B. Submitting Comments

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. All comment submissions are posted at <http://www.regulations.gov> and entered into ADAMS. Comment submissions are not routinely edited to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the OMB, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that comment submissions are not routinely edited to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC recently submitted a request for renewal of an existing collection of information to OMB for review entitled, "Rules of General Applicability to Domestic Licensing of Byproduct Material." The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a **Federal Register** notice with a 60-day comment period on this information collection on June 23, 2015 (80 FR 35977).

1. *The title of the information collection:* Part 30 of title 10 of the *Code of Federal Regulations* (10 CFR), "Rules of General Applicability to Domestic Licensing of Byproduct Material."

2. *OMB approval number:* 3150-0017.

3. *Type of submission:* Extension.

4. *The form number if applicable:* Not applicable.

5. *How often the collection is required or requested:* Required reports are collected and evaluated on a continuing basis as events occur. There is a one-time submittal of information to receive a license. Renewal applications are submitted every 10 years. Information submitted in previous applications may be referenced without being resubmitted. In addition, recordkeeping must be performed on an on-going basis.

6. *Who will be required or asked to respond:* All persons applying for or holding a license to manufacture, produce, transfer, receive, acquire, own, possess, or use radioactive byproduct material.

7. *The estimated number of annual responses:* 179,423 (22,044 NRC Licensee responses [1,212 reporting responses + 2,600 for recordkeeping + 18,232 third-party disclosures] and 157,379 Agreement State Licensee responses [13,790 reporting responses + 17,988 for recordkeeping + 125,601 third-party disclosures]).

8. *The estimated number of annual respondents:* 20,588 (2,600 NRC licensees and 17,988 Agreement State licensees).

9. *An estimate of the total number of hours needed annually to comply with the information collection requirement or request:* 273,991 (NRC licensees 32,803 hours [15,318 hours for reporting + 15,615 hours for recordkeeping + 1,870 hours for third-party disclosures] and Agreement State licensees 241,188 hours [111,209 hours for reporting + 117,091 hours for recordkeeping + 12,888 hours for third-party disclosures]).

10. *Abstract:* 10 CFR part 30 establishes requirements that are applicable to all persons in the United States governing domestic licensing of radioactive byproduct material. The application, reporting and recordkeeping requirements are necessary to permit the NRC to make a determination whether the possession, use, and transfer of byproduct material is in conformance with the Commission's regulations for protection of the public health and safety.

Dated at Rockville, Maryland, this 5th day of November 2015.

For the Nuclear Regulatory Commission.

Tremaine Donnell,
NRC Clearance Officer, Office of Information Services.
