III. What is the Agency's authority for taking this action?

Section 6(f)(1)(A) of FIFRA provides that a registrant of a pesticide product may, at any time, request that any of its pesticide registrations be canceled. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**.

Section 6(f)(1)(B)(A) of FIFRA requires that before acting on a request for voluntary cancellation, EPA must provide a 30-day public comment period on the request for voluntary cancellation or use termination. In addition, FIFRA section 6(f)(1)(C) requires that EPA provide a 180-day comment period on a request for voluntary cancellation or termination of any minor agricultural use before granting the request, unless:

1. The registrants request a waiver of the comment period, or
2. The EPA Administrator determines that continued use of the pesticide would pose an unreasonable adverse effect on the environment.

The products listed in Table 1 of Unit II do not represent minor agricultural uses and thereby are not eligible for a 180-day comment period on their request for voluntary cancellation. In addition, Spectrum has requested that EPA waive any 180-day comment period. Accordingly, EPA will provide a 30-day comment period on the proposed requests.

IV. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of canceled pesticide products that are in the United States and that were appropriately packaged, labeled, and released for shipment prior to the effective date of cancellation of the

underlying registration. It is EPA's intention to issue a cancellation order treating existing stocks after cancellation of the registrations identified in Table 1 as follows:

1. For product registered under EPA registration number 8845–127:

- i. Cancellation of this registration will become effective on August 1, 2013. The registrant has agreed to a cap upon production of product between January 30, 2013, and July 31, 2013. All subsequent conditions are contingent on the registrant abiding by the terms of this production cap.

- ii. The registrant will be permitted to sell and distribute stocks of 8845–127 until November 1, 2013. After November 1, 2013, the registrant will be prohibited from selling or distributing the product, except for export consistent with FIFRA section 17 or for proper disposal.

- iii. Existing stocks may be sold and distributed by persons other than the registrant until the later of the following two dates:

- a. September 1, 2014; or
- b. The last date for which sales of rodenticide products (including existing stocks) registered by Reckitt Benckiser that are subject to the Notice of Intent to Cancel signed by EPA on January 29, 2013, remain legally permissible under FIFRA.

Users will be allowed to use existing stocks until such stocks are exhausted, provided that such use is consistent with the terms of the previously approved labeling on, or that accompanied, the canceled product.

2. For products registered under EPA registration numbers 8845–39, 8845–125, 8845–126, and 8845–128:

Cancellation of these registrations shall become effective on April 12, 2013. Upon cancellation, EPA intends to

prohibit all sale or distribution of existing stocks of these products by any person, except for export consistent with FIFRA section 17, proper disposal, or return to the person from whom the product was purchased. Users will be allowed to use existing stocks until such stocks are exhausted, provided that such use is consistent with the terms of the previously approved labeling on, or that accompanied, the canceled product.
