

Among the alternatives that RUS will address in the EIS is the "No Action" alternative, under which the proposal would not be undertaken. In the EIS, the effects of the proposal will be compared to the existing conditions in the proposal area. Alternative transmission line corridors will be refined as part of the EIS scoping process and will be addressed in the EIS. Public health and safety, environmental impacts, and engineering aspects of the proposal will be considered in the EIS.

RUS is the lead Federal agency, as defined at 40 CFR 1501.5, for preparation of the EIS. The USFS is a cooperating agency. With this Notice, federally recognized Native American Tribes and Federal agencies with jurisdiction or special expertise are invited to be cooperating agencies. Such tribes or agencies may make a request to RUS to be a cooperating agency by contacting the RUS contact provided in this Notice. Designated cooperating agencies have certain responsibilities to support the NEPA process, as specified at 40 CFR 1501.6(b).

As part of its broad environmental review process, RUS must take into account the effect of the proposal on historic properties in accordance with Section 106 of the National Historic Preservation Act (Section 106) and its implementing regulation, "Protection of Historic Properties" (36 CFR part 800). Pursuant to 36 CFR 800.2(d)(3), RUS is using its procedures for public involvement under NEPA to meet its responsibilities to solicit and consider the views of the public during Section 106 review. Accordingly, comments submitted in response to scoping will inform RUS decision-making in Section 106 review. Any party wishing to participate more directly with RUS as a "consulting party" in Section 106 review may submit a written request to the RUS contact provided in this Notice.

RUS will use input provided by government agencies, private organizations, and the public in the preparation of the draft EIS. The draft EIS will be available for review and comment for 45 days. A final EIS that considers all comments received will subsequently be prepared. The final EIS will be available for review for 30 days. Following the 30-day review period, RUS will prepare a Record of Decision (ROD). Notices announcing the availability of the draft EIS, the final EIS, and the ROD will be published in the **Federal Register** and in local newspapers.

Any final action by RUS related to the proposal will be subject to, and contingent upon, compliance with all relevant executive orders and Federal,

state, and local environmental laws and regulations in addition to the completion of the environmental review requirements as prescribed in RUS's Environmental Policies and Procedures, 7 CFR part 1794, as amended.
