

DEPARTMENT OF TRANSPORTATION**Federal Railroad Administration****[Docket Number FRA–2011–0079]****Petition for Waiver of Compliance**

In accordance with part 211 of title 49 of the Code of Federal Regulations (CFR), this document provides the public notice that by a document dated September 13, 2011, the Union Pacific Railroad (UP) has petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 236. FRA assigned the petition Docket Number FRA–2011–0079.

UP seeks relief from the provisions of 49 CFR Section 236.110(a) as it pertains to the signoff of the coded cab signal (CCS) departure test form (UP Form Number 25023). UP requests the ability to have employees either affix their signature or enter their unique employee identification number on the CCS departure test form per 49 CFR 236.587. UP proposes that allowing an employee to sign the CCS departure test form with their employee identification number would comply with the requirements set forth in 49 CFR 236.110(a)(1), “Signed by the employee making the test * * *.” UP feels that by allowing an employee to use their unique employee identification number when signing a CCS departure test form will not only make it easier to identify which employee performed the CCS departure test, it will also enhance the safety of UP operations and allow for a more consistent sign off method regarding routine inspection and departure processes.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at <http://www.regulations.gov> and in person at the U.S. Department of Transportation’s (DOT) Docket Operations Facility, 1200 New Jersey Ave., SE., W12–140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number and may be submitted by any of the following methods:

- *Web site:* <http://www.regulations.gov>. Follow the online instructions for submitting comments.

DEPARTMENT OF TRANSPORTATION**Federal Railroad Administration****[Docket Number FRA–2011–0074]****Petition for Waiver of Compliance**

In accordance with part 211 of Title 49 Code of Federal Regulations (CFR), this document provides the public notice that by a document dated September 2, 2011, BNSF Railway (BNSF) has petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 232. FRA has assigned the petition Docket Number FRA–2011–0074.

BNSF seeks relief from certain provisions of 49 CFR part 232, *Brake System Safety Standards for Freight and Other Non-Passenger Trains and*

Equipment; End-of-Train Devices. Specifically, BNSF is proposing to use Web-based software to satisfy the “hands-on” portion of training required by 49 CFR Section 232.203(e), in connection with periodic refresher training. Refresher training is required at intervals not to exceed 3 years, and shall consist of classroom and hands-on training, as well as testing.

BNSF states it created a Web-based software application that it characterizes as Air Brake System Virtual Training Environment (ABSVTE), which conceptually closely parallels Locomotive Engineer simulator training. ABSVTE places the employee as an avatar in a realistic 3D virtual scenario. The employee must maneuver the avatar in the virtual setting and perform all inspection tasks. The employee communicates on a virtual radio, listens for the proper brake responses, and visually inspects each car in the scenario using a combination of mouse and key strokes. During the simulation, the employee must properly identify any unusual conditions and take corrective action. The software has the ability for the trainer to control the environment and preprogram different scenarios and conditions, covering a variety of air brake systems and associated air brake components an employee might encounter in the field. BNSF asserts that ABSVTE will enhance employee decision-making by testing his or her ability to identify and correct malfunctions that are difficult to demonstrate during operational testing. FRA permits operational testing to satisfy the hands-on portion of periodic refresher training, provided the tests are documented.

BNSF will require 100-percent proficiency to receive virtual hands-on credit. Employees failing to achieve 100-percent proficiency will be allowed to retake the virtual test. If the employee again fails to achieve 100-percent proficiency, he or she will receive remedial training from a supervisor or trainer.

In summary, BNSF respectfully requests that ABSVTE be considered as an additional option to satisfy the “hands-on” portion of periodic refresher training required by 49 CFR 232.203(e). BNSF states that incorporating ABSVTE into their portfolio of traditional training delivery mechanisms will result in an overall increase in the frequency of air brake training and evaluation for BNSF employees.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in

connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

Federal Railroad Administration

[Docket Number FRA-2011-0022]

Notice of Public Hearing

The Central Oregon and Pacific Railroad (CORP) has petitioned the Federal Railroad Administration (FRA) seeking the approval of the proposed discontinuance and removal of automatic block signal systems on three sections of the Roseburg Subdivision and on one section of the Siskiyou Subdivision.

This proceeding is identified as FRA block signal application Docket Number FRA-2011-0022. A copy of CORP's full petition is available for review online at <http://www.regulations.gov>.

FRA has conducted a field investigation in this matter and has issued a public notice seeking comments from interested parties (See 75 **Federal Register** 21943 (April 19, 2011)). After examining the carrier's proposal and the available facts, FRA has determined that a public hearing is necessary before a final decision is made on this proposal. Accordingly, FRA invites all interested persons to participate in a public hearing on December 1, 2011. The hearing will be conducted at the Douglas County Courthouse, Room 310, 1036 Southeast Douglas Avenue, Roseburg, Oregon 97470. The hearing will begin at 9 a.m. Interested parties are invited to present oral statements at the hearing. For information on facilities or services for persons with disabilities or to request special assistance at the hearing, contact FRA's Docket Clerk Jerome Melis-Tull by telephone, email, or in writing, at least 5 business days before the date of the hearing. Mr. Melis-Tull's contact information is as follows: FRA, Office of Chief Counsel, Mail Stop 10, 1200 New Jersey Avenue, SE., Washington, DC 20590; *telephone:* 202-493-6058; and *e-mail:* Jerome.Melis-tull@dot.gov.

The hearing will be informal and conducted in accordance with Rule 25 of the FRA Rules of Practice (Title 49 Code of Federal Regulations Section 211.25) by a representative designated by FRA. The hearing will be a nonadversary proceeding; therefore, there will be no cross-examination of persons presenting statements. An FRA representative will make an opening statement outlining the scope of the hearing. After all initial statements have been completed, those persons wishing to make brief rebuttal statements will be given the opportunity to do so in the same order in which they made their initial statements. Additional procedures, if necessary for the conduct of the hearing, will be announced at the hearing.

Issued in Washington, DC, on October 19, 2011.

Robert C. Lauby,

Deputy Associate Administrator for Regulatory and Legislative Operations.
