

inch meter at its existing San Joaquin Meter Station; as well as relocate an existing mainline valve and pipeline inspection tool.

Background

On February 2, 2018, the Commission issued a *Notice of Intent to Prepare an Environmental Assessment for the Proposed Sierrita Compressor Expansion Project and Request for Comments on Environmental Issues* (NOI). The NOI was sent to affected landowners; federal, state, and local government agencies; elected officials; environmental and public interest groups; Native American tribes; other interested parties; and local libraries and newspapers. In response to the NOI, the Commission received comments from Pima County (Office of Sustainability & Conservation, the Regional Flood Control District, the Development Services Department, and the Regional Wastewater Reclamation Department); the Altar Valley Conservation Alliance; and the U.S. Environmental Protection Agency. The primary issues raised by the commentors regarded purpose and need, alternatives, pipeline safety, water resources, air quality, biological resources and invasive species, hazardous materials, cultural resources, cumulative impacts, restoration and post-construction monitoring, outdoor lighting, and impacts on existing utility lines.

Additional Information

In order to receive notification of the issuance of the EA and to keep track of all formal issuances and submittals in specific dockets, the Commission offers a free service called eSubscription. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to www.ferc.gov/docs-filing/esubscription.asp.

Additional information about the Project is available from the Commission's Office of External Affairs at (866) 208-FERC or on the FERC website (www.ferc.gov). Using the eLibrary link, select General Search from the eLibrary menu, enter the selected date range and Docket Number excluding the last three digits (*i.e.*, CP18-37), and follow the instructions. For assistance with access to eLibrary, the helpline can be reached at (866) 208-3676, TTY (202) 502-8659, or at FERCOnlineSupport@ferc.gov. The eLibrary link on the FERC website also provides access to the texts of formal documents issued by the Commission,

such as orders, notices, and rule makings.

Dated: May 1, 2018.

[Docket No. NJ18-12-000]

Oncor Electric Delivery Company LLC; Notice of Filing

Take notice that on April 23, 2018, Oncor Electric Delivery Company LLC submitted its tariff filing: Oncor TFO Tariff Rate Changes to be effective 11/27/2017.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. On or before the comment date, it is not necessary to serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the eFiling link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 5 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the eLibrary link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the website that enables subscribers to receive email notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please email FERCOnlineSupport@ferc.gov, or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Comment Date: 5:00 p.m. Eastern Time on May 14, 2018.

BILLING CODE 6717–01–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP18–251–000]

Portland Natural Gas Transmission System; Notice of Application

Take notice that on April 20, 2018, Portland Natural Gas Transmission System (Portland Natural Gas), 700 Louisiana Street, Suite 700, Houston, TX 77002–2700, filed an application under section 7(c) of the Natural Gas Act (NGA) and Parts 157 and 284 of the Commission's rules and regulations for Phase I of the Portland Xpress Project. Portland Natural Gas requests authorization to increase the certificated capacity on its wholly-owned north system from Pittsburg, New Hampshire, to Westbrook, Maine, by 39.841 million cubic feet per day (MMcf/d), and to increase the certificated capacity on its system facilities jointly-owned with Maritimes & Northeast Pipeline, L.L.C. from Westbrook, Maine to Dracut, Massachusetts by 1.641 MMcf/d, effective November 1, 2018, all as more fully described in the application which is on file with the Commission and open to public inspection. The filing may also be viewed on the web at <http://www.ferc.gov> using the eLibrary link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at FERCOnlineSupport@ferc.gov or call toll-free, (866) 208–3676 or TTY, (202) 502–8659.

Additionally, pursuant to section 3 of the NGA (15 U.S.C. 717b), Part 153 of the Commission's regulations, Executive Order 10485, as amended by Executive Order 12038, and Secretary of Energy Delegation Order No. 0204–112, Portland Natural Gas requests authorization to increase its import and export capacity from 210 MMcf/d to 274.216 MMcf/d. Portland Natural Gas also proposes to amend its Presidential Permit issued on September 24, 1997, as amended on November 18, 2003, and on November 28, 2017, to reflect the increase mentioned above.¹

Portland Natural Gas states that it's Phase I of the Portland Xpress Project would expand gas service delivery options for the New England market. Portland Natural Gas proposes no construction or modifications to its existing system or border crossing facilities in connection with this request, and as such, there are no costs associated with the project.

Any questions regarding this application should be directed to Robert Jackson, Manager, Certificates & Regulatory Administration, Portland Natural Gas Transmission System, 700 Louisiana Street, Suite 700, Houston, Texas 77002–2700, or call (832) 320–5487, or email: robert_jackson@transcanada.com.

Pursuant to section 157.9 of the Commission's rules (18 CFR 157.9), within 90 days of this Notice, the Commission staff will either: Complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below file with the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 7 copies of filings made in the proceeding with the Commission and must mail a copy to the applicant and to every other party. Only parties to the

proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentators will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commentators will not be required to serve copies of filed documents on all other parties. However, the non-party commentators will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the eFiling link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 5 copies of the protest or intervention to the Federal Energy regulatory Commission, 888 First Street NE, Washington, DC 20426.
