Survey of Industrial Research and Development

The Survey of Industrial Research and Development measures spending on research and development activities in private U.S. businesses. The Census Bureau collects and compiles this information with funding from the National Science Foundation (NSF). The NSF publishes the results in its publication series.

Survey of Plant Capacity Utilization

The Survey of Plant Capacity Utilization is designed to measure the use of industrial capacity. The survey collects information on actual output and estimates of potential output in terms of value of production. These data are the basis for calculating rates of utilization of full production capability and use of production capability under national emergency conditions.

Based upon the foregoing, the Census Bureau will be conducting the Annual Surveys in the Manufacturing Area for the purpose of collecting these data.

Notwithstanding any other provision of law, no person is required to respond to, nor shall a person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act (PRA) unless that collection of information displays a current valid Office of Management and Budget (OMB) control number. In accordance with the PRA, 44 U.S.C. chapter 45, the OMB approved the 2002 Annual Surveys under the following OMB Control Numbers: Current Industrial Reports—0607-0206, 0607-0392, 0607-0393, 0607-0395, and 0607-0476; Survey of Industrial Research and Development—3145-0027; and Survey of Plant Capacity Utilization—0607-0175. We will provide copies of each form upon written request to the Director, U.S. Census Bureau, Washington, DC 20233-0001.

Service Annual Survey

AGENCY: Bureau of the Census, Commerce.

ACTION: Notice of determination.

SUMMARY: In accordance with Title 13, United States Code (U.S.C.), sections 182, 224, and 225, the Bureau of the Census (Census Bureau) has determined that limited financial data (revenue, expenses, and the like) for selected service industries are needed to provide a sound statistical basis for the formation of policy by various governmental agencies and that these data also apply to a variety of public and business needs.

FOR FURTHER INFORMATION CONTACT: Ruth A. Bramblett, Chief, Current Services Branch, Service Sector Statistics Division, on (301) 763-7089.

SUPPLEMENTARY INFORMATION: The Census Bureau conducts surveys necessary to furnish current data on subjects covered by the major censuses authorized by Title 13, U.S.C. The Service Annual Survey provides continuing and timely national statistical data each year. Data collected in this survey are within the general scope, type, and character of those inquiries covered in the economic census.

The Census Bureau needs reports only from a limited sample of service sector firms in the United States. Selected service industries include professional, scientific, and technical services; administrative and support services; healthcare and social assistance; telecommunications, publishing, broadcasting and other information service industries; trucking, courier and messenger, and warehousing; financial services; arts, entertainment and recreation; and so forth. The probability of a firm's selection is based on its revenue size (estimated from payroll); that is, firms with a larger payroll will have a greater probability of being selected than those with smaller ones. We are mailing report forms to the firms covered by this survey and require their submission within thirty days after receipt. These data are not publicly available from nongovernment or other government sources.

Based upon the foregoing, the Census Bureau will be conducting the annual survey for the purpose of collecting these data.

Notwithstanding any other provision of law, no person is required to respond to, nor shall a person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act (PRA) unless that collection of information displays a current valid Office of Management and Budget (OMB) control number. In accordance with the PRA, 44 U.S.C. chapter 35, the OMB approved the

Service Annual Survey under OMB Control Number 0607-0422. Copies of the proposed forms are available upon written request to the Director, U.S. Census Bureau, Washington, DC 20233.

Dated: November 26, 2002.
