement for the Proposed NextLight Renewable Power, LLC, Silver State North and Silver State South Solar Projects, Primm, NV**

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice.

**SUMMARY:** The Bureau of Land Management (BLM) is reopening the public comment period to prepare an Environmental Impact Statement (EIS) for the Proposed NextLight Renewable Power, LLC, Silver State North Solar Project and Silver State South Solar Project, to be located in Clark County, Nevada. A notice published in the **Federal Register** on June 30, 2009 [74 FR 31306] provided for a public comment period ending on July 30, 2009.

**DATES:** On publication of this notice an additional 30-day scoping period will open for comments through October 19, 2009. Comments received during the interim time between scoping periods will be accepted.

**ADDRESSES:** Submit comments related to the project by any of the following methods:

- *E-mail:*

*Nextlight Primm NV\_SEP@blm.gov.*

- *Fax:* (702) 515–5010, Attn: Gregory Helseth.

- *Mail:* BLM, Las Vegas Field Office, Attn: Gregory Helseth, 4701 North Torrey Pines Drive, Las Vegas, NV 89130–2301.
