

2. *Sheltered Workshop Wage Reporting—0960-0771.* Sheltered workshops are nonprofit organizations or institutions that implement a recognized program of rehabilitation for workers who have handicaps, or provide such workers with remunerative employment or other occupational rehabilitating activity of an educational or therapeutic nature. Sheltered workshops perform a service for their clients by reporting monthly wages directly to SSA. SSA uses the information these workshops provide to verify and post monthly wages to the SSI recipient's record. Most workshops report monthly wage totals to their local SSA office so we can adjust the client's

SSI payment amount in a timely manner and prevent overpayments. Sheltered workshops are motivated to report wages voluntarily as a service to their clients. Respondents are sheltered workshops that report monthly wages for services performed in the workshop.

SSA uses the information to make initial or continuing eligibility determinations for SSI claimants or recipients who are subject to deeming. The respondents are persons whose income and resources SSA may deem (consider to be available) to SSI applicants or recipients.

claimants for Social Security disability benefits or SSI payments, SSA periodically conducts a continuing disability review (CDR). During a CDR, the agency reviews claimants' status to see if their condition improved to the point they are capable of working, and if so, to reduce or stop their benefits or payments. If SSA notifies a claimant the agency will stop benefits or payments, the claimant may appeal the determination. The first appeal gives the claimant the opportunity for a full evidentiary hearing before a disability hearing officer (DHO).

For quality review purposes, a Federal component reviews a small sample of the DHO's determinations. It is rare for the reviewing component to reverse a DHO determination favorable to the claimant. Before SSA can issue an unfavorable determination, we give the claimant 10 days to provide a written statement explaining why SSA should not stop payments. The written statement is the information SSA collects in this process. Respondents are CDR claimants whose payments may cease.

Type of Request: Extension of an OMB-approved information collection.

Number of Respondents: 8.

Frequency of Response: 1.

Average Burden per Response: 60 minutes.

Estimated Annual Burden: 8 hours.

II. SSA submitted the information collections listed below to OMB for clearance. Applicants file for title II survivor benefits at the VA by completing the SSA-24. The VA forwards the form to SSA for processing. SSA uses the information to determine eligibility for benefits. The respondents are survivors of deceased armed services personnel who are applying for benefits at the VA.

If disability claimants attempt to return to work after receiving payments, but are unable to continue working, they submit the SSA-3033, Employee Work Activity Questionnaire, so SSA can evaluate their work attempt. SSA also uses this form to evaluate unsuccessful subsidy work and determine applicants' continuing eligibility for disability payments.
