SUPPLEMENTARY INFORMATION:

Title: Affiliate Marketing Rule (16 CFR part 680).

OMB Control Number: 3084-0131.

Type of Review: Extension of currently approved collection.

Likely Respondents: Motor vehicle dealers, financial institutions, trade associations.

Estimated Annual Burden: The total estimated burden is 7,795 hours and \$367,176 in associated labor costs. Commission staff estimates that the capital and non-labor costs associated with the Affiliate Marketing Rule's disclosure requirements are de minimis, because covered entities can consolidate affiliate marketing notices with other notices they already provide to their customers such as notices issued pursuant to the Commission's Gramm-Leach-Bliley Act Financial Privacy Rule (16 CFR part 313). On December 8, 2022, the Commission sought comment on the disclosure requirements associated with the Rule. 87 FR 75271. No relevant comments were received. For more details about the Rule requirements, the background behind these information collection provisions, and the basis for these calculations, see 87 FR 75271 (Dec. 8, 2022).

Pursuant to the OMB regulations, 5 CFR part 1320, that implement the PRA, 44 U.S.C. 3501 *et seq.*, the FTC is providing this second opportunity for public comment while seeking OMB approval to renew the pre-existing clearance for those information collection requirements.

SUPPLEMENTARY INFORMATION: On April 26, 2019, the Office of Management and Budget (OMB) published OMB memorandum 19-16, Centralized Mission Support Capabilities for the Federal Government (available at <https://www.whitehouse.gov/wp-content/uploads/2019/04/M-19-16.pdf>). This memo states that "The success of this strategy will require strong, collaborative governance and an operating model that responds to varying levels of maturity within agencies, continuous engagement of agency operational teams, establishment and adherence to common business standards, and assessment of QSMO performance (including the investments made over time to improve QSMO quality and effectiveness)." The OSSPI within OGP has worked to develop a phased approach to measuring QSMO performance as mandated by Memo 19-16. The purpose of this framework is to measure the effectiveness of the QSMOs in key areas—customer, financial, standards adoption, marketplace operations, and IT modernization.

GSA is seeking public feedback on this performance framework, including comments on understandability of the standards, suggested changes, and usefulness of the framework to the QSMO marketplace.

Guiding questions include:

- Is this framework easy to understand?
- What would you change about the framework? Is there anything missing?

Comments will be used to make updates to the performance framework as needed.

Krystal J. Brumfield,

Associate Administrator, Office of Government-wide Policy, General Services Administration.
