

provided investors with desirable products with which to trade. Furthermore, the Exchange believes that it has not experienced any adverse market effects or regulatory concerns with respect to the Pilot Program. The Exchange further does not believe that the proposed extension of the Pilot Program will impose any burden on intermarket competition that is not necessary or appropriate in furtherance of the purposes of the Act because it only applies to trading on CBOE. To the extent that the continued trading of the Pilot Products may make CBOE a more attractive marketplace to market participants at other exchanges, such market participants may elect to become CBOE market participants.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange neither solicited nor received comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the proposed rule change does not (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest, the proposed rule change has become effective pursuant to Section 19(b)(3)(A) of the Act¹⁰ and Rule 19b-4(f)(6)(iii) thereunder.¹¹

The Exchange has asked the Commission to waive the 30-day operative delay so that the proposal may become operative immediately upon filing. The existing Pilot Program currently expires on February 8, 2014. The Commission believes that waiving the 30-day operative delay to the extent necessary to allow the proposal to become operative on February 8, 2014 is consistent with the protection of investors and the public interest, as it will allow the Pilot Program to continue uninterrupted after its current expiration date, thereby avoiding

investor confusion that could result from a temporary interruption in the Pilot Program. For this reason, the Commission designates the proposed rule change to be operative on February 8, 2014.¹²

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

Self-Regulatory Organizations; Chicago Board Options Exchange, Incorporated; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change to Amend its Fees Schedule

January 28, 2014.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the "Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on January 17, 2014, Chicago Board Options Exchange, Incorporated (the "Exchange" or "CBOE") filed with the Securities and Exchange Commission (the "Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend its Fees Schedule. The text of the proposed rule change is available on the Exchange's Web site (<http://www.cboe.com/AboutCBOE/CBOELegalRegulatoryHome.aspx>), at the Exchange's Office of the Secretary, and at the Commission's Public Reference Room.

¹⁰ 15 U.S.C. 78s(b)(3)(A).

¹¹ 17 CFR 240.19b-4(f)(6)(iii). As required under Rule 19b-4(f)(6)(iii), the Exchange provided the Commission with written notice of its intent to file the proposed rule change, along with a brief description and the text of the proposed rule change, at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission.

¹² For purposes only of waiving the 30-day operative delay, the Commission has also considered the proposed rule's impact on efficiency, competition, and capital formation. See 15 U.S.C. 78c(f).

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend its Fees Schedule regarding subcabinet trades. Subcabinet trades are limit orders with a price of at least \$0 but less than \$1 per options contract (per Exchange Rule 6.54, Interpretation and Policy .03). These trades are often executed in order to close out positions prior to expiration and therefore remove the risks or capital costs associated with open positions.

The Exchange hereby proposes to explicitly state that the Exchange will assess no transaction fees or surcharges for subcabinet trades. This is because the Exchange believes that enabling market participants to close out positions at no cost allows those market participants to reduce risk associated with near-worthless positions and free up capital for other trading purposes. This serves to increase volume and profit opportunity in CBOE's non-subcabinet options series and across all CBOE products, which benefits both the Exchange and all of the Exchange's market participants. The Exchange desires to make clear that it will assess the Sales Value Fee for subcabinet trades, as the Sales Value Fee is assessed on transactions when the Exchange must pay some outside party (pursuant to Section 31 of the Exchange Act, or to another exchange) in relation to such transactions.

The Exchange has a number of fee-related programs that provide for reduced or limited fees based on achieving certain volume thresholds.³

³ For these purposes, these programs are the Liquidity Provider Sliding Scale, the CBOE Proprietary Products Sliding Scale, and the Customer Large Trade Discount, (see the tables bearing those names on the Exchange Fees Schedule for more details on those programs) as well as the program, described in Footnote 25 of the

As the Exchange proposes to state that it will not assess fees for subcabinet trades, the Exchange also proposes to state that subcabinet trades will also not count towards any volume thresholds or volume threshold calculations.⁴ The Exchange has determined that it is not economically viable to count transactions for which fees are not assessed towards the volume thresholds of programs that offer lowered fees based on reaching those volume thresholds.

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the Act and the rules and regulations thereunder applicable to the Exchange and, in particular, the requirements of Section 6(b) of the Act.⁵ Specifically, the Exchange believes the proposed rule change is consistent with Section 6(b)(4) of the Act,⁶ which requires that Exchange rules provide for the equitable allocation of reasonable dues, fees, and other charges among its Trading Permit Holders and other persons using its facilities. The Exchange believes that it is reasonable to not assess fees for subcabinet trades because market participants executing such trades will not have to pay a fee for such transactions. The Exchange believes that it is equitable and not unfairly discriminatory to not assess fees or surcharges for subcabinet trades because subcabinets are of such minimal economic value that assessing almost any fee would render such transactions not economically viable for the market participants holding the positions, thereby causing the inefficiency of positions being left open merely because it is more expensive to close them. The Exchange believes that enabling market participants to close out positions at no cost allows those market participants to reduce risk associated with near-worthless positions and free up capital for other trading purposes. This serves to increase volume and profit opportunity in CBOE's non-subcabinet options series and across all CBOE products, which benefits both the Exchange and all of the Exchange's market participants. Also, all market

participants will be able to avoid being assessed fees for subcabinet trades.

The Exchange believes that it is reasonable, equitable and not unfairly discriminatory to exclude volume from subcabinet trades towards the Exchange Fee Programs because such trades are not assessed fees. It does not make economic sense (nor is it economically viable) to count transactions towards programs that provide lower fees when such transactions are not assessed fees, and it seems fair to exclude subcabinet trades from such programs when subcabinet trades are not being assessed fees. Similarly, the Exchange believes that it is reasonable, equitable and not unfairly discriminatory to assess the Sales Value Fee for subcabinet trades, as the Sales Value Fee is assessed on transactions when the Exchange must pay some outside party (pursuant to Section 31 of the Exchange Act, or to another exchange) in relation to such transactions. In this circumstance, the Exchange believes that it would not be economically viable to pay fees to those outside parties when no fee is being assessed by the Exchange for such transactions.

B. Self-Regulatory Organization's Statement on Burden on Competition

CBOE does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. CBOE does not believe that the proposed rule change will impose any burden on intramarket competition that is not necessary or appropriate in furtherance of the purposes of the Act because all market participants are able to avoid being assessed fees for subcabinet trades, and because the exclusion of subcabinet trades from counting towards the Exchange Fee Programs applies to all market participants to whom such programs apply. CBOE does not believe that the proposed rule change will impose any burden on intermarket competition that is not necessary or appropriate in furtherance of the purposes of the Act because the proposed change only affects trading on CBOE. Indeed, explicitly stating that subcabinet trades will not be assessed fees may encourage other exchanges to do the same, causing greater competition. To the extent that the proposed rule change makes CBOE a more attractive trading venue for market participants on other exchanges, such market participants may elect to become CBOE market participants.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange neither solicited nor received comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A) of the Act⁷ and paragraph (f) of Rule 19b-4⁸ thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission will institute proceedings to determine whether the proposed rule change should be approved or disapproved.

The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

(A) Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose
