

Secretary's Order 3418, which implements E.O. 14154.

### Preliminary Alternatives

The RMP amendment/EA will include two alternatives varying the amount of BLM-administered Federal coal authorized to be available for leasing. The preliminary alternatives are the coal allocation decisions from: (1) The 2024 approved RMP amendment/record of decision making zero acres of BLM-administered Federal coal within the planning area available for further consideration for coal leasing (No Action/current decision); and (2) the 2021 approved RMP amendment/record of decision making 1,214,380 acres of BLM-administered Federal coal within the planning area available for further consideration for coal leasing (Proposed Action). The BLM welcomes comments on all preliminary alternatives as well as suggestions for additional alternatives.

### Planning Criteria

The planning criteria guide the planning effort and lay the groundwork for effects analysis by identifying the preliminary issues and their analytical frameworks. Preliminary issues for the planning area were consistent in the 2021 and 2024 RMP amendments and are being considered as preliminary issues for this RMP amendment/EA. The BLM requests that industry, State, Tribal, and local governments, and the public interested in coal management in the planning areas provide the BLM relevant coal resource data that can help inform this project. Specifically, the BLM requests information on the development potential (e.g., location, quality, and quantity) of the BLM-administered Federal coal mineral estate, and on surface resource values related to multiple-use conflicts and the suitability of the planning area for coal development.

We will use this information to complete the RMP amendment and EA consistent with 43 CFR 3420.1–4 and to formulate alternatives that identify areas acceptable for further leasing consideration. We are requesting these data to ensure that these planning efforts have sufficient information and data to consider a reasonable range of resource uses, management options, and alternatives for managing BLM-administered Federal coal mineral estate. Proprietary data marked as confidential may be submitted in response to this call for coal and other resource information. Please submit all proprietary information to the appropriate Field Manager listed in **ADDRESSES** above. The BLM will treat submissions marked as “Confidential”

in accordance with the laws and regulations governing the confidentiality of such information. The planning criteria are available for public review and comment at the ePlanning website (see **ADDRESSES**).

### Public Scoping Process

This notice of intent initiates the scoping period, call for coal data, and public review of the planning criteria, which guide the development and analysis of the RMP amendment and EA.

The BLM does not intend to hold any public meetings, in-person or virtual, during the public scoping period. Should the BLM later determine to hold public meetings, the specific date(s) and location(s) of any meeting will be announced at least 15 days in advance through local media, newspapers, ePlanning, and the BLM website.

### Interdisciplinary Team

The BLM will use an interdisciplinary approach to develop the plan in order to consider the variety of resource issues and concerns identified. Specialists with expertise in the following disciplines will be involved in this planning effort: air resources, planning, rangeland management, minerals and geology, outdoor recreation, archaeology, paleontology, wildlife and fisheries, lands and realty, hydrology, soils, and economics.

### Additional Information

The BLM will utilize and coordinate the NEPA and land use planning processes for this planning effort to help support compliance with applicable procedural requirements under the Endangered Species Act (16 U.S.C. 1536) and section 106 of the National Historic Preservation Act (54 U.S.C. 306108). The information about historic and cultural resources and threatened and endangered species within the area potentially affected by the proposed plan will assist the BLM in identifying and evaluating impacts to such resources.

The BLM will consult with federally recognized Tribes on a government-to-government basis in accordance with E.O. 13175, BLM MS 1780, and other Departmental policies. Tribal concerns, including impacts on Indian trust assets and potential impacts to cultural resources, will be given due consideration. Federal, State, and local agencies, along with federally recognized Tribes and other stakeholders that may be interested in or affected by the proposed Miles City RMP amendment that the BLM is

evaluating, are invited to participate in the scoping process.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.
