Commission Information

The NIST Director intends for a new federal advisory committee to be established, the NIST Safety Commission (Commission). The Commission would provide advice to the NIST Director on matters relating to NIST safety policies; safety management system, practices, and performance; and safety culture. It is anticipated that the Commission would carry out its activities over the period of one year, and convene approximately three times. The Commission would function solely as an advisory body, in accordance with the provisions of Federal Advisory Committee Act, as amended, 5 U.S.C. app. The Commission would be tasked with assessing the state of NIST's safety culture and how effectively the existing safety protocols and policies have been implemented across NIST. The Commission may consider:

- a. the quality and completeness of NIST safety directives and programs;
- b. the performance of safety protocols; and
- c. the impacts of the pandemic and hybrid work environment on safety.

The Commission would submit oral and written reports to the NIST Director on its findings, including an oral briefing of its preliminary findings within 75 days of beginning its activities, and written findings within 150 days of beginning its activities.

Members of the Commission would be appointed by the Director of NIST. The Commission would be composed of not more than seven members who are qualified to provide advice to the NIST Director on matters relating to safety policies; safety management system, practices, and performance; and safety culture.

Commission membership would be balanced fairly and drawn from industry, academia, federal laboratories, and other relevant sectors. Membership would also consider balance among the broad diversity of disciplinary specialties represented in the NIST Laboratories, including the physical sciences; chemical, biological, and materials sciences and engineering; structural engineering and fire research; manufacturing and mechanical engineering; and information and communication technologies. NIST will consider candidates with established records of distinguished service who are either a current or former member of the NIST Visiting Committee on Advanced Technology, a member of the first or second NIST Blue Ribbon Commission on Management and Safety, or a qualified expert with public or private sector experience in one or more of the following areas: (a) management and organizational structure; (b) laboratory management and safety (c) safety training and operations; (d) hazardous materials safety and security; (e) emergency medical response; and (f) organizational safety culture.

Each member would serve for the duration of the Commission. Members would serve in their personal capacities as Special Government Employees (SGEs) as that term is defined in 18 U.S.C. 202. SGEs are subject to conflict-of-interest laws and regulations, including (but not limited to) the obligation to annually file a New Entrant Confidential Financial Disclosure Report (OGE Form 450) and complete ethics training. Members of the Commission who are full-time or permanent part-time federal officers or employees would be appointed pursuant to 41 CFR 102.3.130(h) to serve as Regular Government Employee (RGE) members. Members would be individually advised of the capacity in which they will serve through their appointment letters.

The Director of NIST would appoint the Commission Chair and a Vice-Chair

¹⁸ See section 751(a)(3)(A) of the Act; and 19 CFR 351.213(h).

to serve in the absence of the Chair from among the Commission membership. Both members would serve in those capacities for the duration of the Commission, at the pleasure of the Director.

Commission members would, upon request, be reimbursed for travel and per diem as it pertains to official business of the Commission in accordance with 5 U.S.C. 5701 *et seq.* Commission members would serve without compensation, except that federal government employees who are members of the Commission would remain covered by their compensation system pursuant to 41 CFR 102–3.130(h).

Members would not be permitted to reference or otherwise utilize their membership on the Commission in connection with public statements made in their personal capacities without a disclaimer that the views expressed are their own and do not represent the views of the Commission, NIST, the Department of Commerce, or the U.S. Government.

SUPPLEMENTARY INFORMATION:

Background

The MMPA prohibits the “take” of marine mammals, with certain exceptions. Sections 101(a)(5)(A) and (D) of the MMPA (16 U.S.C. 1361 *et seq.*) direct the Secretary of Commerce (as delegated to NMFS) to allow, upon request, the incidental, but not intentional, taking of small numbers of marine mammals by U.S. citizens who engage in a specified activity (other than commercial fishing) within a specified geographical region if certain findings are made and either regulations are proposed or, if the taking is limited to harassment, a notice of a proposed incidental harassment authorization is provided to the public for review.

Authorization for incidental takings shall be granted if NMFS finds that the taking will have a negligible impact on the species or stock(s) and will not have an unmitigable adverse impact on the availability of the species or stock(s) for taking for subsistence uses (where relevant). Further, NMFS must prescribe the permissible methods of taking and other “means of effecting the least practicable adverse impact” on the affected species or stocks and their habitat, paying particular attention to rookeries, mating grounds, and areas of similar significance, and on the availability of the species or stocks for taking for certain subsistence uses (referred to in shorthand as “mitigation”); and requirements pertaining to the mitigation, monitoring and reporting of the takings are set forth. The definitions of all applicable MMPA statutory terms cited above are included in the relevant sections below.
