Animal and Plant Health Inspection Service

Title: CWD in Cervids; Payment of Indemnity.

OMB Control Number: 0579-0189.

Summary of Collection: Federal regulations contained in 9 CFR Subchapter B govern cooperative programs to control and eradicate communicable diseases of livestock from the United States. Disease prevention is the most effective method for maintaining a healthy animal population and enhancing the Animal and Plant Health Inspection Service (APHIS) ability to complete in exporting animals and animal products. Chronic wasting disease (CWD) is a transmissible spongiform encephalopathy (TSE) of elk and deer typified by chronic weight loss leading to death. The presence of CWD disease in cervids causes significant economic and market losses to U.S. producers. APHIS will collect information using VS Form 1-23, Appraisal & Indemnity Claim form.

Need and Use of the Information: APHIS will collect the owner's name and address, the number of animals for which the owner is seeking payment, and the appraised value of each animal. The owner must also certify as to whether the animals are subject to a mortgage. If there is a mortgage the form must be signed by the owner and each person holding a mortgage. Failure to collect this information would make it impossible for APHIS to effectively sustain their program to accelerate the eradication of CWD from the United States.

Description of Respondents: Farms; business or other for-profit.

Number of Respondents: 20.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 20.
